Medical Marijuana & Standardized Field Sobriety Testing

Frankfort Police Department

20602 Lincoln-Way Lane, Frankfort, IL 60423

Friday; January 19, 2018

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Constitutional & Proper Use of LE Authority | Human Rights | Legal Updates

Course Description: The Compassionate Use of Medical Cannabis Pilot Program Act enacted January 1, 2014, created new challenges for law enforcement personnel. According to statute, the law enforcement officer must have an independent, cannabis-related factual basis, giving reasonable suspicion that the person is impaired by cannabis. Subsequent to establishing these elements, an officer may ask the driver to submit to Standardized Field Sobriety Tests. Under this statute, the results of SFSTs will be the primary tool in determining impairment. The goal of this 8-hour block of instruction is to provide officers with an overview of the medical marijuana statute. The primary focus will be on enforcing the DUI segment, including the implied consent provision.

- **A Standardized Field Sobriety Testing proficiency exam will be given utilizing the most recent SFST curriculum. This exam will serve as a SFST recertification in order to satisfy IDOT requirements for DUI grants.**

Officers will also be provided information on non-standardized tests and eye exams which will aid in the determination of cannabis impairment. The ultimate goal is to reduce the number of crashes, deaths and injuries caused by impaired drivers.

Upon completion of this training officers will be able to:

- Summarize the Compassionate Use of Medical Cannabis Pilot Program Act
- Describe those individuals that may use or possess medical marijuana
- Describe those agencies capable of cultivating and selling medical marijuana
- Describe the limitations for possession and using medical marijuana
- Describe who is banned from the program
- Describe the implied consent provision of the statute
- Summarize scientific research related to driving and cannabis usage
- Administer SFSTs utilizing most recent curriculum
- Pass a SFST proficiency exam with standards from the most recent SFST curriculum
- Administer eye checks to determine cannabis usage
- Recognize signs and symptoms associated with cannabis usage
- Administer non-standardized field sobriety test

Instructor: Tony Lebron (Retired M/Sgt; ISP) will be the lead instructor.

~~Crisis Intervention Team Training (CIT)~~

~~40-Hour State Certified Course~~

~~Orland Park Police Department~~

~~15100 S. Ravinia Ave., Orland Park IL 60462~~

~~Monday – Friday, January 22 – 26, 2018~~

~~8:00 am till 4:00 pm~~

This course complies with the guidelines of the following mandate(s): Civil Rights | Constitutional & Proper Use of LE Authority | Cultural Competency | Human Rights | Legal Updates | Procedural Justice

Purpose: Law enforcement officers are generally the first responders to crisis events. This course is also open to local and county sworn corrections officers. It is important to have individuals in law enforcement who can utilize effective strategies, insuring public and personal safety. The Crisis Intervention Team (CIT) training provides officers with education about mental illness and other behavioral disabilities as well as providing skills and tools for effectively and safely interacting with someone who is experiencing a crisis.

Course Description: Crisis Intervention Team training is an in-depth 40-hour specialized course of study for uniformed patrol law enforcement officers and sworn corrections officers who, in addition to their regular service calls, will be required to respond to crisis calls involving people who have behavioral disabilities. CIT officers will use their acquired knowledge and skill to effectively handle crisis situations and make the most appropriate disposition, which will best serve the individual and the community.

The key components of this course cover the following:

- Officers are exposed to the dynamics of mental illness, developmental disabilities, child and adolescent disorders, elderly individuals with behavioral issues, returning combat veterans, people who have excited delirium, and people with substance abuse/co-occurring disorders. This training will allow officers to make quick and effective decisions utilizing options they have to resolve the crisis.
- Officers are exposed to the experiences, viewpoints and concerns of persons with mental illnesses (consumers). Officers will meet with consumers in order to gain their perspective and learn from them.
- Officers receive instruction and demonstrations in basic listening and responding skills along with crisis interventions strategies. Real life crisis scenarios provided by trained professional actors with the assistance of state-certified CIT officers are presented to officers for them to demonstrate their resolution skills.
- **The scenario based training will take place on Thursday, June 25th, attendees will be required to wear their "department uniform of the day" for their current assignment.**

About the Instructors: The course will be conducted by a diverse group of law enforcement and behavioral health professionals, including active CIT officers from various parts of the State of Illinois. An essential part of the CIT course is scenario-based skills training with crisis scenarios provided by trained professional actors. All scenarios are facilitated and evaluated by certified CIT officers.

Advanced Roadside Impaired Driving Enforcement

Frankfort Police Department,
20602 Lincoln-Way Lane, Frankfort, IL 60423
Thursday & Friday; February 15 & 16, 2018
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):
Civil Rights | Constitutional & Proper Use of LE Authority | Human Rights | Legal Updates

Course Description: The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police (IACP) Technical Advisory Panel (TAP) and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers that have not received advanced or in-service training regarding drug impairment tend to not be able to identify these characteristics; therefore, they will release an impaired driver. Once an officer completes the training he/she will be more proficient with the 3 battery of tests (HGN, WAT, OLS), as well as a broader knowledge of drug impairment indicators. The law enforcement officer will also be more familiar with the DRE program and its function. This will facilitate better communication and transfer of critical roadside indicators of impairment to the evaluating DRE officer for a more complete and accurate assessment of the impairment.

ARIDE is a 16-hour training course taught by DRE instructors or SFST instructors who are also DREs. The training will be conducted under the control and approval of the DEC Program state coordinator. This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem. The following topics are discussed and/or delivered in detail throughout the entire curriculum:

- Update of Standardized Field Sobriety Testing Battery
- How drug impaired driving affects our community
- SFST Proficiency Examination
- Drugs in the human body and the impairing effects they may have
- Seven categories of drugs identified by the DEC Program
- Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement
- Provide an expanded knowledge of prosecuting drug impaired drivers to prosecutors and courts

Much of the classroom training is devoted to hands-on practice.

Instructor: Tony Lebron (Retired M/Sgt; Illinois State Police) will be the lead instructor.

Standard Field Sobriety Testing Instructor School

Frankfort Police Department

20602 Lincoln-Way Lane, Frankfort, IL 60423

Monday – Friday; February 26 – March 2, 2018

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Constitutional & Proper Use of LE Authority | Legal Updates

Course Description: The purpose of this course is to prepare law enforcement professionals to effectively instruct the SFST training program using the concepts and principles provided by the National Highway Traffic Safety Administration and the International Association of Chiefs of Police. The curriculum addresses the application of basic adult learning theory and the instruction skills needed to deliver this training.

In the SFST instructor-development training program, the principal participants are law enforcement officers who have demonstrated proficiency in the administration of the standardized field sobriety tests (SFSTs), and are actively involved in detecting and apprehending impaired drivers. Participants should be well versed and comfortable with the SFSTs, including the HGN test.

Primary reasons for attending this training are:

- a desire to develop or strengthen effective presentation skills.
- a desire to develop or strengthen skills as an SFST instructor.
- a desire to learn how to conduct interactive participant-centered training.
- a desire to become more familiar with the SFST curriculum available through NHTSA and the International Association of Chiefs of Police.

The most significant learning activities are the presentations made by the participants. The participants will use NHTSA course materials to prepare their practice teaching presentations. Participants are expected to become thoroughly familiar with content, learning activities, training aids, etc. related to delivery of the SFST course.

Instructors: Lead instructor will be Tony Lebron (Retired M/Sgt; Illinois State Police). He will be assisted by various Law Enforcement Officers (active and retired) approved by the Illinois Law Enforcement Training and Standards Board.

This three day, 24 hour course is a State Certified program on the standardization of sobriety testing procedures. The latest testing methods will be demonstrated. Horizontal Gaze Nystagmus (HGN) techniques for improved probable cause standard for DUI arrests will be taught. This course will also cover the pharmacological differences between drug effects and alcohol effects on the body.

➤ ***This course utilizes live dosed individuals as opposed to videos, which greatly enhances the training.***

Course Description: The purpose of this course is to increase deterrence of DWI violations, and thereby reduce the number of crashes, deaths and injuries caused by impaired drivers. As a result of this training, participants will become significantly better able to:

- Understand enforcement's role in general DWI deterrence.
- Understand detection phases, clues and techniques.
- Understand requirements for organizing and presenting testimonial and documentary evidence in DWI cases.
- Recognize and interpret evidence of DWI violations.
- Administer and interpret Standardized Field Sobriety Tests.
- Describe DWI evidence clearly and convincingly in written reports and verbal testimony.
- Understand the tasks and decisions of DWI detection.
- Know and recognize typical vehicle maneuvers and human indicators symptomatic of DWI associated with initial observations.
- Know and recognize typical reinforcing maneuvers and indicators that come to light during the stopping sequence.
- Know and recognize typical sensory and other clues of alcohol and/or other drug impairment that may be seen during face-to-face contact with DWI suspects.
- Know and recognize typical behavioral clues of alcohol and/or other drug impairment that may be seen during the suspect's exit from the vehicle.
- Understand the role and relevance of psychophysical testing in pre-arrest screening of DWI suspects.
- Know and carry out appropriate administrative procedures for validated divided attention psychophysical tests.
- Know and carry out appropriate administrative procedures for the Horizontal Gaze Nystagmus test.
- Know and recognize typical clues of alcohol and/or other drug impairment that may be seen during administration of the Standardized Field Sobriety Tests.

Instructors: The instructors for this class will be Lt. Dave Schurr of the Bolingbrook Police Department and Sgt. Steve Sigler of the Illinois State Police.

Crash Investigation 1

Frankfort Police Department

20602 Lincoln-Way Lane, Frankfort, IL 60423

Monday – Friday; March 12 - 23, 2018

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Law Updates | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator

Course Description: In most jurisdictions, traffic crashes account for more lives lost, more injuries and more property damage than all criminal activity combined. To effectively implement crash prevention programs and improve quality of life, law enforcement agencies need to know the who, what, where, when and why of crash occurrence.

The moments immediately following a traffic crash are crucial, and only a well-trained crash investigator knows how to identify and collect the necessary information at the crash scene and to begin the interpretation of that evidence.

Crash investigators must work quickly and confidently to preserve significant physical results before the crash scene is altered or evidence disappears. They must anticipate what information will be needed for enforcing traffic laws, planning crash prevention programs and possible case litigation. In addition, they must properly document the at-scene information and evidence because once the scene is cleared, the evidence might be impossible to recover.

Crash Investigation 1, based on J. Stannard Baker's world-renowned text, Traffic Crash Investigation, is an in-depth study of the skills needed to systematically investigate a traffic crash. Techniques for recognizing and properly recording roadway and vehicle crash evidence are thoroughly presented. Students learn to take measurements and photographs of the crash scene and to create sketches and after-crash diagrams. Crash Investigation 1 also addresses how the collected data are used to reconstruct crashes. Finally, the use of electronic devices to collect and record at-scene data is also introduced.

Course Topics:

- Preparation for traffic crash investigation
- Information from and about people
- Information from vehicles
- Information from roads
- Measuring and mapping the crash scene
- Photographing the crash scene and damaged vehicles
- For this updated program, students will develop a new case study. Photographs and exhibits have been updated, and classroom instruction now includes how the latest generation of vehicle electronics - including data recorders, traction and stability controls, multiple airbags, etc. - affect both the crash and the crash investigation

Continued on next page:

Course Materials: All students need to bring a laptop computer or other device with a USB port to the class. Student reference materials will be distributed in USB flash drives (files will accept electronic comments and highlighting and can be saved).

In all cases, please bring the following additional items to class:

- Comfortable outdoor clothing (likely to get dirty) for Week 2 outdoor projects
- Simple calculator with square root key
- Mechanical Pencils
- Staedtler Geometry Compass
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed.
- Students may use calculators and electronic communication devices in class; however, possession/use of electronic communication devices during closed-book quizzes and exams is prohibited.

Course Outcomes: Officers/investigators who successfully complete Crash Investigation 1 significantly improve their ability to handle all aspects of the majority of traffic crash investigations occurring within their jurisdictions.

Participants who successfully complete Crash Investigation 1 or its equivalent are eligible to enroll in Tri-River's and NUCPS's next crash investigation course, Crash Investigation 2.

Instructor (s): Course instructor(s) are provided by *NUCPS*.

Tavern Inspection & Liquor License Enforcement

Romeoville Police Department

1050 West Romeo Road (at Sunset Pointe Drive), Romeoville, IL 60446

Thursday, March 22, 2018

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s)
Law Updates; Constitutional and Proper Use of Law Enforcement Authority

Course Description:

This training class is intended for police officers who have been assigned to enforce liquor law enforcement and age compliance enforcement for tobacco and liquor sales. This is an advanced level class that goes beyond the uniformed patrol officer "bar check

walk-through" and focuses on specific liquor license inspection regulations and procedures.

The one-day program will focus on the inspection of by-the-drink liquor establishments (taverns) for compliance with state and local regulations governing licensing, signage, restricted sales, advertising, sanitation, and prohibited practices. Special license inspections for seasonal festivals and one-time/special liquor events will also be discussed. Standardized documentation of violations that comply with state commission standards will accompany a legal review. The 2015 revised Illinois Happy Hour Law will be presented along with a detailed review of the Illinois Law Enforcement

Training and Standards Board guidelines on conducting age compliance enforcement operations.

Participants will receive a manual and cloud based access to the Illinois Liquor Control Act, Illinois Liquor Control Commission (ILCC) Administrative Regulations, and supporting materials.

Upon completion of this training program, participants will be able to:

- Relate the top liquor violations found during inspections in Illinois taverns
- Compare and contrast the enforcement powers of a local law enforcement officer to a Illinois Liquor Control Commission agent during liquor enforcement operations
- List the required licenses that must be on display at Illinois taverns
- Define who is required to be BASSET certified at a local tavern
- Discuss the changes to the Illinois "Happy Hour" law

Continued on next page:

- Describe the guidelines for selecting police special agents employed in liquor and tobacco age compliance enforcement operations
- Discuss the key elements described by the Supreme Court regarding the legal concept of “police entrapment” in police liquor enforcement operations
- Relate the recommended procedures to defuse a confrontation that may occur during a police liquor enforcement operation

Instructor:

Instructor Sergeant Bruce Talbot retired in 2003, after 23 years of service with the Woodridge Police Department located in Du Page County, Illinois. Considered a national expert on the topic of controlling youth access to tobacco, Sergeant Talbot has appeared as a source expert before two congressional committees and is a nationally known lecturer on youth access enforcement. Sergeant Talbot is Illinois certified law enforcement trainer with 30 years of experience, and has twenty years of experience as a contract instructor for the Illinois Liquor Control Commission and the federal Synar Grant program.

Sergeant Talbot lectures at police academies across the country and has been a contract instructor for Northwestern University’s Center for Public Safety’s prestigious Traffic Institute and other national police training organizations.

Friday, March 23, 2018

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s)
Law Updates; Constitutional and Proper Use of Law Enforcement Authority

Course Description: This one day seminar is designed law enforcement officers tasked with street drug enforcement. The program concentrates on the newest drugs of abuse including synthetic stimulants (e.g... alpha-PVP "Flakka"), narcotics (e.g... U-47700 "U-4"), hallucinogenic (e.g. 25I-NBOMe "N-Bomb") cannabinoids (e.g... 5F-ADB "Smacked"), and counterfeit prescription drugs seen on the streets (e.g... Lemmon 714).

The latest drug seizure data focused on the local counties from the Illinois State Police Forensic Crime Lab will be presented. Updates on recent drug law changes will also be discussed. Many of these synthetic drugs will not be detectable using standard drug screening tests and many police officers are unfamiliar with the effects these new drugs can produce.

This seminar will include the physical symptoms of under the influence of synthetic drugs currently appearing in Illinois. The program will also offer updates on other street drugs of abuse such as Kratom, Molly, and will include an update on the changes to the Illinois Medical Cannabis law.

Upon completion of this seminar, participants will be able to:

- Define the term "designer synthetic drug" in the context of street drug abuse.
- List the top designer synthetic narcotic, stimulant, depressant and cannabinoid activating drugs in the MTU-16 area.
- Discuss the new Illinois Designer Synthetic Drug Act and its application as an effective control measure.
- Describe the physical symptoms displayed by a person under the influence of narcotics, depressants, stimulants, and designer synthetic cannabinoids.
- Discuss the reason for a spike in the unregulated narcotic drug Kratom.
- Review the changes to the Illinois Medical Marijuana Law and its impact on community substance abuse.

The Reid Technique of Interviewing and Interrogation®

Romeoville Police Department

1050 West Romeo Road (at Sunset Pointe Drive), Romeoville, IL 0446

Monday, Tuesday & Wednesday; March 26, 27 & 28, 2018

8:00 am till 3:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator | Legal Updates

Course Description: This is a twenty-one hour program on the Reid Technique of Interviewing and Interrogation®. The course includes; interview and interrogation preparation, behavior symptoms, the Reid® Behavior Analysis Interview (B.A.I.) and "The Reid Nine Steps of Interrogation" which include:

Interview and Interrogation Preparation

The style, appearance and approach of the successful interviewer and interrogator will be covered, as will the room settings conducive to these activities.

Behavior Symptoms

Differences in verbal and nonverbal behavior between innocent and deceptive persons often can be observed, and are thus indicative of whether or not a suspect is telling the truth. A guilty suspect makes a conscious decision to resist your effort to get at the truth. In trying to maintain a structure of verbal lies, however, that suspect most often develops internal conflicts and tensions which manifest themselves in nonverbal behavior. Thus, body movements, facial expressions, eye contact, attitudes, posture and grooming gestures can indicate whether the subject is telling the truth or lying. Nonverbal indicators can also be used to determine whether the suspect under interrogation is listening, maintaining a defiant attitude or is ready to confess. You will learn how to observe and assess critical behavior symptoms and use those assessments to determine whether to move on to the next step of the interrogation.

Reid® Behavioral Analysis Interview (B.A.I.)

The information developed through use of the standard investigative questions of "who," "what," "when" and "how" is often not adequate — even in combination with physical evidence — to identify the wrongdoer. The Reid Behavioral Analysis Interview is a technique that uses a structured set of non-accusatory behavior-provoking questions developed as a result of many thousands of interviews. The B.A.I. makes it easier to determine whether the suspect is telling the truth about involvement in the matter under investigation, and is flexible enough to be used in cases ranging from employee theft to homicide.

The Reid Nine Steps of Interrogation®

The nine step approach to a successful interrogation has been developed by John E. Reid and Associates through extensive research and practical experience over a period of 60 years. Because of the subject's importance, approximately half the classroom time in the seminar is devoted to the interrogation process and detailed examination of each of the nine steps.

John Reid and Associates will provide the instructor for this class.

John Reid Advanced Interviews & Interrogations

Romeoville Police Department

1050 West Romeo Road (at Sunset Pointe Drive), Romeoville, IL 60446

Thursday, March 29, 2018

8:00 am to 3:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator | Legal Updates

Course Description: This course is for individuals who have completed the 3-day seminar on *The Reid Technique of Interviewing and Interrogation*, and builds upon their knowledge of the Reid Technique.

Most unsuccessful interrogations are a result of the investigator's inability to move the guilty suspect from one stage of the interrogation to the other. *Reid* has defined three distinct stages of the interrogation that may give the investigator problems:

1. Defiant stage: seven proven tactics to move suspects out of this stage
2. Neutral stage: four proven techniques to get the suspect to listen to the interrogator's themes
3. Acceptance stage: three specific techniques that will dramatically increase admissions of guilt

People who commit crimes do so to fulfill certain needs. What needs were satisfied is based upon the case facts, evidence and results of the interview — types of needs that will be thoroughly discussed are:

- Real need crimes
- Impulse need crimes
- Esteem need crimes
- Lifestyle need crimes

The Advanced Seminar will also address the following specific problem areas for some but not all interrogations:

- Juvenile interrogations
- Interrogation regarding guilty knowledge
- Playing one suspect against another
- Interrogation on multiple crimes

Course Instructor: This course will be taught by Instructors with John E. Reid and Associates, Inc.

This course complies with the guidelines of the following mandate(s): Human Rights | Cultural Competency
Civil Rights | Constitutional & Proper Use of LE Authority | Legal Updates | Procedural Justice

Course Description: This forty-hour course is specifically designed for experienced uniformed patrol personnel selected to serve as Field Training Officers with probationary employees. The course emphasizes the FTO's role in assisting probationers certify for solo patrol operations by applying the knowledge and skills acquired during Basic Police Training/Certification and using them according to agency policy, procedures and community service delivery standards.

The instruction highlights two essential Field Training and Evaluation Process skills: 1) the ability to examine and objectively document the probationer's job behaviors using the 2009 revised non-numerical/behaviorally anchored standardized assessment guidelines and, 2) analyzing the probationer's training needs and using proper instructional techniques for corrective action.

The instruction presentation will focus upon discussion as well as hands-on application of the course materials in small group and individual/student exercises. Students will be required to complete out-of-classroom reading assignments from the course text and workbook, *Breaking Routine™: Field Training Officer*.

The course content will include:

- What every FTO really needs to know about the operational structure of the Field Training & Evaluation Process.
- The Instructional Relay Race: Taking over where Basic Police Training/Certification left off.
 - Inventorying the probationer's current knowledge and skill proficiencies.
- Selection and use of on-the-job instructional techniques: finding the best tools to meet the challenge.
- Utilization of legally defensible, non-numerical standardized evaluation guidelines.
- Objectively documenting probationer performance.
- Documenting the extent of training and coaching without becoming a best-seller author.
- Strategically addressing Probationer areas of Corrective Action Necessary.
- Utilizing the Probationer Officer Manual as the Field Training playbook.
- Practical Directed Patrol Mapping™: Preparing the Probationer for Proactive - Community Oriented Policing: Dancing with SARA!
- Creating a Self-Reliant™ law enforcement agent.

Special attention: Students should be familiar with their Department's current Field Training and Evaluation Process and should be briefed on their agency's process. Students are encouraged to bring a copy of their agency's Probationary Office Manual and forms to class.

Crisis Intervention Team Training (CIT)

40-Hour State Certified Course

Orland Park Police Department

15100 S. Ravinia Ave., Orland Park IL 60462

Monday - Friday, April 16 – 20, 2018

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s): Civil Rights | Constitutional & Proper Use of LE Authority | Cultural Competency | Human Rights | Legal Updates | Procedural Justice

Purpose: Law enforcement officers are generally the first responders to crisis events. This course is also open to local and county sworn corrections officers. It is important to have individuals in law enforcement who can utilize effective strategies, insuring public and personal safety. The Crisis Intervention Team (CIT) training provides officers with education about mental illness and other behavioral disabilities as well as providing skills and tools for effectively and safely interacting with someone who is experiencing a crisis.

Course Description: Crisis Intervention Team training is an in-depth 40-hour specialized course of study for uniformed patrol law enforcement officers and sworn corrections officers who, in addition to their regular service calls, will be required to respond to crisis calls involving people who have behavioral disabilities. CIT officers will use their acquired knowledge and skill to effectively handle crisis situations and make the most appropriate disposition, which will best serve the individual and the community.

The key components of this course cover the following:

- Officers are exposed to the dynamics of mental illness, developmental disabilities, child and adolescent disorders, elderly individuals with behavioral issues, returning combat veterans, people who have excited delirium, and people with substance abuse/co-occurring disorders. This training will allow officers to make quick and effective decisions utilizing options they have to resolve the crisis.
- Officers are exposed to the experiences, viewpoints and concerns of persons with mental illnesses (consumers). Officers will meet with consumers in order to gain their perspective and learn from them.
- Officers receive instruction and demonstrations in basic listening and responding skills along with crisis interventions strategies. Real life crisis scenarios provided by trained professional actors with the assistance of state-certified CIT officers are presented to officers for them to demonstrate their resolution skills.
- **The scenario based training will take place on Thursday, April 19th, attendees will be required to wear their "department uniform of the day" for their current assignment.**

About the Instructors: The course will be conducted by a diverse group of law enforcement and behavioral health professionals, including active CIT officers from various parts of the State of Illinois. An essential part of the CIT course is scenario-based skills training with crisis scenarios provided by trained professional actors. All scenarios are facilitated and evaluated by certified CIT officers.

Crash Investigation 2

Frankfort Police Department
20602 Lincoln-Way Lane, Frankfort, IL 60423
Monday- Friday, April 23 – May 4, 2018
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Law Updates | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator

Course Description: At scene traffic crash data collection is useful only if all appropriate information is collected and properly interpreted and analyzed. Participation in Crash Investigation 2 enhances the capability and credibility of the at-scene investigator.

Crash Investigation 2, based on the 2014 edition of J. Stannard Baker's world-renowned textbook Traffic Crash Investigation, emphasizes vehicle behavior in crashes, vehicle damage analysis and more advanced mapping and evidence location skills.

Crash Investigation 2 builds upon topics examined in Crash Investigation 1 and provides the student/investigator with greater knowledge of the information available at the crash scene and how to properly collect and initiate interpretation of that information.

The course also provides instruction in the use of laser-based measurement devices to measure crash scenes and the evidence found there. Laser Technology, Inc. units are used for these demonstrations. Downloading the electronic information into mapping programs is also covered.

Course Topics:

- Vehicle damage analysis - description, reporting and determination of direction of forces
- Vehicle behavior in crashes
- Results of the crash on the road - identifying and interpreting tire marks and road scars
- Lamp filament analysis - determining whether headlamps, tail lights and turn signals were on or off at moment of impact
- Tire damage analysis - role of tire failure
- Measurement methods - perspective grid, photogrammetry, measurement techniques, diagram drawing and systematic methods for organizing and illustrating data
- Interpretation of data - use of all information obtained through investigation
- Specialized data gathering - measuring devices and other testing
- Laser-based measurement and use of mapping software
- In addition to addressing how the latest generation of vehicle electronics - including data recorders, traction and stability controls, multiple airbags - affect both the crash and the crash investigation, specific new topics include:
 - hit-and-run investigations,
 - dealing with event data recorders
 - technical report writing and other emerging technologies

Continued on next page:

Course Materials: All students need to bring a laptop computer or other device with a USB port to the class. Student reference materials will be distributed in USB flash drives (files will accept electronic comments and highlighting and can be saved).

In all cases, please bring the following additional items to class:

- Comfortable outdoor clothing (likely to get dirty) for Week 2 outdoor projects
- Small pair of scissors
- Simple calculator with square root key
- Staedtler Geometry Compass
- Mechanical Pencils
- Triangles 45-45-90 and 30-60-90
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed
- **Traffic Crash Investigation, 11th Edition – All Crash Investigation 1 students receive a copy of the text. If necessary, a copy may be purchased online at nucps.northwestern.edu/crashbooks.**
- Students may use calculators and electronic communication devices in class; however, possession/use of electronic communication devices during closed-book quizzes and exams is prohibited.

Who Should Attend:

- Crash Investigation 2 is designed for those who analyze data collected by other crash investigators and who gather and analyze supplementary data.
- Crash Investigation 2 participants must have successfully completed NUCPS's Crash Investigation 1 or its equivalent

Course Outcomes: Officers/investigators who successfully complete Crash Investigation 2 develop skills in technically preparing crash investigation data and collecting follow-up data required by prosecutors, defense attorneys, claim adjusters, fleet supervisors, reconstructionists and highway safety engineers.

Instructor (s): Course instructor(s) are provided by *NUCPS*.
