~~17840 W. Laraway Rd, Joliet, IL 60433~~

~~Tuesday, March 6, 2018~~

~~8:00 am till 4:00 pm~~

This course complies with the guidelines of the following mandate(s): Procedural Justice

***GPS alert: use 1151 East Laraway Road 60433, neighbor of Ag. Center***

**Course Description:** This course covers the concepts and practical application of Tactical Emergency Casualty Care and Officer-Citizen High Threat Casualty Extraction in the patrol environment. Officers will learn to identify and treat the most commonly encountered wound patterns and plan/execute an Officer-Citizen Extraction, then demonstrate the concepts and techniques learned during scenario-based exercises.

- **Students are required to bring their duty belt/gear and wear clothing appropriate for physically demanding scenario training.** Course exercises will allow each student to apply critical lifesaving skills in a dynamic patrol-based setting.

On completion of the course, each participant will receive a North American Rescue Products Individual Patrol Officer Kit (IPOK) for duty use. Each sealed kit contains: One C-A-T Combat Application Tourniquet, an ETD Emergency Trauma Dressing, a packet of Z-Fold Gauze, and a pair of trauma gloves.

### **Topics include:**

- Tactical Emergency Casualty Care (TECC) concepts
- Mindset and situational awareness
- Mental and physical response to trauma
- Basic airway management
- Bleeding and shock control
- Rapid casualty assessment
- Casualty extractions and evacuations
- Treatment and high threat extraction scenarios

**Instructor:** Michael Gordon is law enforcement professional with more than 25 years of service and will serve as Lead Instructor for this course. He recently retired as a Senior Sergeant in the Patrol Division of the Alton (IL) Police Department. For 16 years Sergeant Gordon has served on Tactical Response Teams for both the Alton Police Department and the Illinois Law Enforcement Alarm System (ILEAS). He has served as Team Commander for both teams. Sergeant Gordon is also a paramedic with ten years of experience conducting Advanced Life Support in civilian emergency services and tactical medical operations. Sergeant (Ret.) Gordon will be assisted by a law enforcement veteran with civilian EMS experience.

# **Social Network and Cell Phone Investigations**

Frost Insulators Hall  
18520 Spring Creek Dr, Tinley Park, IL 60477  
Tuesday; March 6, 2018  
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s): Civil Rights  
Procedural Justice | Constitutional & Proper Use of LE Authority | Human Rights | Legal Updates | Lead Homicide  
Investigator

## **Course Description:**

This is an 8-hour Conference over view of the 16-hour class using a computer lab class where we learn how to investigate the social network cell phone applications that are used in cases to understand how to find out who the persons involved are.

- We will learn how to investigate social media and find out who the perpetrators are in many different types of online criminal cases.
- We will examine the simple 3 step process of investigating internet crime according to the Electronics Communications Privacy Act (ECPA).
- We will examine a host of open source tools involving the Search.org investigative tool bar.

**Students are encouraged to bring their laptops as well as at least a 4 GB flash drive to download a wealth of "GO BY" information to conduct such investigations.**

## **Instructor:**

Detective Richard Wistocki (Ret.) had been a law enforcement officer for 30 years and 28 years with the Naperville Police Department. In his last 22 years as an Internet Crimes Investigator with the Naperville Police Department, he has forged numerous partnerships with the community and other Law Enforcement Agencies. He has been a SWAT operator / Sniper for the past 22 years. He is one of the founding members and an affiliate member of the Illinois Attorney Generals High Tech Crimes Bureau (ICAC). Rich's passion is concentrated in teaching parents how to parent their children while online. He takes his juvenile investigations experience and applies it to teaching parents how to be better parents. He is an instructor for the Department of Justice and various Law Enforcement Mobile Training Units and POST units across the United States. He is also the creator of the Illinois Sexting Law. Recently, Detective Rich Wistocki has developed a FREE Online tool for SRO's and School Officials to use in cases of Sexting, Cyber-Bullying and the new Illinois SB100 legislation. This tool is JuvenileJusticeOnline.org and it is not only a case management system, but a free training site for school administrators, SRO's, Juvenile Officers, Probation and States Attorney's.

Wednesday thru Friday, March 7, 8, & 9, 2018

8:00 am till 4:30 pm

This course complies with the guidelines of the following mandate(s):  
Constitutional & Proper Use of LE Authority | Civil Rights | Law Updates

This three day, 24 hour course is a State Certified program on the standardization of sobriety testing procedures. The latest testing methods will be demonstrated. Horizontal Gaze Nystagmus (HGN) techniques for improved probable cause standard for DUI arrests will be taught. This course will also cover the pharmacological differences between drug effects and alcohol effects on the body.

➤ ***This course utilizes live dosed individuals as opposed to videos, which greatly enhances the training.***

**Course Description:** The purpose of this course is to increase deterrence of DWI violations, and thereby reduce the number of crashes, deaths and injuries caused by impaired drivers. As a result of this training, participants will become significantly better able to:

- Understand enforcement's role in general DWI deterrence.
- Understand detection phases, clues and techniques.
- Understand requirements for organizing and presenting testimonial and documentary evidence in DWI cases.
- Recognize and interpret evidence of DWI violations.
- Administer and interpret Standardized Field Sobriety Tests.
- Describe DWI evidence clearly and convincingly in written reports and verbal testimony.
- Understand the tasks and decisions of DWI detection.
- Know and recognize typical vehicle maneuvers and human indicators symptomatic of DWI associated with initial observations.
- Know and recognize typical reinforcing maneuvers and indicators that come to light during the stopping sequence.
- Know and recognize typical sensory and other clues of alcohol and/or other drug impairment that may be seen during face-to-face contact with DWI suspects.
- Know and recognize typical behavioral clues of alcohol and/or other drug impairment that may be seen during the suspect's exit from the vehicle.
- Understand the role and relevance of psychophysical testing in pre-arrest screening of DWI suspects.
- Know and carry out appropriate administrative procedures for validated divided attention psychophysical tests.
- Know and carry out appropriate administrative procedures for the Horizontal Gaze Nystagmus test.
- Know and recognize typical clues of alcohol and/or other drug impairment that may be seen during administration of the Standardized Field Sobriety Tests.

**Instructors:** The instructors for this class will be Lt. Dave Schurr of the Bolingbrook Police Department and Sgt. Steve Sigler of the Illinois State Police.

# **Crash Investigation 1**

Frankfort Police Department

20602 Lincoln-Way Lane, Frankfort, IL 60423

Monday – Friday; March 12 - 23, 2018

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Law Updates | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator

**Course Description:** In most jurisdictions, traffic crashes account for more lives lost, more injuries and more property damage than all criminal activity combined. To effectively implement crash prevention programs and improve quality of life, law enforcement agencies need to know the who, what, where, when and why of crash occurrence.

The moments immediately following a traffic crash are crucial, and only a well-trained crash investigator knows how to identify and collect the necessary information at the crash scene and to begin the interpretation of that evidence.

Crash investigators must work quickly and confidently to preserve significant physical results before the crash scene is altered or evidence disappears. They must anticipate what information will be needed for enforcing traffic laws, planning crash prevention programs and possible case litigation. In addition, they must properly document the at-scene information and evidence because once the scene is cleared, the evidence might be impossible to recover.

Crash Investigation 1, based on J. Stannard Baker's world-renowned text, Traffic Crash Investigation, is an in-depth study of the skills needed to systematically investigate a traffic crash. Techniques for recognizing and properly recording roadway and vehicle crash evidence are thoroughly presented. Students learn to take measurements and photographs of the crash scene and to create sketches and after-crash diagrams. Crash Investigation 1 also addresses how the collected data are used to reconstruct crashes. Finally, the use of electronic devices to collect and record at-scene data is also introduced.

## **Course Topics:**

- Preparation for traffic crash investigation
- Information from and about people
- Information from vehicles
- Information from roads
- Measuring and mapping the crash scene
- Photographing the crash scene and damaged vehicles
- For this updated program, students will develop a new case study. Photographs and exhibits have been updated, and classroom instruction now includes how the latest generation of vehicle electronics - including data recorders, traction and stability controls, multiple airbags, etc. - affect both the crash and the crash investigation

Continued on next page:

**Course Materials:** All students need to bring a laptop computer or other device with a USB port to the class. Student reference materials will be distributed in USB flash drives (files will accept electronic comments and highlighting and can be saved).

**In all cases, please bring the following additional items to class:**

- Comfortable outdoor clothing (likely to get dirty) for Week 2 outdoor projects
- Simple calculator with square root key
- Mechanical Pencils
- Staedtler Geometry Compass
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed.
- Students may use calculators and electronic communication devices in class; however, possession/use of electronic communication devices during closed-book quizzes and exams is prohibited.

**Course Outcomes:** Officers/investigators who successfully complete Crash Investigation 1 significantly improve their ability to handle all aspects of the majority of traffic crash investigations occurring within their jurisdictions.

Participants who successfully complete Crash Investigation 1 or its equivalent are eligible to enroll in Tri-River's and NUCPS's next crash investigation course, Crash Investigation 2.

**Instructor (s):** Course instructor(s) are provided by *NUCPS*.

**Member Tuition: None\***

**Non-Member Tuition: None\***

\*Initial registration will be limited to Tri-River member agencies; a waiting list will be established for non-members. A limited number of seats are available, all agencies may be limited as to the number of attendees allowed to initially register and attend.

*This class is funded by the Illinois Department of Transportation through the Police Traffic Services Training Project and administered by the Illinois Law Enforcement Training & Standards Board.*

# **Illinois General Explosives Recognition and Requirements**

JJC, Weitendorf Agricultural Center  
17840 W. Laraway Rd, Joliet, IL 60433  
Monday, March 12, 2018  
8:00 am till 4:00 pm

**GPS alert: use 1151 East Laraway Road 60433, neighbor of Ag. Center**

This course complies with the guidelines of the following mandate(s): Law Updates

**Course Description:** This is a one day 8-hour class being provided by the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. The class will provide hands on education for recognizing the different types of high/low explosives and their requirements at both the State of Illinois level, as well as the BATFE (Federal) level. In addition to general explosive recognition, the specifics and differences of consumer fireworks (1.4) vs. professional grade fireworks (1.3G) and the laws that pertain to them will be discussed in great detail.

This class is being provided by the IDNR to help educate law enforcement and to provide direct assistance, on scene, when dealing with explosive situations. The IDNR regulates / investigates high and low explosives including 1.1, 1.2, 1.3, and 1.5. Too many times law enforcement does not have the education to know how to identify an explosive and/or if a bomb squad needs to be called. Bomb Squads, Explosives Breaching SWAT Teams, and BOMB Dog Handlers already possess the IL Individual Explosives License. The IDNR must be notified immediately upon any recovery of a regulated explosive and/or device to pursue the information necessary for enforcement.

If the Officer and their respective department so desire; after completing the class and passing the exam they can receive an IL IDNR Individual Explosives License, to be used in association with their law enforcement duties. A random monthly bank of test questions will administered at the end of the class which will consist of 50 questions that will be multiple choice and/or True-False. Each officer receiving the license will fill out an application and must pass the test with an 80% or higher. Officers who do not pass the test will be provided an opportunity to retest in the near future.

➤ **Licensing is recommended but not required to attend.**

There are eight chapters covered in the presentation and each officer will be provided a packet of information from the IDNR consisting of a copy of the IL Explosives Act, the Admin Codes that Apply to the Act, a general explosives safety packet, a packet for note taking as the presentation is given, and a small 4-page packet for officers to keep available as a quick reference guide for explosive identification purposes, while on duty.

**Key topical areas to be addressed include the following:**

- Illinois Explosives Act
- Explosive Storage Requirements-Law Enforcement and Non-Law Enforcement
- Explosives Safety/Recognition/Handling (m-devices, homemade sticks, etc.)
- Fireworks- 1.3G low explosives (professional fireworks) vs 1.4 low explosives
- Enforcement of 1.3G vs. 1.4 and their requirements

**Instructor:**

The instructor for this class is Nick Sterling who currently is a Specialist/Inspector/Investigator for the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. Mr. Sterling's current territory includes Cook, Lake, McHenry, DuPage, Kane, Kendall, Gundy, and Will Counties. Sterling has been with the Department for four years and inspects/investigates all explosive storage facilities (Law enforcement and Non-Law Enforcement), explosives accidents, explosives incidents, and performs random checks/investigations on both licensed and unlicensed individuals. Sterling has 18 years of high explosives experience and teaches the IL Individual Explosives License Class on a regular basis. Over the past few years Mr. Sterling has noticed a lack of education when law enforcement agencies are dealing with explosives related issues, and hopes to help prevent these issues in the future through education and assistance.

# **Tavern Inspection & Liquor License Enforcement**

Romeoville Police Department

1050 West Romeo Road (at Sunset Pointe Drive), Romeoville, IL 60446

Thursday, March 22, 2018

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s)  
Law Updates; Constitutional and Proper Use of Law Enforcement Authority

## **Course Description:**

This training class is intended for police officers who have been assigned to enforce liquor law enforcement and age compliance enforcement for tobacco and liquor sales. This is an advanced level class that goes beyond the uniformed patrol officer "bar check

walk-through" and focuses on specific liquor license inspection regulations and procedures.

The one-day program will focus on the inspection of by-the-drink liquor establishments (taverns) for compliance with state and local regulations governing licensing, signage, restricted sales, advertising, sanitation, and prohibited practices. Special license inspections for seasonal festivals and one-time/special liquor events will also be discussed. Standardized documentation of violations that comply with state commission standards will accompany a legal review. The 2015 revised Illinois Happy Hour Law will be presented along with a detailed review of the Illinois Law Enforcement

Training and Standards Board guidelines on conducting age compliance enforcement operations.

Participants will receive a manual and cloud based access to the Illinois Liquor Control Act, Illinois Liquor Control Commission (ILCC) Administrative Regulations, and supporting materials.

## **Upon completion of this training program, participants will be able to:**

- Relate the top liquor violations found during inspections in Illinois taverns
- Compare and contrast the enforcement powers of a local law enforcement officer to a Illinois Liquor Control Commission agent during liquor enforcement operations
- List the required licenses that must be on display at Illinois taverns
- Define who is required to be BASSET certified at a local tavern
- Discuss the changes to the Illinois "Happy Hour" law

Continued on next page:

- Describe the guidelines for selecting police special agents employed in liquor and tobacco age compliance enforcement operations
- Discuss the key elements described by the Supreme Court regarding the legal concept of “police entrapment” in police liquor enforcement operations
- Relate the recommended procedures to defuse a confrontation that may occur during a police liquor enforcement operation

**Instructor:**

Instructor Sergeant Bruce Talbot retired in 2003, after 23 years of service with the Woodridge Police Department located in Du Page County, Illinois. Considered a national expert on the topic of controlling youth access to tobacco, Sergeant Talbot has appeared as a source expert before two congressional committees and is a nationally known lecturer on youth access enforcement. Sergeant Talbot is Illinois certified law enforcement trainer with 30 years of experience, and has twenty years of experience as a contract instructor for the Illinois Liquor Control Commission and the federal Synar Grant program.

Sergeant Talbot lectures at police academies across the country and has been a contract instructor for Northwestern University’s Center for Public Safety’s prestigious Traffic Institute and other national police training organizations.

# **Current Trends in Drug Abuse**

Romeoville Police Department

1050 West Romeo Road (at Sunset Pointe Drive), Romeoville, IL 60446

Friday, March 23, 2018

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s)  
Law Updates; Constitutional and Proper Use of Law Enforcement Authority

**Course Description:** This one day seminar is designed law enforcement officers tasked with street drug enforcement. The program concentrates on the newest drugs of abuse including synthetic stimulants (e.g... alpha-PVP "Flakka"), narcotics (e.g... U-47700 "U-4"), hallucinogenic (e.g. 25I-NBOMe "N-Bomb") cannabinoids (e.g... 5F-ADB "Smacked"), and counterfeit prescription drugs seen on the streets (e.g... Lemmon 714).

The latest drug seizure data focused on the local counties from the Illinois State Police Forensic Crime Lab will be presented. Updates on recent drug law changes will also be discussed. Many of these synthetic drugs will not be detectable using standard drug screening tests and many police officers are unfamiliar with the effects these new drugs can produce.

This seminar will include the physical symptoms of under the influence of synthetic drugs currently appearing in Illinois. The program will also offer updates on other street drugs of abuse such as Kratom, Molly, and will include an update on the changes to the Illinois Medical Cannabis law.

## **Upon completion of this seminar, participants will be able to:**

- Define the term "designer synthetic drug" in the context of street drug abuse.
- List the top designer synthetic narcotic, stimulant, depressant and cannabinoid activating drugs in the MTU-16 area.
- Discuss the new Illinois Designer Synthetic Drug Act and its application as an effective control measure.
- Describe the physical symptoms displayed by a person under the influence of narcotics, depressants, stimulants, and designer synthetic cannabinoids.
- Discuss the reason for a spike in the unregulated narcotic drug Kratom.
- Review the changes to the Illinois Medical Marijuana Law and its impact on community substance abuse.

# **The Reid Technique of Interviewing and Interrogation®**

Romeoville Police Department

1050 West Romeo Road (at Sunset Pointe Drive), Romeoville, IL 0446

Monday, Tuesday & Wednesday; March 26, 27 & 28, 2018

8:00 am till 3:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator | Legal Updates

**Course Description:** This is a twenty-one hour program on the Reid Technique of Interviewing and Interrogation®. The course includes; interview and interrogation preparation, behavior symptoms, the Reid® Behavior Analysis Interview (B.A.I.) and "The Reid Nine Steps of Interrogation" which include:

## **Interview and Interrogation Preparation**

The style, appearance and approach of the successful interviewer and interrogator will be covered, as will the room settings conducive to these activities.

## **Behavior Symptoms**

Differences in verbal and nonverbal behavior between innocent and deceptive persons often can be observed, and are thus indicative of whether or not a suspect is telling the truth. A guilty suspect makes a conscious decision to resist your effort to get at the truth. In trying to maintain a structure of verbal lies, however, that suspect most often develops internal conflicts and tensions which manifest themselves in nonverbal behavior. Thus, body movements, facial expressions, eye contact, attitudes, posture and grooming gestures can indicate whether the subject is telling the truth or lying. Nonverbal indicators can also be used to determine whether the suspect under interrogation is listening, maintaining a defiant attitude or is ready to confess. You will learn how to observe and assess critical behavior symptoms and use those assessments to determine whether to move on to the next step of the interrogation.

## **Reid® Behavioral Analysis Interview (B.A.I.)**

The information developed through use of the standard investigative questions of "who," "what," "when" and "how" is often not adequate — even in combination with physical evidence — to identify the wrongdoer. The Reid Behavioral Analysis Interview is a technique that uses a structured set of non-accusatory behavior-provoking questions developed as a result of many thousands of interviews. The B.A.I. makes it easier to determine whether the suspect is telling the truth about involvement in the matter under investigation, and is flexible enough to be used in cases ranging from employee theft to homicide.

## **The Reid Nine Steps of Interrogation®**

The nine step approach to a successful interrogation has been developed by John E. Reid and Associates through extensive research and practical experience over a period of 60 years. Because of the subject's importance, approximately half the classroom time in the seminar is devoted to the interrogation process and detailed examination of each of the nine steps.

John Reid and Associates will provide the instructor for this class.

# John Reid Advanced Interviews & Interrogations

Romeoville Police Department

1050 West Romeo Road (at Sunset Pointe Drive), Romeoville, IL 60446

Thursday, March 29, 2018

8:00 am to 3:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator | Legal Updates

**Course Description:** This course is for individuals who have completed the 3-day seminar on *The Reid Technique of Interviewing and Interrogation*, and builds upon their knowledge of the Reid Technique.

Most unsuccessful interrogations are a result of the investigator's inability to move the guilty suspect from one stage of the interrogation to the other. *Reid* has defined three distinct stages of the interrogation that may give the investigator problems:

1. Defiant stage: seven proven tactics to move suspects out of this stage
2. Neutral stage: four proven techniques to get the suspect to listen to the interrogator's themes
3. Acceptance stage: three specific techniques that will dramatically increase admissions of guilt

People who commit crimes do so to fulfill certain needs. What needs were satisfied is based upon the case facts, evidence and results of the interview — types of needs that will be thoroughly discussed are:

- Real need crimes
- Impulse need crimes
- Esteem need crimes
- Lifestyle need crimes

The Advanced Seminar will also address the following specific problem areas for some but not all interrogations:

- Juvenile interrogations
- Interrogation regarding guilty knowledge
- Playing one suspect against another
- Interrogation on multiple crimes

**Course Instructor:** This course will be taught by Instructors with John E. Reid and Associates, Inc.

This course complies with the guidelines of the following mandate(s): Human Rights | Cultural Competency  
Civil Rights | Constitutional & Proper Use of LE Authority | Legal Updates | Procedural Justice

**Course Description:** This forty-hour course is specifically designed for experienced uniformed patrol personnel selected to serve as Field Training Officers with probationary employees. The course emphasizes the FTO's role in assisting probationers certify for solo patrol operations by applying the knowledge and skills acquired during Basic Police Training/Certification and using them according to agency policy, procedures and community service delivery standards.

The instruction highlights two essential Field Training and Evaluation Process skills: 1) the ability to examine and objectively document the probationer's job behaviors using the 2009 revised non-numerical/behaviorally anchored standardized assessment guidelines and, 2) analyzing the probationer's training needs and using proper instructional techniques for corrective action.

The instruction presentation will focus upon discussion as well as hands-on application of the course materials in small group and individual/student exercises. Students will be required to complete out-of-classroom reading assignments from the course text and workbook, *Breaking Routine™: Field Training Officer*.

The course content will include:

- What every FTO really needs to know about the operational structure of the Field Training & Evaluation Process.
- The Instructional Relay Race: Taking over where Basic Police Training/Certification left off.
  - Inventorying the probationer's current knowledge and skill proficiencies.
- Selection and use of on-the-job instructional techniques: finding the best tools to meet the challenge.
- Utilization of legally defensible, non-numerical standardized evaluation guidelines.
- Objectively documenting probationer performance.
- Documenting the extent of training and coaching without becoming a best-seller author.
- Strategically addressing Probationer areas of Corrective Action Necessary.
- Utilizing the Probationer Officer Manual as the Field Training playbook.
- Practical Directed Patrol Mapping™: Preparing the Probationer for Proactive - Community Oriented Policing: Dancing with SARA!
- Creating a Self-Reliant™ law enforcement agent.

**Special attention:** Students should be familiar with their Department's current Field Training and Evaluation Process and should be briefed on their agency's process. Students are encouraged to bring a copy of their agency's Probationary Office Manual and forms to class.

## "My C.I."

### *Cultivating and Effectively Handling Today's Top Confidential Informants*

New Lenox Police Department

200 Veterans Parkway, New Lenox, IL 60451

Friday, April 13, 2018

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s)  
Civil Rights | Constitutional and Proper Use of Law LE Authority | Lead Homicide

**Course Description:** The focus of this dynamic one day seminar is to simply clarify each and every aspect of working hand and hand with an "informant" in any criminal investigation, such as of drug cases, property crimes and other serious crimes against person including homicides. This seminar has been developed for *patrol officers, tactical officers, detectives, gang investigators, agents and command staff*. Your expert instructor will share his experiences and address issues to help you develop your own strategies in spotting, cultivating and safely getting informants to work for you.

From first time offenders to high-level criminal organizations, the mentality of those heavily involved in today's most serious crimes is rapidly changing. Today, we are tasked with combating the most dangerous criminals in the U.S. and across the world who continue to improve in ways of eluding law enforcement. This is where "My C.I." comes in. Behind every great informant is a greater handler who always understands their capabilities, an informant's limits, and the legal aspects during day to day operations. Despite the ambitions or motivators of potential informants, you will develop the expertise that's needed today to protect the informant, your agency and yourself.

#### **Topics Include:**

- Spotting today's possible candidates and dangers
- Evaluating the informant and their potential in each investigation
- The significance of protecting your agency and establishing voluntariness
- Understanding the informant's motivators and lifestyle
- Mastering rapport and effective communication
- Establishing and maintaining ethical and professional relationships
- Today's legal aspects and courtroom preparation

**Instructor:** Domenic Cappelluti CFI is a veteran street cop with the Waukegan (Illinois) Police Department and former Group Supervisor of the elite Lake County Major Crime Task Force (Illinois). With over 18 years of experience Domenic has specialized in high profile violent street crimes, to include homicides, murder for hire cases on gang and drug officers, and officer involved shootings. During his career, Domenic has worked in patrol, and avidly supervised the Criminal Investigations Division and the Gang Suppression Unit. ## **Crisis Intervention Team Training (CIT)**

*40-Hour State Certified Course*

Orland Park Police Department

15100 S. Ravinia Ave., Orland Park IL 60462

Monday - Friday, April 16 – 20, 2018

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s): Civil Rights | Constitutional & Proper Use of LE Authority | Cultural Competency | Human Rights | Legal Updates | Procedural Justice

**Purpose:** Law enforcement officers are generally the first responders to crisis events. This course is also open to local and county sworn corrections officers. It is important to have individuals in law enforcement who can utilize effective strategies, insuring public and personal safety. The Crisis Intervention Team (CIT) training provides officers with education about mental illness and other behavioral disabilities as well as providing skills and tools for effectively and safely interacting with someone who is experiencing a crisis.

**Course Description:** Crisis Intervention Team training is an in-depth 40-hour specialized course of study for uniformed patrol law enforcement officers and sworn corrections officers who, in addition to their regular service calls, will be required to respond to crisis calls involving people who have behavioral disabilities. CIT officers will use their acquired knowledge and skill to effectively handle crisis situations and make the most appropriate disposition, which will best serve the individual and the community.

The key components of this course cover the following:

- Officers are exposed to the dynamics of mental illness, developmental disabilities, child and adolescent disorders, elderly individuals with behavioral issues, returning combat veterans, people who have excited delirium, and people with substance abuse/co-occurring disorders. This training will allow officers to make quick and effective decisions utilizing options they have to resolve the crisis.
- Officers are exposed to the experiences, viewpoints and concerns of persons with mental illnesses (consumers). Officers will meet with consumers in order to gain their perspective and learn from them.
- Officers receive instruction and demonstrations in basic listening and responding skills along with crisis interventions strategies. Real life crisis scenarios provided by trained professional actors with the assistance of state-certified CIT officers are presented to officers for them to demonstrate their resolution skills.
- **The scenario based training will take place on Thursday, April 19<sup>th</sup>, attendees will be required to wear their "department uniform of the day" for their current assignment.**

**About the Instructors:** The course will be conducted by a diverse group of law enforcement and behavioral health professionals, including active CIT officers from various parts of the State of Illinois. An essential part of the CIT course is scenario-based skills training with crisis scenarios provided by trained professional actors. All scenarios are facilitated and evaluated by certified CIT officers.

# **Crash Investigation 2**

Frankfort Police Department  
20602 Lincoln-Way Lane, Frankfort, IL 60423  
Monday- Friday, April 23 – May 4, 2018  
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Law Updates | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator

**Course Description:** At scene traffic crash data collection is useful only if all appropriate information is collected and properly interpreted and analyzed. Participation in Crash Investigation 2 enhances the capability and credibility of the at-scene investigator.

Crash Investigation 2, based on the 2014 edition of J. Stannard Baker's world-renowned textbook Traffic Crash Investigation, emphasizes vehicle behavior in crashes, vehicle damage analysis and more advanced mapping and evidence location skills.

Crash Investigation 2 builds upon topics examined in Crash Investigation 1 and provides the student/investigator with greater knowledge of the information available at the crash scene and how to properly collect and initiate interpretation of that information.

The course also provides instruction in the use of laser-based measurement devices to measure crash scenes and the evidence found there. Laser Technology, Inc. units are used for these demonstrations. Downloading the electronic information into mapping programs is also covered.

## **Course Topics:**

- Vehicle damage analysis - description, reporting and determination of direction of forces
- Vehicle behavior in crashes
- Results of the crash on the road - identifying and interpreting tire marks and road scars
- Lamp filament analysis - determining whether headlamps, tail lights and turn signals were on or off at moment of impact
- Tire damage analysis - role of tire failure
- Measurement methods - perspective grid, photogrammetry, measurement techniques, diagram drawing and systematic methods for organizing and illustrating data
- Interpretation of data - use of all information obtained through investigation
- Specialized data gathering - measuring devices and other testing
- Laser-based measurement and use of mapping software
- In addition to addressing how the latest generation of vehicle electronics - including data recorders, traction and stability controls, multiple airbags - affect both the crash and the crash investigation, specific new topics include:
  - hit-and-run investigations,
  - dealing with event data recorders
  - technical report writing and other emerging technologies

Continued on next page:

**Course Materials:** All students need to bring a laptop computer or other device with a USB port to the class. Student reference materials will be distributed in USB flash drives (files will accept electronic comments and highlighting and can be saved).

**In all cases, please bring the following additional items to class:**

- Comfortable outdoor clothing (likely to get dirty) for Week 2 outdoor projects
- Small pair of scissors
- Simple calculator with square root key
- Staedtler Geometry Compass
- Mechanical Pencils
- Triangles 45-45-90 and 30-60-90
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed
- **Traffic Crash Investigation, 11th Edition – All Crash Investigation 1 students receive a copy of the text. If necessary, a copy may be purchased online at [nucps.northwestern.edu/crashbooks](http://nucps.northwestern.edu/crashbooks).**
- Students may use calculators and electronic communication devices in class; however, possession/use of electronic communication devices during closed-book quizzes and exams is prohibited.

**Who Should Attend:**

- Crash Investigation 2 is designed for those who analyze data collected by other crash investigators and who gather and analyze supplementary data.
- Crash Investigation 2 participants must have successfully completed NUCPS's Crash Investigation 1 or its equivalent

**Course Outcomes:** Officers/investigators who successfully complete Crash Investigation 2 develop skills in technically preparing crash investigation data and collecting follow-up data required by prosecutors, defense attorneys, claim adjusters, fleet supervisors, reconstructionists and highway safety engineers.

**Instructor (s):** Course instructor(s) are provided by *NUCPS*.

This course complies with the guidelines of the following mandate(s): Civil Rights  
Introductory Mental Health Awareness | Law Updates | Use of Force | Cultural Competency | Lead Homicide  
Investigator | Procedural Justice | Human Rights | Constitutional and Proper Use of L.E. Authority

## Course Description:

In the last four decades, the number of individuals with mental illness living in a community setting has risen drastically, resulting in increased contacts with law enforcement. Agencies across the country have responded by developing new protocols, hiring social workers, and implementing special response teams. This course is designed to increase officer awareness of mental health disorders and provide effective intervention techniques for handling mental health crisis situations. This training will benefit all levels of public safety, including police officers, corrections officers, probation officers, EMTs and telecommunicators.

(This course is State certified and meets Board guidelines for eight mandated training areas. It is also approved for eight hours credit toward the 32-hour recertification requirement for Lead Homicide Investigators.)

## Topics include:

- History and Background
- National Perspectives
- Types and Symptoms of Mental Illness
- Medications and Co-occurring Disorders
- Treatment for Mental Illness
- Suicide Assessment and Response
- Police Intervention Models
- De-Escalation Strategies
- Violence and Mental Illness

### **with Air Soft© Training**

Station 3 Training Center, Frankfort Fire Protection District  
24420 S. LaGrange Rd. (Rt. 45), Frankfort, IL 60423  
Monday, May 7, 2018  
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):  
Use of Force

**Course Description:** Recent events have placed local, police officers at risk from not only everyday encounters with traffic violators, but also with suspected terrorists and domestic groups intent on killing patrol officers. Vehicle stops are one of the most hazardous duties performed by police officers; no two traffic stops are ever the same. This one day, scenario-based seminar is designed to teach officers the tactical tactics for making traffic stops from positions of advantage and safety.

Officers will learn to recognize and respond to the presence of IEDs in vehicles and on subjects. This block will include both classroom and scenario activities. Officers will review Department of Homeland Security protocols for local department contact with suspected and known terrorists, as well as scene safety and personnel safety protocols. Officers will examine their role as local agencies in the Joint Terrorism Task Force (JTTF) network. The scenarios will include IED mockups and hostage situations

Participants will actively participate as both officers **and** subjects/offenders in the scenarios. Officers will use and encounter handguns and long guns. Role players will also have IEDs, Meth lab equipment, WMDs, and other contraband items. Officers will find clues to possible criminal and terrorist activity. The scenarios are real-time, and can rapidly accelerate, based on the officer's control (or lack of control) of the encounter. **Command Presence** will be emphasized as a tool for safety and maintaining control of subjects during traffic stops.

*This class is a soft air, weapons training course. **Officers need to bring their duty belts and should have their department vehicles (not required) for scenarios. Officers are encouraged to have either sweatshirts or long sleeve shirts available to wear. Face protection and Air Soft© type weapons will be issued at the training site.***

**The Instructors:** The lead instructor is Michael Drumm. All instructors are certified, full-time police officers, and are members of the Illinois Tactical Officers Association and the International Law Enforcement Educators and Trainers Association. Drumm is also a DHS contract instructor.

## Crisis Intervention Team Training (CIT)

### *40-Hour State Certified Course*

Plainfield Fire Protection District (Headquarters)

23748 W. 135th Street; Plainfield, IL 60544

Monday - Friday, May 21 – 25, 2018

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s): Civil Rights | Constitutional & Proper Use of LE Authority | Cultural Competency | Human Rights | Legal Updates | Procedural Justice

**Purpose:** Law enforcement officers are generally the first responders to crisis events. This course is also open to local and county sworn corrections officers. It is important to have individuals in law enforcement who can utilize effective strategies, insuring public and personal safety. The Crisis Intervention Team (CIT) training provides officers with education about mental illness and other behavioral disabilities as well as providing skills and tools for effectively and safely interacting with someone who is experiencing a crisis.

**Course Description:** Crisis Intervention Team training is an in-depth 40-hour specialized course of study for uniformed patrol law enforcement officers and sworn corrections officers who, in addition to their regular service calls, will be required to respond to crisis calls involving people who have behavioral disabilities. CIT officers will use their acquired knowledge and skill to effectively handle crisis situations and make the most appropriate disposition, which will best serve the individual and the community.

The key components of this course cover the following:

- Officers are exposed to the dynamics of mental illness, developmental disabilities, child and adolescent disorders, elderly individuals with behavioral issues, returning combat veterans, people who have excited delirium, and people with substance abuse/co-occurring disorders. This training will allow officers to make quick and effective decisions utilizing options they have to resolve the crisis.
- Officers are exposed to the experiences, viewpoints and concerns of persons with mental illnesses (consumers). Officers will meet with consumers in order to gain their perspective and learn from them.
- Officers receive instruction and demonstrations in basic listening and responding skills along with crisis interventions strategies. Real life crisis scenarios provided by trained professional actors with the assistance of state-certified CIT officers are presented to officers for them to demonstrate their resolution skills.
- **The scenario based training will take place on Thursday, May 24<sup>th</sup>, attendees will be required to wear their "department uniform of the day" for their current assignment.**

**About the Instructors:** The course will be conducted by a diverse group of law enforcement and behavioral health professionals, including active CIT officers from various parts of the State of Illinois. An essential part of the CIT course is scenario-based skills training with crisis scenarios provided by trained professional actors. All scenarios are facilitated and evaluated by certified CIT officers.

This course complies with the guidelines of the following mandate(s): Procedural Justice

Civil Rights | Constitutional & Proper Use of LE Authority | Human Rights | Lead Homicide Investigator | Law Updates

## Course Description:

Police personnel in general and forensic personnel in particular are routinely exposed to situations in which biological materials are present. Death investigations, suicides and sexual assault represent only a few of the instances in which biological and trace evidence needs to be located, documented and collected. Forensic service personnel must be able to do this in an effective yet safe manner. This workshop is designed to help the student do just that.

Easily overlooked, contaminated or destroyed, this session provides the student with the knowledge and skills necessary to locate and preserve fragile biological and trace evidence. Stressed as part of the course material covered, will be procedures to use in the safe handling and storage of biological evidence. Information on the latest DNA technology and how DNA and trace evidence can best be utilized in criminal investigations is also provided.

## Areas of instruction include:

- Safety Precautions and Equipment
- OSHA Bloodborne Pathogen Standard
- STR & Mitochondrial DNA
- Hair, Fiber & GSR Evidence
- Scene Examination Procedure
- Sexual Assault Evidence Procedures
- State Law Requirements
- Visually Locating Stains
