# **Crash Investigation 1**

Frankfort Police Department  
20602 Lincoln-Way Lane, Frankfort, IL 60423  
Monday- Friday, March 2 – 13, 2020  
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Law Updates | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator

**Course Description:** In most jurisdictions, traffic crashes account for more lives lost, more injuries and more property damage than all criminal activity combined. To effectively implement crash prevention programs and improve quality of life, law enforcement agencies need to know the who, what, where, when and why of crash occurrence.

The moments immediately following a traffic crash are crucial, and only a well-trained crash investigator knows how to identify and collect the necessary information at the crash scene and to begin the interpretation of that evidence.

Crash investigators must work quickly and confidently to preserve significant physical results before the crash scene is altered or evidence disappears. They must anticipate what information will be needed for enforcing traffic laws, planning crash prevention programs and possible case litigation. In addition, they must properly document the at-scene information and evidence because once the scene is cleared, the evidence might be impossible to recover.

Crash Investigation 1, based on J. Stannard Baker's world-renowned text, Traffic Crash Investigation, is an in-depth study of the skills needed to systematically investigate a traffic crash. Techniques for recognizing and properly recording roadway and vehicle crash evidence are thoroughly presented. Students learn to take measurements and photographs of the crash scene and to create sketches and after-crash diagrams. Crash Investigation 1 also addresses how the collected data are used to reconstruct crashes. Finally, the use of electronic devices to collect and record at-scene data is also introduced.

## **Course Topics:**

- Preparation for traffic crash investigation
- Information from and about people
- Information from vehicles
- Information from roads
- Measuring and mapping the crash scene
- Photographing the crash scene and damaged vehicles
- For this updated program, students will develop a new case study. Photographs and exhibits have been updated, and classroom instruction now includes how the latest generation of vehicle electronics - including data recorders, traction and stability controls, multiple airbags, etc. - affect both the crash and the crash investigation

Continued on next page:

**Course Materials:** All students need to bring a laptop computer or other device with a USB port to the class. Student reference materials will be distributed in USB flash drives (files will accept electronic comments and highlighting and can be saved).

**In all cases, please bring the following additional items to class:**

- Comfortable outdoor clothing (likely to get dirty) for Week 2 outdoor projects
- Simple calculator with square root key
- Mechanical Pencils
- Staedtler Geometry Compass
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed.
- Students may use calculators and electronic communication devices in class; however, possession/use of electronic communication devices during closed-book quizzes and exams is prohibited.

**Course Outcomes:** Officers/investigators who successfully complete Crash Investigation 1 significantly improve their ability to handle all aspects of the majority of traffic crash investigations occurring within their jurisdictions.

Participants who successfully complete Crash Investigation 1 or its equivalent are eligible to enroll in Tri-River's and NUCPS's next crash investigation course, Crash Investigation 2.

8:00 am till 4:30 pm

This course complies with the guidelines of the following mandate(s):  
Constitutional & Proper Use of LE Authority | Civil Rights | Law Updates

This three-day, 24-hour course is a State Certified program on the standardization of sobriety testing procedures. The latest testing methods will be demonstrated. Horizontal Gaze Nystagmus (HGN) techniques for improved probable cause standard for DUI arrests will be taught. This course will also cover the pharmacological differences between drug effects and alcohol effects on the body.

➤ ***This course utilizes live dosed individuals as opposed to videos, which greatly enhances the training.***

**Course Description:** The purpose of this course is to increase deterrence of DWI violations, and thereby reduce the number of crashes, deaths and injuries caused by impaired drivers. As a result of this training, participants will become significantly better able to:

- Understand enforcement's role in general DWI deterrence.
- Understand detection phases, clues and techniques.
- Understand requirements for organizing and presenting testimonial and documentary evidence in DWI cases.
- Recognize and interpret evidence of DWI violations.
- Administer and interpret Standardized Field Sobriety Tests.
- Describe DWI evidence clearly and convincingly in written reports and verbal testimony.
- Understand the tasks and decisions of DWI detection.
- Know and recognize typical vehicle maneuvers and human indicators symptomatic of DWI associated with initial observations.
- Know and recognize typical reinforcing maneuvers and indicators that come to light during the stopping sequence.
- Know and recognize typical sensory and other clues of alcohol and/or other drug impairment that may be seen during face-to-face contact with DWI suspects.
- Know and recognize typical behavioral clues of alcohol and/or other drug impairment that may be seen during the suspect's exit from the vehicle.
- Understand the role and relevance of psychophysical testing in pre-arrest screening of DWI suspects.
- Know and carry out appropriate administrative procedures for validated divided attention psychophysical tests.
- Know and carry out appropriate administrative procedures for the Horizontal Gaze Nystagmus test.
- Know and recognize typical clues of alcohol and/or other drug impairment that may be seen during administration of the Standardized Field Sobriety Tests.

## "My C.I."

### *Cultivating and Effectively Handling Today's Top Confidential Informants*

Frankfort Police Department

20602 Lincoln-Way Lane, Frankfort, IL 60423

Wednesday; March 18, 2020

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s)  
Civil Rights | Constitutional and Proper Use of Law LE Authority | Lead Homicide

**Course Description:** The focus of this dynamic one-day seminar is to simply clarify each and every aspect of working hand and hand with an "informant" in any criminal investigation, such as of drug cases, property crimes and other serious crimes against person including homicides. This seminar has been developed for *patrol officers, tactical officers, detectives, gang investigators, agents and command staff*. Your expert instructor will share his experiences and address issues to help you develop your own strategies in spotting, cultivating and safely getting informants to work for you.

From first time offenders to high-level criminal organizations, the mentality of those heavily involved in today's most serious crimes is rapidly changing. Today, we are tasked with combating the most dangerous criminals in the U.S. and across the world who continue to improve in ways of eluding law enforcement. This is where "My C.I." comes in. Behind every great informant is a greater handler who always understands their capabilities, an informant's limits, and the legal aspects during day to day operations. Despite the ambitions or motivators of potential informants, you will develop the expertise that's needed today to protect the informant, your agency and yourself.

#### **Topics Include:**

- Spotting today's possible candidates and dangers
- Evaluating the informant and their potential in each investigation
- The significance of protecting your agency and establishing voluntariness
- Understanding the informant's motivators and lifestyle
- Mastering rapport and effective communication
- Establishing and maintaining ethical and professional relationships
- Today's legal aspects and courtroom preparation

**Instructor:** Steve Hollister, is a detective with the Waukegan (Illinois) Police Department and has been a police officer for over 19 years. During his tenure, Steve has worked in Patrol, Gang Unit, Drug Unit, Adult Investigations, SWAT, and currently the Gang Intelligence Unit (GIU) which is a high bred Gang/Drug unit. Steve primarily worked for the department's elite drug and gang unit as the drug unit's senior drug investigator until having the opportunity to work as a Task Force Officer (TFO) with the Drug Enforcement Administration (DEA). During his time with the DEA, over \$10 Million dollars were seized in the form of currency, homes, vehicles and jewelry. Also, during his tenure at DEA, well over 300 kilos of heroin, cocaine or meth were taken off the streets as well as numerous high-level cartel members that organized drug operations in the United States, Columbia, Mexico and Peru.

# **Railroad Liaison Officer**

Romeoville Police Department

1050 West Romeo Road (at Sunset Pointe Drive), Romeoville, IL 60446

Thursday, March 19, 2020

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s): Law Update

**Course Description:** In the United States, a pedestrian or vehicle is struck by a train every three hours. Likewise, there is a train derailment every two hours. Trains and tracks traverse every locality, carrying passengers, freight, and hazardous materials. Should one of these collisions or derailments occur within a local jurisdiction, it becomes the responsibility of local emergency services to respond and safeguard the community. It is essential that every police department has personnel trained to manage these unique types of incidents.

The Railroad Liaison Officer (RLO) Program provides the necessary training for officers to not only respond to and mitigate train related incidents, but also prepares the officers to return to local jurisdictions and provide training/guidance to the remainder of the department on rail safety enforcement and incident mitigation. The RLOs will also be provided resources allowing them to prepare railroad safety presentations to the general public. The RLO will develop connections with railroad special agents and will be the railway expert within your department.

## **Topics that will be covered include:**

- History and Authority of Railroad Police
- History of CN Railway
- Basic Railroad Awareness
- Incident Response
- Safety
- Hazardous Material Incident Response
- Traffic, Trespass, and Other Enforcement
- RLO Benefits and Recognition

**Instructor:** Jeffrey Price is a Special Agent and CSO with the CN Railroad Police Department, Central Division, located in Harvey, IL, where he oversees safety education and community participation in the States of Illinois, Indiana, and Iowa. S/A Price has been involved with Operation Lifesaver since 2009 and has taught Grade Crossing Collision Investigation (GCCCI) and other railroad safety classes at various law enforcement agencies and police academies. Prior to working at CN, S/A Price worked as a Corporal with the Mishawaka Indiana Police Department for 11 years where he served as a Field Training Officer, Drug Recognition Expert (DRE) and Crisis Intervention Team (CIT) member. S/A Price graduated from ILEA in Plainfield, IN, Class 07-171. S/A Price is currently a certified law enforcement instructor as a generalist and emergency vehicle operations (EVO) by the Indiana Law Enforcement Training Board.

## **~~Advanced Roadside Impaired Driving Enforcement~~**

~~New Lenox Police Department~~

~~200 Veterans Parkway, New Lenox, IL. 60451~~

~~Tuesday-Wednesday, March 24 & 25, 2020~~

~~8:00 am till 4:00 pm~~

This course complies with the guidelines of the following mandate(s):

Civil Rights | Constitutional & Proper Use of LE Authority | Human Rights | Legal Updates

**Course Description:** The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police (IACP) Technical Advisory Panel (TAP) and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers that have not received advanced or in-service training regarding drug impairment tend to not be able to identify these characteristics; therefore, they will release an impaired driver. Once an officer completes the training he/she will be more proficient with the 3 battery of tests (HGN, WAT, OLS), as well as a broader knowledge of drug impairment indicators. The law enforcement officer will also be more familiar with the DRE program and its function. This will facilitate better communication and transfer of critical roadside indicators of impairment to the evaluating DRE officer for a more complete and accurate assessment of the impairment.

ARIDE is a 16-hour training course taught by DRE instructors or SFST instructors who are also DREs. The training will be conducted under the control and approval of the DEC Program state coordinator. This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem. The following topics are discussed and/or delivered in detail throughout the entire curriculum:

- Update of Standardized Field Sobriety Testing Battery
  - How drug impaired driving affects our community
  - SFST Proficiency Examination
  - Drugs in the human body and the impairing effects they may have
  - Seven categories of drugs identified by the DEC Program
  - Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement
  - Provide an expanded knowledge of prosecuting drug impaired drivers to prosecutors and courts
- Much of the classroom training is devoted to hands-on practice.

**Instructor:** Tony Lebron (Retired M/Sgt; Illinois State Police) will be the lead instructor.

~~Morris Police Department~~

~~200 E. Chapin St., Morris, IL 60450~~

~~Thursday, March 26, 2020~~

~~8:00 am till 4:00 pm~~

This course complies with the guidelines of the following mandate(s): Procedural Justice

**Course Description:** Officers will discuss and visualize the concept of Tactical Emergency Casualty Care as it applies to law enforcement tactical situations and the treatment of injured officers. Officers will learn and demonstrate specific treatments and interventions for the most commonly encountered wound patterns.

**Officers are asked bring clothing appropriate for weather conditions for scenario training.**

On completion of the course, each participant will receive a Medical Patrol Officer Kit for duty use. Each kit contains: One C-A-T Combat Application Tourniquet, an OLAES Emergency Trauma Dressing and a Hyfin Vent Compact Chest Seal.

### **Upon completion of this period of instruction, officers will be able to:**

1. Identify the concepts of Tactical Emergency Casualty Care, its use in the law enforcement environment and how this concept differs from historically taught conventional First Responder medical treatment practices.
2. Identify the most commonly sustained officer injuries and preventable causes of death.
3. Identify the importance of mindset and maintaining situational awareness when wounded and when treating fellow officers.
4. Identify signs and symptoms of airway problems and demonstrate airway interventions.
5. Identify signs and symptoms of serious bleeding and demonstrate control interventions.
6. Identify signs and symptoms of shock and demonstrate prevention and treatment interventions.
7. Perform a Casualty Evaluation/F.A.S.T. Rapid Trauma Assessment and tactical evacuation.
8. Plan and perform a vehicle and non-vehicle officer down rescue/extraction in a high-threat environment.

**Instructor:** Justin D. Rottmann is a police officer and a firefighter/paramedic. He has been part of the ILEAS Region 8 SRT since 2012. He currently serves as the TEMS (tactical EMS) team leader.

### **~~The Reid Technique of Interviewing and Interrogation®~~**

~~New Lenox Police Department,~~

~~New Lenox Police Department 200 Veterans Parkway, New Lenox, IL 60451~~

~~Tuesday—Thursday; March 31—April 2, 2020~~

~~8:00 am till 3:00 pm~~

~~This course complies with the guidelines of the following mandate(s):~~

~~Civil Rights | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator | Legal Updates~~

**~~Course Description:~~** This is a 3-day, twenty-one hour program on the Reid Technique of Interviewing and Interrogation®. The course includes; interview and interrogation preparation, behavior symptoms, the Reid® Behavior Analysis Interview (B.A.I.) and "The Reid Nine Steps of Interrogation" which include:

#### **~~Interview and Interrogation Preparation~~**

~~The style, appearance and approach of the successful interviewer and interrogator will be covered, as will the room settings conducive to these activities.~~

#### **~~Behavior Symptoms~~**

~~Differences in verbal and nonverbal behavior between innocent and deceptive persons often can be observed, and are thus indicative of whether or not a suspect is telling the truth. A guilty suspect makes a conscious decision to resist your effort to get at the truth. In trying to maintain a structure of verbal lies, however, that suspect most often develops internal conflicts and tensions which manifest themselves in nonverbal behavior. Thus, body movements, facial expressions, eye contact, attitudes, posture and grooming gestures can indicate whether the subject is telling the truth or lying. Nonverbal indicators can also be used to determine whether the suspect under interrogation is listening, maintaining a defiant attitude or is ready to confess. You will learn how to observe and assess critical behavior symptoms and use those assessments to determine whether to move on to the next step of the interrogation.~~

#### **~~Reid® Behavioral Analysis Interview "(B.A.I.)"~~**

~~The information developed through use of the standard investigative questions of "who," "what," "when" and "how" is often not adequate—even in combination with physical evidence—to identify the wrongdoer. The Reid Behavioral Analysis Interview is a technique that uses a structured set of non-accusatory behavior-provoking questions developed as a result of many thousands of interviews. The B.A.I. makes it easier to determine whether the suspect is telling the truth about involvement in the matter under investigation, and is flexible enough to be used in cases ranging from employee theft to homicide.~~

#### **~~The Reid Nine Steps of Interrogation®~~**

~~The nine-step approach to a successful interrogation has been developed by John E. Reid and Associates through extensive research and practical experience over a period of 60 years. Because of the subject's importance, approximately half the classroom time in the seminar is devoted to the interrogation process and detailed examination of each of the nine steps.~~

~~Civil Rights | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator | Legal Updates~~

**~~Course Description:~~** ~~This course is for individuals who have completed the 3-day seminar on The Reid Technique of Interviewing and Interrogation, and builds upon their knowledge of the Reid Technique.~~

~~Most unsuccessful interrogations are a result of the investigator's inability to move the guilty suspect from one stage of the interrogation to the other. Reid has defined three distinct stages of the interrogation that may give the investigator problems:~~

- ~~1. Defiant stage: seven proven tactics to move suspects out of this stage~~
- ~~2. Neutral stage: four proven techniques to get the suspect to listen to the interrogator's themes~~
- ~~3. Acceptance stage: three specific techniques that will dramatically increase admissions of guilt~~

~~People who commit crimes do so to fulfill certain needs. What needs were satisfied is based upon the case facts, evidence and results of the interview — types of needs that will be thoroughly discussed are:~~

- ~~• Real-need crimes~~
- ~~• Impulse-need crimes~~
- ~~• Esteem-need crimes~~
- ~~• Lifestyle-need crimes~~

~~The Advanced Seminar will also address the following specific problem areas for some but not all interrogations:~~

- ~~• Juvenile interrogations~~
- ~~• Interrogation regarding guilty knowledge~~
- ~~• Playing one suspect against another~~
- ~~• Interrogation on multiple crimes~~

## **~~Course Description:~~**

~~This course will cover the different opioids and opiates that are out there including heroin, fentanyl, prescription pain killers and more. The instructor will discuss the effects of opioids on users, how they break down in the body and how it kills. The initial segment will conclude with the effects of Narcan and why users are still overdosing. The instructor will lead a discussion on charges related to drug overdoses including murder and manslaughter and what needs to be proven for different charges. He will review state-specific homicide laws and the elements of the different statutes for proper charges as well as the potential for federal charges. The next segment will review whether to charge or not charge. The next segment will be how to anticipate what the Defense will present and how to make sure you effectively cover the areas of concern. The class will review establishing a policy and strategies on how to work the case. The next topic presented will focus on working the crime scene and getting evidence for drug case and homicide case. The instructor will discuss the critical importance of knowing your case and presenting it in a professional manner. He will provide instruction in the necessary preparation and legal background information necessary to manage a complex death investigation. Testimony and proper preparation for trial will be discussed along with a perspective from the judge or jury's point of view.~~

## **~~Topics that will be covered include:~~**

~~Apply factual analysis to the investigation of the opioid overdose death crime scene. • Uncover patterns, trends and correlation of evidence. • Recognize the important information contained in the crime scene and subsequent forensic examination of the body; and their implications for the investigator. • Discuss, analyze, and evaluate investigative strategies in and their specific application to opioid death investigations. • Learn the sources of information available to an investigator making a death inquiry and the contents of each. • Develop leads, identify potential suspects and effectively interview those responsible. • Understand what opioids/opiates are, their effects on users, how they break down in the body and how they kill. • Understand what to be collected at the scene: drugs, syringe or foil, phones, ledgers, fingerprint works kit and videos in the area. • Assess whether to charge or not charge drug dealers with a drug induced death and reasons not to. • Utilize statements from witnesses, informants, undercover officers, drug dealers and examples from similar cases from around the country. • Understand how the defense attorneys will present their case and the proof you will need to establish the dealer sold the drugs that killed, the victim decided to use drugs, and the dealer's intent to cause death or recklessness. • Understand how to work with your prosecutor on how and who will present evidence in court. • Recognize the legal implications as they relate to search, seizure, interview and~~

- interrogation.
- Evaluate investigative decisions from investigator, prosecutor, and defense perspectives.
  - Discuss the evidence and testimony examining it from a defense and prosecutorial perspective.

## Crisis Intervention Team Training (CIT)

Bourbonnais Police Department  
700 Main St. NW, Bourbonnais, IL 60914 Monday – Friday;  
April 20 – 24, 2020  
8:00 am till 4:00 pm

**Please note: Officers are required to have 2 years of service in a non-probationary status before he/she may attend this class.**

This course complies with the guidelines of the following mandate(s): Civil Rights | Constitutional & Proper Use of LE Authority | Cultural Competency | Human Rights | Legal Updates | Procedural Justice | Mental Health Awareness

**Purpose:** Law enforcement officers are generally the first responders to crisis events. This course is also open to local and county sworn corrections officers. It is important to have individuals in law enforcement who can utilize effective strategies, insuring public and personal safety. The Crisis Intervention Team (CIT) training provides officers with education about mental illness and other behavioral disabilities as well as providing skills and tools for effectively and safely interacting with someone who is experiencing a crisis.

**Course Description:** Crisis Intervention Team training is an in-depth 40-hour specialized course of study for uniformed patrol law enforcement officers and sworn corrections officers who, in addition to their regular service calls, will be required to respond to crisis calls involving people who have behavioral disabilities. CIT officers will use their acquired knowledge and skill to effectively handle crisis situations and make the most appropriate disposition, which will best serve the individual and the community. Course is certified by the *Illinois Law Enforcement Training and Standards Board*.

The key components of this course cover the following:

- Officers are exposed to the dynamics of mental illness, developmental disabilities, child and adolescent disorders, elderly individuals with behavioral issues, returning combat veterans, people who have excited delirium, and people with substance abuse/co-occurring disorders. This training will allow officers to make quick and effective decisions utilizing options they have to resolve the crisis.
- Officers are exposed to the experiences, viewpoints and concerns of persons with mental illnesses (consumers). Officers will meet with consumers in order to gain their perspective and learn from them.
- Officers receive instruction and demonstrations in basic listening and responding skills along with crisis interventions strategies. Real life crisis scenarios provided by trained professional actors with the assistance of state-certified CIT officers are presented to officers for them to demonstrate their resolution skills.
- **The scenario-based training will take place on Thursday and attendees will be required to wear their "department uniform of the day" for their current assignment.**

**About the Instructors:** The course will be conducted by a diverse group of law enforcement and behavioral health professionals, including active CIT officers from various parts of the State of Illinois. An essential part of the CIT course is scenario-based skills training with crisis scenarios provided by trained professional actors. All scenarios are facilitated and evaluated by certified CIT officers.

Human Rights | Cultural Competency | Civil Rights | Constitutional & Proper Use of LE Authority | Legal Updates | Procedural Justice

**Course Description:** This forty-hour course is specifically designed for experienced uniformed patrol personnel selected to serve as Field Training Officers with probationary employees. The course emphasizes the FTO's role in assisting probationers certify for solo patrol operations by applying the knowledge and skills acquired during Basic Police Training/Certification and using them according to agency policy, procedures and community service delivery standards. The instruction highlights two essential Field Training and Evaluation Process skills: 1) the ability to examine and objectively document the probationer's job behaviors using the 2009 revised non-numerical/behaviorally anchored standardized assessment guidelines and, 2) analyzing the probationer's training needs and using proper instructional techniques for corrective action. The instruction presentation will focus upon discussion as well as hands-on application of the course materials in small group and individual/student exercises. Students will be required to complete out-of-classroom reading assignments from the course text and workbook, *Breaking Routine™: Field Training Officer*.

The course content will include:

- What every FTO really needs to know about the operational structure of the Field Training & Evaluation Process.
- The Instructional Relay Race: Taking over where Basic Police Training/Certification left off.
  - Inventorying the probationer's current knowledge and skill proficiencies.
- Selection and use of on-the-job instructional techniques: finding the best tools to meet the challenge.
- Utilization of legally defensible, non-numerical standardized evaluation guidelines.
- Objectively documenting probationer performance.
- Documenting the extent of training and coaching without becoming a best-selling author.
- Strategically addressing Probationer areas of Corrective Action Necessary.
- Utilizing the Probationer Officer Manual as the Field Training playbook.
- Practical Directed Patrol Mapping™: Preparing the Probationer for Proactive—Community Oriented Policing: Dancing with SARA!
- Creating a Self-Reliant™ law enforcement agent.

**Special attention:** Students should be familiar with their Department's current Field Training and Evaluation Process and should be briefed on their agency's process. Students are encouraged to bring a copy of their agency's Probationary Office Manual and forms to class.

# **Crash Investigation 2**

Frankfort Police Department  
20602 Lincoln-Way Lane, Frankfort, IL 60423  
Monday- Friday, May 11 – 22, 2020  
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Law Updates | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator

**Course Description:** At scene traffic crash data collection is useful only if all appropriate information is collected and properly interpreted and analyzed. Participation in Crash Investigation 2 enhances the capability and credibility of the at-scene investigator.

Crash Investigation 2, based on the 2014 edition of J. Stannard Baker's world-renowned textbook Traffic Crash Investigation, emphasizes vehicle behavior in crashes, vehicle damage analysis and more advanced mapping and evidence location skills.

Crash Investigation 2 builds upon topics examined in Crash Investigation 1 and provides the student/investigator with greater knowledge of the information available at the crash scene and how to properly collect and initiate interpretation of that information.

The course also provides instruction in the use of laser-based measurement devices to measure crash scenes and the evidence found there. Laser Technology, Inc. units are used for these demonstrations. Downloading the electronic information into mapping programs is also covered.

## **Course Topics:**

- Vehicle damage analysis - description, reporting and determination of direction of forces
- Vehicle behavior in crashes
- Results of the crash on the road - identifying and interpreting tire marks and roadscars
- Lamp filament analysis - determining whether headlamps, tail lights and turn signals were on or off at moment of impact
- Tire damage analysis - role of tire failure
- Measurement methods - perspective grid, photogrammetry, measurement techniques, diagram drawing and systematic methods for organizing and illustrating data
- Interpretation of data - use of all information obtained through investigation
- Specialized data gathering - measuring devices and other testing
- Laser-based measurement and use of mapping software
- In addition to addressing how the latest generation of vehicle electronics - including data recorders, traction and stability controls, multiple airbags - affect both the crash and the crash investigation, specific new topics include:
  - hit-and-run investigations,
  - dealing with event data recorders
  - technical report writing and other emerging technologies

# **Illinois General Explosives Recognition and Requirements**

JJC, Weitendorf Agricultural Center  
17840 W. Laraway Rd, Joliet, IL 60433  
Friday; May 15, 2020  
8:00 am till 4:00 pm

**GPS alert: use 1151 East Laraway Road 60433, neighbor of Ag. Center**

This course complies with the guidelines of the following mandate(s): Law Updates

**Course Description:** This is a one day 8-hour class being provided by the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. The class will provide hands on education for recognizing the different types of high/low explosives and their requirements at both the State of Illinois level, as well as the BATFE (Federal) level. In addition to general explosive recognition, the specifics and differences of consumer fireworks (1.4) vs. professional grade fireworks (1.3G) and the laws that pertain to them will be discussed in great detail.

This class is being provided by the IDNR to help educate law enforcement and to provide direct assistance, on scene, when dealing with explosive situations. The IDNR regulates / investigates high and low explosives including 1.1, 1.2, 1.3, and 1.5. Too many times law enforcement does not have the education to know how to identify an explosive and/or if a bomb squad needs to be called. Bomb Squads, Explosives Breaching SWAT Teams, and BOMB Dog Handlers already possess the IL Individual Explosives License. The IDNR must be notified immediately upon any recovery of a regulated explosive and/or device to pursue the information necessary for enforcement.

If the Officer and their respective department so desire; after completing the class and passing the exam they can receive an IL IDNR Individual Explosives License, to be used in association with their law enforcement duties. A random monthly bank of test questions will be administered at the end of the class which will consist of 50 questions that will be multiple choice and/or True-False. Each officer receiving the license will fill out an application and must pass the test with an 80% or higher. Officers who do not pass the test will be provided an opportunity to retest in the near future.

➤ **Licensing is recommended but not required to attend.**

There are eight chapters covered in the presentation and each officer will be provided a packet of information from the IDNR consisting of a copy of the IL Explosives Act, the Admin Codes that Apply to the Act, a general explosives safety packet, a packet for note taking as the presentation is given, and a small 4-page packet for officers to keep available as a quick reference guide for explosive identification purposes, while on duty.

Continued on next page:

[Back to Index](#)

**Key topical areas to be addressed include the following:**

- Illinois Explosives Act
- Explosive Storage Requirements-Law Enforcement and Non-Law Enforcement
- Explosives Safety/Recognition/Handling (m-devices, homemade sticks, etc.)
- Fireworks- 1.3G low explosives (professional fireworks) vs 1.4 low explosives
- Enforcement of 1.3G vs. 1.4 and their requirements

**Instructor:**

The instructor for this class is Nick Sterling who currently is a Specialist/Inspector/Investigator for the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. Mr. Sterling's current territory includes Cook, Lake, McHenry, DuPage, Kane, Kendall, Gundy, and Will Counties. Sterling has been with the Department for four years and inspects/investigates all explosive storage facilities (Law enforcement and Non-Law Enforcement), explosives accidents, explosives incidents, and performs random checks/investigations on both licensed and unlicensed individuals. Sterling has 18 years of high explosives experience and teaches the IL Individual Explosives License Class on a regular basis. Over the past few years Mr. Sterling has noticed a lack of education when law enforcement agencies are dealing with explosives related issues, and hopes to help prevent these issues in the future through education and assistance.

Civil Rights | Constitutional and Proper Use of Law Enforcement Authority | Lead Homicide Investigator Continuing Education | Legal Updates & Procedural Justice

## Course Description:

This *two-day* course will provide the investigator with strategies to vigorously target, investigate, interview/interrogate, prosecute and prevent resurgence of criminal street gangs. The program will equip the investigator with the knowledge and tools to “attack” organized gangs by using a multi-agency, multi-jurisdictional approach. The concepts taught in this course have been used to effectively dismantle gangs and take back communities.

## Topics Include:

- Understanding today’s gang alliances and their growing social network
- Gangs in schools
- Effective street interviewing
- Conducting gang investigations-graffiti to homicide
- Being successful in the interview-getting confessions
- Strategize your follow up *attack-eradication* strategies

**Instructor:** Domenic Cappelluti CFI was a veteran street cop with the Waukegan (Illinois) Police Department and former Group Supervisor of the elite Lake County Major Crime Task Force (Illinois). With over 24 years of experience Domenic has specialized in high profile violent street crimes, to include homicides, murder for hire cases on gang and drug officers, and officer involved shootings. During his career, Domenic has worked in patrol, and avidly supervised the Criminal Investigations Division and the Gang Suppression Unit. Domenic has proudly conducted and directed hundreds of gang and drug related operations throughout his County and the Chicago metropolitan area targeting Chicago based street gangs

# Tactical Field Interviewing

New Lenox Police Department  
200 Veterans Parkway, New Lenox, IL 60451  
Wednesday & Thursday; May 27 & 28, 2020  
8:00 am – 4:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Constitutional and Proper Use of Law Enforcement Authority | Lead Homicide Investigator Continuing Education | Legal Updates | Procedural Justice | Cultural Competency

**Course Description:** The two-day WZ Seminar on Tactical Field Interviewing is designed to teach and reinforce the sound fundamentals of the field interviewing process for the patrol officer, field investigator, detective, police officer, special agent, or other law enforcement professional. Course participants learn a broad range of cutting-edge methods and proprietary tools to conduct more effective interviews and interrogations in their terrorism-related investigations that will result in more actionable intelligence, quicker admissions and better statements.

The course is especially appropriate for those investigators tasked with the investigation of domestic or foreign terrorism and terrorist-related activities. Criminal activities traditionally investigated by law enforcement may have provided cover and funding for terrorist organization in the United States and abroad. Investigators conducting these inquiries will learn to apply interviewing techniques that most often will bring these cases to a successful conclusion.

Instruction includes a comprehensive overview of non-confrontational interviewing methods to overcome the resistance of a traditional criminal or terrorist operative. Attendees will learn to assess verbal and non-verbal behavior, offer rationalizations, handle denials, detect deception and evaluate truthfulness. This course will enhance communication, interview and interrogation skills for a more focused and successful investigation of terrorist activities.

## TOPICS INCLUDE:

- **Interview vs. Interrogation** and the advantages and disadvantages during a field contact or crime scene investigation.
- **Legal Aspects of Tactical Field Interviews:** A review of the laws regarding criminal interview and interrogation, Miranda warnings, consent to search, and the development of an admission into a legally acceptable confession.
- **Counter-Terrorism Interdiction Questioning:** Questioning techniques that can be utilized during a tactical interview of a potential terrorist suspect. Baseline and behavior-provoking questions discussed.
- **Interpretation of Verbal and Physical Behavior:** The evaluation of verbal and physical behavior as they relate to identifying anomalies and the pursuit of the truth will be discussed in depth.
- **Cognitive Interviewing Techniques:** Techniques that can be utilized when interviewing a traumatized or a cooperating witness. Techniques in establishing rapport and the concept of Neurolinguistics.
- **Enticement Questions:** Behavior-provoking non-accusatory questions that can be asked to entice a suspect into changing his original story.
- **Reducing Resistance:** How to use rationalizations to reduce resistance during a field interview.
- **Obtaining the Admission:** How alternative & assumptive questions can be utilized to obtain a confession
- **Developing and Handling Informants:** How to develop and improve the officer's ability to utilize informants as a valuable resource.

*Continued on next page:*

**Instructor:** Keith Zupec, CFI, brings over 23 years of law enforcement experience to the seminars he conducts for Wicklander-Zulawski & Associates, Inc. (WZ). Since 1997, he has been a law enforcement professional with the Waukegan (Illinois) Police Department. Besides his current position as Deputy Chief of Investigations, Keith has served as a patrol officer, detective, sergeant of detectives and a commander. Keith has also served as second in command of the department's SWAT Team for 10 years.

During his 18 years assigned to the Criminal Investigations Division, Keith conducted thousands of interviews and interrogations in over 200 death and homicide investigations. All the homicides he handled as a detective, or that he supervised, have been successfully concluded either through arrests or by outstanding arrest warrants. Due to his years of experience, particularly in interviewing and interrogation, Keith's main concentration within law enforcement is investigations.

Keith has a Bachelor of Arts from Western Illinois University. He attended Northwestern University Center for Public Safety, School of Police Staff and Command, as a graduate with honors in the 319th class. Keith is also a Certified Forensic Interviewer (CFI). A CFI demonstrates an understanding of legal aspects of interviewing and proficiency in interview preparation, behavioral analysis, accusatory and non-accusatory interviewing, documentation, and presentation of findings. As an instructor, Keith has presented to thousands of law enforcement officers throughout the country over the past 10 years in the areas of interviewing and interrogating along with homicide investigations.

Keith is a member of the International Association of Chiefs of Police, Law Enforcement Immigration Task Force, Lake County Chiefs of Police Association, International Homicide Investigators Association, Illinois Homicide Investigators Association, and the International Association of Interviewers. He has also received numerous state and local awards for his law enforcement service. His assignments included uniform patrol and plainclothes tactical operations. He was then promoted to the rank of Gang Crime Specialist and has investigated gang related criminal activity, including homicides; drive-by shootings, and narcotic trafficking.

### **~~Autism Awareness for Law Enforcement~~**

~~Plainfield Police Department~~

~~14300 Coil Plus Drive, Plainfield, IL 60544 Thursday, May~~

~~28, 2020~~

~~8:00 am till 4:00 pm~~

~~This course complies with the guidelines of the following mandate(s): Mental Health Awareness | Civil Rights | Use of Force | Procedural Justice | Human Rights | Constitutional and Proper Use of L.E. Authority~~

~~**Course Description:** This one day, 8 hour program has been designed to provide students with basic understanding of Autism Spectrum Disorders and strategies for interactions with individuals with an Autism Spectrum Disorder. Over the years the number of individuals diagnosed with Autism Spectrum Disorders (ASD) has risen drastically, resulting in increased contacts with law enforcement. This training will show students how inappropriate responses by individuals with Autism Spectrum Disorders, such as lack of communication skills, aggressive behavior, and obsessive compulsive behaviors can be reconciled. This can be done by identifying procedures that a law enforcement officer should/may employ when interacting with an individual with a disability and identify the procedures a law enforcement officer should follow to ensure the safety and cooperation of a person with Autism Spectrum Disorder (ASD).~~

#### ~~**Course Topics:**~~

- ~~• Explanation of Autism~~
- ~~• Characteristics of Autism~~
- ~~• Strategies for Interaction~~
- ~~• De-escalation Strategies~~
- ~~• Wandering Issues~~
- ~~• Communication Strategies (verbal and non-verbal)~~
- ~~• Interviewing Victims/Offenders~~
- ~~• Use of Force Considerations~~
- ~~• Law Enforcement Programs~~

~~**Instructor:** Sergeant Stefan Bjers, is currently a patrol sergeant and has served with the Addison Police Department for over 18 years. Stefan is an active CIT officer and is one of two supervisors for the department's CIT program. He has served the department in several different capacities, such as a gang investigator, school resource officer, use of force instructor, rapid response instructor, field training officer, evidence technician, and juvenile officer. He is also currently a board member of the DuPage Juvenile Officers Association. Stefan is also an adjunct faculty member at Waubesa Community College and the Suburban Law Enforcement Academy at the College of DuPage.~~

# Standard Field Sobriety Testing Instructor School

Plainfield Police Department

14300 Coil Plus Drive, Plainfield, IL. 60544

Monday - Friday; June 1 – 5, 2020

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s): Civil Rights | Const. Use of LE Authority | Legal Updates

**Course Description:** The purpose of this course is to prepare law enforcement professionals to effectively instruct the SFST training program using the concepts and principles provided by the National Highway Traffic Safety Administration and the International Association of Chiefs of Police. The curriculum addresses the application of basic adult learning theory and the instruction skills needed to deliver this training.

In the SFST instructor-development training program, the principal participants are law enforcement officers who have demonstrated proficiency in the administration of the standardized field sobriety tests (SFSTs), and are actively involved in detecting and apprehending impaired drivers. Participants should be well versed and comfortable with the SFSTs, including the HGN test.

Primary reasons for attending this training are:

- a desire to develop or strengthen effective presentation skills.
- a desire to develop or strengthen skills as an SFST instructor.
- a desire to learn how to conduct interactive participant-centered training.
- a desire to become more familiar with the SFST curriculum available through NHTSA and the International Association of Chiefs of Police.

The most significant learning activities are the presentations made by the participants. The participants will use NHTSA course materials to prepare their practice teaching presentations. Participants are expected to become thoroughly familiar with content, learning activities, training aids, etc. related to delivery of the SFST course.

**Instructors:** Lead instructor will be Tony Lebron (Retired M/Sgt; Illinois State Police). He will be assisted by various Law Enforcement Officers (active and retired) approved by the Illinois Law Enforcement Training and Standards Board.

# Mental Preparation for Terrorist Attacks and Other Violent Encounters

Plainfield Police Department,  
14300 S. Coil Plus Dr., Plainfield, IL. 60544

Tuesday; June 16, 2020

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s): Pending

**Course Description:** Historically, the focus of officer safety has been on the dangers posed by violent criminals, but this has changed with the ever-increasing risk of terrorist attacks in America. While officers must still make officer safety a high priority, their primary emphasis must be on taking swift action to stop the killing when dealing with terrorist attacks, which necessitates the taking of greater risks than before. At the same time, they must never lose sight of the importance of effectively controlling violent individuals while carefully guarding against the use of excessive force. This makes it more important than ever for officers to possess the appropriate mindset. Through the extensive use of case studies and classroom participation, this course demonstrates how they can develop the mental tools they need to take appropriate action in the event of a terrorist attack, while also remaining mentally prepared to control violence in a manner that reduces the risk of unnecessary force.

At the conclusion of the training, the officer will be able to:

1. Explain how winners plan for violent encounters
2. Explain why it is important to train realistically.
3. List at least four ways that mental flexibility can be enhanced.
4. List at least four ways to improve decision making under stress
5. List and explain the five basic principles for close-quarters use of the handgun.
6. List at least three means for detecting an ambush.
7. List at least three tactical principles related to responding to terrorist attacks when off duty.
8. Analyze at least one lethal police encounter, and then present at least three learning points that can be learned from the incident.

**Instructor:** Brian McKenna is the owner of WINNING EDGE TRAINING and its sole instructor. He recently retired after 30 years with the Hazelwood (MO) Police Department. At the time of his retirement, he was assigned to the patrol division as a shift supervisor (lieutenant), and also served as an in-service trainer and lead firearms instructor. He is a state certified police instructor and former academy instructor, and holds a Master's Degree in human resource development.

Brian writes extensively on officer safety topics, and authors Law Officer Magazine's Officer Down column, a regular feature that analyzes officer-involved shootings for key learning points. This experience gave Brian the opportunity to conduct in-depth research into the dynamics of armed encounters and the most effective ways to control them. WINNING EDGE TRAINING is the culmination of this research, packed into training that uses the power of case studies, proven adult learning principles, and a dynamic presentation style to teach officers how to control violent encounters with the proper level of force.

# Peer Support for Public Safety Agencies

New Lenox Police Department

200 Veterans Parkway, New Lenox, IL 60451 Monday—

Friday: June 29—July 3, 2020 8:00am—4:00pm

**Please note this course is intended for department members whose respective agencies currently have or are in the process of developing a Peer Support Team.**

This course complies with the guidelines of the following mandate(s): Human Rights | Procedural Justice | Officer Wellness

**Course Description:** This 5 day, 40-hour program has been developed for entry level participants who have been chosen as peer support team members and is consistent with accepted industry standards, guidelines for peer support as proffered by the International Association of Chiefs of Police, and reviews of other law enforcement programs and peer support as a discipline. Content is heavily influenced by previous experiences in peer support, crisis hotline training, and related behavioral sciences. The overall philosophy is that peer support comes from within the peer support team member, from his or her own experiences, and from the recognition of one's own feelings. This provides the starting point for understanding crisis, stress, suicide, bereavement, crisis communication skills, the model known as Critical Incident Stress Debriefing, boundaries, confidentiality, and other pertinent information to prepare the team member to intervene in a personal crisis and/or critical incident.

Lecture, discussion, personal introspection, sharing and intense role playing exercises are the methods generally utilized in this training. Critiques from over 500 past participants have supported this training as the definitive starting point for a peer support team member.

### Topics to be addressed include:

- What is peer support?
- The Peer Intervention Model
- The Nature of Crisis
- Crisis Communication Skills
- DSM IV & the Relationship with Trauma
- Understanding Suicide
- Cynicism
- Resiliency
- Setting Limits
- Retirement Issues
- Death & Dying

**Lead Instructor:** William Hogewood is a veteran of 49 years in law enforcement with Prince George's County, Maryland, joining in 1969, and the Bureau of Alcohol, Tobacco, and Firearms for 10 years. His company, Crisis Associates LLC, presents peer support and other behavior sciences programs tailored to the needs of clients. He is also involved in Crisis Negotiation Training stateside and in other countries. Mr. Hogewood has been involved in training others since 1980 with his department, the local Community Crisis Center, private corporations, and the U.S. State Department Anti-Terrorism Assistance Program. He has a Master of Human Services degree from Lincoln University in Oxford, Pennsylvania.
