~~A.R.I.D.E.: Advanced Roadside Impaired Driving Enforcement~~

~~Plainfield Police Department~~

~~14300 S. Coil Plus Drive, Plainfield IL 60544~~

~~Monday & Tuesday, April 27 & 28, 2015~~

~~8:00 am till 4:00 pm~~

Course Description:

The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police (IACP) Technical Advisory Panel (TAP) and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers that have not received advanced or in-service training regarding drug impairment tend to not be able to identify these characteristics; therefore they will release an impaired driver. Once an officer completes the training he/she will be more proficient with the 3 battery of tests (HGN, WAT, OLS), as well as a broader knowledge of drug impairment indicators. The law enforcement officer will also be more familiar with the DRE program and its function. This will facilitate better communication and transfer of critical roadside indicators of impairment to the evaluating DRE officer for a more complete and accurate assessment of the impairment.

ARIDE is a 16-hour training course taught by DRE instructors or SFST instructors who are also DREs. The training will be conducted under the control and approval of the DEC Program state coordinator. This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem. The following topics are discussed and/or delivered in detail throughout the entire curriculum:

- Update of Standardized Field Sobriety Testing Battery
- How drug impaired driving affects our community
- SFST Proficiency Examination
- Drugs in the human body and the impairing effects they may have
- Seven categories of drugs identified by the DEC Program
- Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement
- Provide an expanded knowledge of prosecuting drug impaired drivers to prosecutors and courts

Much of the classroom training is devoted to hands-on practice.

Instructor: Tony Lebron (Retired M/Sgt; Illinois State Police) will be the lead instructor.

Rapid Medical Response **"Self-aid/Buddy-aid" (SA/BA)**

Monee Police Department
5356 W. Main St., Monee, IL 60449
Tuesday, May 5, 2015
8:00 am till 4:00 pm

Course Description:

Patrol officers are at greater risk than ever before due to escalating violence, better trained terrorists, and offenders who have military or paramilitary style training. The ever increasing intent of these criminal elements is to kill first responders in military type ambushes and wreak havoc in urban environments. Our medical and police first responders are not adequately trained or equipped to deal with the critical moments during these horrific events. Paramedics are not allowed into combat zones while shooting is still occurring. The police, therefore, are on their own to treat themselves and others for wounds sustained during a response to multiple shooters.

Consequently, this workshop incorporates military style responses to active shooters with combat medical support that parallels the tactics required. This workshop familiarizes patrol officers with the basic uses of the Israeli bandage and other methods of emergency self-medical care during active shooting incidents or terrorist attacks. The workshop features use of combat tourniquets and pressure dressings similar to those used by the U. S Military in Iraq and Afghanistan.

Course Summary:

This 1-day course provides officers with the skills to provide life-saving self-aid/buddy-aid (SA/BA) in the event of serious injury. What differentiates this training from a standard first-aid course is the focus on providing proven tactical medical concepts in an austere and hostile patrol environment. During the morning session, officers will receive lecture and practical instruction in the core concepts SA/BA; airway/breathing, bleeding control/shock, assessment, high-threat evacuation. In the afternoon, officers will participate in multiple law enforcement based scenarios. These scenarios allow each officer to apply the SA/BA concepts learned in a dynamic patrol based setting.

- Mental/Physical Response to Trauma
- Airway/Breathing Management
- Bleeding Control/Shock Management
- Rapid Casualty Evaluation
- High-Threat Casualty Evacuation
- Hands-On/Practical Training
- Scenario Training

The instructors:

Are supplied by, Professional Tactical EMS Consulting, Inc. (PROTEC). PROTEC specializes in providing tactical EMS consulting/contracting services and medical training to law enforcement agencies.

911 Homicide Calls:

"Is the Caller the Killer?"

Local 150 Operating Engineers Training Center
19800 W. South Arsenal Rd., Wilmington IL 60481

Tuesday, May 12, 2015

8:00 am till 4:00 pm

Course Description: This one-day training course is designed for detectives, supervisors, dispatchers, and prosecutors who investigate or prosecute homicides. The course instructs on the guilty and innocent indicators made by individuals during 911 homicide phone calls. Each indicator is thoroughly defined, discussed and exemplified by actual 911 homicide phone calls.

The course goal is to make each attendee aware of the importance of examining the 911 calls made by individuals reporting a death or homicide. One-third of all murders call in their own crime pretending to be innocent. Much can be learned about the offender and offense from a critical analysis of the taped call.

Topics will include:

- Analysis of Actual Homicide Calls
- Indicators of Innocence
- Indicators of Guilt
- Utilizing the C.O.P.S. Scale
- Importance of Critical Analysis
- Columbus Case Review
- Sanders Case Review
- Eleventh, Minnesota Case Review
- Caylee Anthony Case Review
- In-Class Exercises

Instructor: Lt. Tracy Harpster has served with the Moraine Police Department in Ohio since 1984. The Tactical Analysis Program

"Tactical Awareness and Threat Recognition"

JJC, Weitendorf Agricultural Education Center

17840 Laraway Rd, Joliet, IL 60433

Tuesday & Wednesday, June 9 & 10, 2015

8:00 am till 4:00 pm

GPS alert: use **1151 East Laraway Road 60433**, neighbor of Ag. Center

Course Description: The Tactical Analysis program offered by The CP Journal provides training to the defense, law enforcement and security industries in behavioral pattern recognition and analysis. Developing the ability to observe, classify, assess and communicate nonverbal behavior empowers our nation's protectors to proactively recognize potential threats before an attack occurs. The observation process taught in the program improves both intuitive decision-making and the deliberate analysis of situations, persons, and the environment.

The "Tactical Awareness and Threat Recognition" portion of the course provides instruction in the foundational behavioral observations used to make assessments about individual people. The course is focused on ensuring that students can accurately assign people to each of the four mutually exclusive primary clusters of behavior. Once officers have proven that they can make these observations, articulate the reason for objectively assigning a person to each cluster, and understand the "why" behind the assessments, these behaviors are then put into the context of the "officer-ambush" to determine the significance of each behavior in relation to the risks that police officers face.

The "Tactical Sense-making" portion of the course expands on the behaviors taught on the first day to include all four pillars of observable behaviors. Officers learn how to establish an all-encompassing baseline for the areas the law enforcement professionals are expected to operate in using a deliberate, systematic and repeatable process.

Instructor: Patrick Van Horne; Founded security-consulting company (The CP Journal) to provide training in behavioral analysis to the military, law enforcement, and private security industries. Designed, developed and implemented unique behavioral training programs for threat recognition, risk management and advanced questioning. A former Marine Officer, Patrick led 350 Marines through a yearlong combat training and preparation program prior to their deployment. Designed long-term training plan for cross-functional teams from 9 diverse technical areas. He also led 40 Marines and served as Second-in-Command for 200 Marines through two deployments to Iraq. Coordinated all intelligence, operational, logistics, communication and training requirements across units.

(Marseilles National Guard Range will be utilized for June 19, starting mid-morning)

1:30 pm to 9:30 pm

(Class will begin at the JJC Ag. Center each afternoon)

Course Description:

Recent high violence incidents, including deliberate ambushes and attacks against law enforcement officers and citizens by offenders armed with long guns, have caused police agencies to add centerfire rifles and carbines as standard patrol/emergency response equipment.

This course is appropriate for the officer with no previous rifle training. Officers who have attended previous rifle/carbine courses are encouraged to attend as an update and refresher. This intensive three day course is also designed to give firearms instructors and special weapons users a solid foundation in and understanding of the tactical application of rifle/carbine systems in law enforcement activities. **This course provides prerequisite training needed for the state-certified 40 Hr. Police Rifle/Carbine Instructor program scheduled on July 13 – 17, 2015.**

Through classroom instruction and hands-on training, students will learn:

- Safe weapon handling, operation, and deployment in high-stress police field operations
- Care, cleaning, and maintenance of the firearm
- Disassembly, reassembly, and basic armorers' considerations
- Accessory equipment including night sights, scopes, flash suppressors, compensators, scope mounts, and check pieces
- External and terminal ballistics of .223(556 m/m), and pistol caliber rounds. Selecting the types of bullet configurations that apply to different tactical situations.
- Position shooting on ranges from 3 yards to 330 yards (330 yds. IF we use Marseilles NG Base) - Close-quarter shooting skills
- Tactical deployment issues of the rifle/carbine

Upon completion of this program, students will have been trained to safely and effectively employ the rifle/carbine in law enforcement applications. Certification of this course has been approved by the Illinois Law Enforcement Training and Standards Board.

From Case to Conviction: Child Abuse and Child Death Investigations

Plainfield Fire Protection District (Headquarters)

23748 W. 135th Street; Plainfield, IL 60544

Tuesday & Wednesday; June 23 & 24, 2015

8:00 am till 4:00 pm

Course Description:

This sixteen hour course is specifically designed to provide law enforcement officers with the tools necessary to take a child abuse or child death investigation from "case to conviction." Child abuse affects over one hundred thousand children, with over 100 non-accidental deaths, in Illinois every year. Law enforcement personnel play a critical role in investigating these allegations and presenting criteria for offender charges when appropriate.

The attendee will gain insight into child abuse and child death through the examination of scene assessment, preservation of evidence, medical findings, victim and witness interviews (child/adult), understanding offender triggers, differentiation of abuse vs. accident, and statistical data.

This course will be a comprehensive overview of child abuse and child death investigations through presentation of real life case scenarios.

Topics covered will include:

- Knowledge of Child Abuse and Neglect
- Scene Investigation
- Interview/Interrogation Strategies
- Working with Multi-Disciplinary Teams
- Securing Charges
- Emotional Impact

Upon Completion the Participant Will Have Acquired:

1. Working knowledge of child maltreatment terminology
2. Insight into investigative strategies for victims and suspects
3. Specific information needed to gather for every type of child abuse/neglect/death case
4. Knowledge regarding how data and statistics give an understanding of why? and how?
5. Insight into the behavior of victimized children
6. Understanding the importance of medical findings and how to interpret "medical speak"
7. Skills to collaborate effectively with a multi-disciplinary team
8. How to write effective investigative documentation
9. Enhanced ability to effectively present cases to the state's attorney

Rapid Medical Response

"Self-aid/Buddy-aid"

Plainfield Police Department

14300 S. Coil Plus Drive, Plainfield, IL 60544

Thursday, June 25, 2015

8:00 am till 4:00 pm

Course Description: Patrol officers are at greater risk than ever before due to escalating violence, better trained terrorists, and offenders who have military or paramilitary style training. The ever increasing intent of these criminal elements is to kill first responders in military type ambushes and wreak havoc in urban environments. Our medical and police first responders are not adequately trained or equipped to deal with the critical moments during these horrific events. Paramedics are not allowed into combat zones while shooting is still occurring. The police, therefore, are on their own to treat themselves and others for wounds sustained during a response to multiple shooters.

Consequently, this workshop incorporates military style responses to active shooters with combat medical support that parallels the tactics required. This workshop familiarizes patrol officers with the basic uses of the Israeli bandage and other methods of emergency self-medical care during active shooting incidents or terrorist attacks. The workshop features use of combat tourniquets and pressure dressings similar to those used by the U. S Military in Iraq and Afghanistan.

Course Summary: This 1-day course provides officers with the skills to provide life-saving self-aid/buddy-aid (SA/BA) in the event of serious injury. What differentiates this training from a standard first-aid course is the focus on providing proven tactical medical concepts in an austere and hostile patrol environment. During the morning session, officers will receive lecture and practical instruction in the core concepts SA/BA; airway/breathing, bleeding control/shock, assessment, high-threat evacuation. In the afternoon, officers will participate in multiple law enforcement based scenarios. These scenarios allow each officer to apply the SA/BA concepts learned in a dynamic patrol based setting.

- Mental/Physical Response to Trauma
- Airway/Breathing Management
- Bleeding Control/Shock Management
- Rapid Casualty Evaluation
- High-Threat Casualty Evacuation
- Hands-On/Practical Training
- Scenario Training

Instructors: Are supplied by, Professional Tactical EMS Consulting, Inc. (PROTEC). PROTEC specializes in providing tactical EMS consulting/contracting services and medical training to law enforcement agencies.

(Marseilles National Guard Range will be utilized for July 17, starting mid-morning)

Monday - Friday, July 13 - 17, 2015

1:30 pm to 9:30 pm

(Class will begin at the JJC Ag. Center each afternoon)

Course Description: This course was developed to assist experienced firearms instructors in training their department's patrol specialists in the use of the rifle/carbine. Through proper training and selection of equipment, police departments can utilize versatile police carbine/rifles to respond to immediate threats to life, which in the past required specialized units such as SWAT. Disturbing national trends indicate that offenders are relying on more advanced weaponry and firepower, leaving first responders overmatched and our communities increasingly vulnerable to threats to life and property. By having officers trained in the use of more accurate and powerful weaponry than standard police firearms, properly trained officers will have the skills, aptitudes, and training experience to respond to these violent calls.

Many departments are acquiring rifle/carbines through commercial sources and the federal government is providing military M-16A1 rifles to local departments through the LESO 10-33 program. Rifle/carbine training will cover the following: COLT AR-15.223/5.56 m/m caliber, COLT CAR-15.223 or similar AR-15/M-16 type rifle/carbine systems. No caliber larger than .223/5.56 m/m is allowed due to range restrictions. Officers are to bring the weaponry that their departments currently use.

Topics for discussion include:

- Mechanical evolution and rifle/carbine history
- Disassembly, maintenance, and cleaning
- Conversion of the M-16 to semi-automatic mode
- Ballistics and ammo types
- Range and ammo testing
- Sight-in/trigger control techniques
- Range management and safety
- Live fire and marksmanship

Equipment requirements listed on next page *ammo not included in Tuition

Equipment requirements

Each officer must bring:

1. Rifle or Carbine
2. Four (4) rifle/carbine magazines either 20 or 30 round type
3. Duty handgun/holster and 50 rounds of pistol ammunition for transition drills
4. Magazine pouch(s)
5. 1000 rounds of ammo. Factory ammo is either commercial or military configuration.
Note: Any shooter with an AR 15 A1 original model rifle should only use ammo with a bullet grain weight of under 60 grains. Do not bring military ss 109 green tip 62 grain ammo for the early model rifles. This ammo is for fast twist barrel rates of 1 to 7 inches.
6. Cleaning equipment including rod, bore brush, chamber brush, tooth brush, patches, solvent and lubricant
7. Lightweight mat or blanket for ground protection
8. **Sling Mandatory**/Tactical Type 1, 2, or 3 Point Sling - highly recommended
9. Red dot or magnified rifle/carbine scope and mount optional
10. Notebook and pen
11. Comfortable clothing and boots, hat and sun block. Rain gear if necessary.
12. Food and drink for breaks and lunches. Students should plan on eating at the range. Bring a cooler.
13. Eye and ear protection are mandatory
14. Students MUST wear shirts with tight fitting necks and baseball type caps with bills to prevent hot brass from entering their clothing or falling behind protective eyewear.
15. Use of elbow and knee pads is recommended.

All officers must have completed *Police Urban Rifle/Carbine Course* or its equivalent as approved by the lead instructor in order to enroll in this course.

Basic School Resource Officer Course

Plainfield Police Department

14300 S. Coil Plus Drive, Plainfield, IL 60544

Monday - Friday, August 3 - 7, 2015

8:00 am till 5:00 pm

Course Description:

The Basic School Resource Officer Course is a forty-hour block of instruction designed for any law enforcement officer with two years or less experience working in an educational environment and school administrators.

The course emphasizes three main areas of instruction:

- Functioning as a police officer in the school setting
- Working as a resource and problem solver
- Developing teaching skills

Attendees will gain a solid working knowledge of the School Resource Officer concept and how to establish a lasting partnership with their schools. The course is taught on a five day, eight hour format. Classes begin promptly at 8:00 am each morning and run through 5:00 pm each day. Attendees are required to attend all sessions in order to obtain the National School Resource Officer Basic Course Certificate. There is a written examination, multiple discussions, and at least one graded practical exercise for each student.

Who Should Attend:

The School Resource Officer Program is a true Community Based Police program. Although many of the officers attending our courses will be assigned as School Resource or School Liaison Officers, the course is designed to benefit school administrators working with law enforcement and any law enforcement officer working with youth, or in an educational environment.

This includes: School Resource Officers; School District Officers; DARE Officers; GREAT Officers; Juvenile Officers; Community Officers; School Security Officers; School Liaison Officers; School Administrators and Probation Officers.

Instructors: Will be supplied by the National Association of School Resource Officers (NASRO). NASRO, the world's leader in school-based policing, is a not-for-profit organization founded in 1991 with a solid commitment to our nation's youth. NASRO is an organization for school-based law enforcement officers, school administrators, and school security/safety professionals working as partners to protect students, school faculty and staff, and the schools they attend.

Member Tuition: \$200.00, *includes one year NASRO membership*; please register thru Tri-River as normal, you will then be given additional registration instructions.

Non-Member Tuition: \$495.00, *includes one year NASRO membership*; ***non-members must register thru NASRO, please follow one of these links for registration:***
