Summary Suspension Hearings and Warnings to Motorist: Sorting It All Out

New Lenox Police Department

Thursday, May 16, 2019

1:00 pm till 4:00 pm

This course complies with the guidelines of the following mandate(s):
Civil Rights | Constitutional & Proper Use of LE Authority | Legal Updates

This course is funded and sponsored by the
Illinois Department of Transportation and the University of Illinois-Springfield

This free course is open to any Law Enforcement Officer and Prosecuting Attorney

PURPOSE OF COURSE: This 3-hour course was created by Jennifer Cifaldi, the Illinois Traffic Safety Resource Prosecutor. This program was developed with the intent of providing law enforcement and prosecutors with the knowledge and skills to successfully use the proper Warnings to Motorists and remove the impaired drivers from our Illinois' roadways. Additionally, they will be provided with a case law update to help them navigate their way through DUI courts.

COURSE OVERVIEW: Every year, impaired drivers cause thousands of traffic deaths and injuries. Prosecutors and law enforcement officers need the skills to be sure that the summary suspensions are not rescinded. This starts with the law enforcement officer being aware of which of the many Warnings to Motorists are appropriate in a given situation.

For the officers: This class will instruct you on the various Warnings to Motorists used for the Illinois implied consent law. The officer will be able to recognize which Warning to read depending on the facts presented. The officers will also know how to assist the Prosecutor in the courtroom with effective testimony during the summary suspension hearings to avoid having the suspension rescinded.

For the Prosecutors: This program will provide you with the tools on how to successfully defend Petitions to Rescind Summary Suspensions. You will walk away from this course with the confidence needed in your case so as not to negotiate the suspension as part of the criminal case. You will have a better understanding of the Warnings that Officers issue and will be well versed in the relevant case law.

This class consists of classroom instruction and the facilitation of discussion amongst participants on which Warnings to use and common attacks that defense attorneys use in Summary Suspension hearings. Additionally, participants will be provided current case law relevant to summary suspensions.

COURSE GOALS: By the end of this course, students will be able to do the following:

- Understand the various Warnings to Motorist and know under what circumstances each Warning should be utilized
- Successfully defend Petitions to Rescind Statutory Summary Suspensions
- Cite the relevant case law
- Be better prepared to testify at Summary Suspension Hearings

Course Description: This is a one day 8-hour class being provided by the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. The class will provide hands on education for recognizing the different types of high/low explosives and their requirements at both the State of Illinois level, as well as the BATFE (Federal) level. In addition to general explosive recognition, the specifics and differences of consumer fireworks (1.4) vs. professional grade fireworks (1.3G) and the laws that pertain to them will be discussed in great detail.

This class is being provided by the IDNR to help educate law enforcement and to provide direct assistance, on scene, when dealing with explosive situations. The IDNR regulates / investigates high and low explosives including 1.1, 1.2, 1.3, and 1.5. Bomb Squads, Explosives Breaching SWAT Teams, and BOMB Dog Handlers already possess the IL Individual Explosives License. The IDNR must be notified immediately upon any recovery of a regulated explosive and/or device to pursue the information necessary for enforcement.

If the Officer and their respective department so desire; after completing the class and passing the exam they can receive an IL IDNR Individual Explosives License, to be used in association with their law enforcement duties. A random monthly bank of test questions will be administered at the end of the class which will consist of 50 questions that will be multiple choice and/or True-False. Each officer receiving the license will fill out an application and must pass the test with an 80% or higher. Officers who do not pass the test will be provided an opportunity to retest in the near future.

➤ **Licensing is recommended but not required to attend.**

There are eight chapters covered in the presentation and each officer will be provided a packet of information from the IDNR consisting of a copy of the IL Explosives Act, the Admin Codes that Apply to the Act, a general explosives safety packet, a packet for note taking as the presentation is given, and a small 4-page packet for officers to keep available as a quick reference guide for explosive identification purposes, while on duty.

Continued on next page:

Key topical areas to be addressed include the following:

- Illinois Explosives Act
- Explosive Storage Requirements-Law Enforcement and Non-Law Enforcement
- Explosives Safety/Recognition/Handling (m-devices, homemade sticks, etc.)
- Fireworks- 1.3G low explosives (professional fireworks) vs 1.4 low explosives
- Enforcement of 1.3G vs. 1.4 and their requirements

Instructor:

The instructor for this class is Nick Sterling who currently is a Specialist/Inspector/Investigator for the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. Mr. Sterling's current territory includes Cook, Lake, McHenry, DuPage, Kane, Kendall, Gundy, and Will Counties. Sterling has been with the Department for four years and inspects/investigates all explosive storage facilities (Law enforcement and Non-Law Enforcement), explosives accidents, explosives incidents, and performs random checks/investigations on both licensed and unlicensed individuals. Sterling has 18 years of high explosives experience and teaches the IL Individual Explosives License Class on a regular basis. Over the past few years Mr. Sterling has noticed a lack of education when law enforcement agencies are dealing with explosives related issues, and hopes to help prevent these issues in the future through education and assistance.

In 2009, she was recognized by the Illinois Legal Aid community as Advocate of the Month.

In 2013, she was recruited by State's Attorney Glasgow to head his Domestic Violence program. The goal of this program is vertical prosecution of all domestic violence cases, which means that the specialized unit follows both misdemeanor and felony domestic violence cases from the charging stage to trial. Monday – Friday; June 10 - 14, 2019
8:00am – 4:00pm

Please note this course is intended for department members whose respective agencies currently have or are in the process of developing a Peer Support Team.

This course complies with the guidelines of the following mandate(s): Human Rights | Procedural Justice

Course Description: This 5 day, 40-hour program has been developed for entry-level participants who have been chosen as peer support team members and is consistent with accepted industry standards, guidelines for peer support as proffered by the International Association of Chiefs of Police, and reviews of other law enforcement programs and peer support as a discipline. Content is heavily influenced by previous experiences in peer support, crisis hotline training, and related behavioral sciences. The overall philosophy is that peer support comes from within the peer support team member, from his or her own experiences, and from the recognition of one's own feelings. This provides the starting point for understanding crisis, stress, suicide, bereavement, crisis communication skills, the model known as Critical Incident Stress Debriefing, boundaries, confidentiality, and other pertinent information to prepare the team member to intervene in a personal crisis and/or critical incident.

Lecture, discussion, personal introspection, sharing and intense role-playing exercises are the methods generally utilized in this training. Critiques from over 500 past participants have supported this training as the definitive starting point for a peer support team member.

Topics to be addressed include:

- What is peer support?
- The Peer Intervention Model
- The Nature of Crisis
- Crisis Communication Skills
- DSM IV & the Relationship with Trauma
- Understanding Suicide
- Cynicism
- Resiliency
- Setting Limits
- Retirement Issues
- Death & Dying

Sovereign Citizen Awareness and Responses for **Law Enforcement**

Frankfort Police Department,
20602 Lincoln-Way Lane, Frankfort, IL 60423

Tuesday; June 11, 2019

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s): Pending

Course Description: It is crucial that U.S. law enforcement is made aware of the dynamics of the threat of sovereign citizens and craft solutions to combat this growing homeland security challenge. The eight-hour, in-service program, Sovereign Citizen Awareness and Responses, addresses this timely topic as noted below.

According to various estimates, there are several hundred thousand sovereign citizen adherents in the United States, a type of anti-government extremists. These individuals believe that the U.S. federal government is illegitimate and that they are "freemen," outside the control of government. Sovereign citizens eschew all affiliations and interactions with the federal government, while giving primacy to the power of the county law enforcement official, the sheriff.

In the past several years, sovereign citizens have increasingly been involved in criminal activities nationwide, including fraud as well as threats and violence against government officials, particularly law enforcement. Among the more prominent examples of sovereign citizen violence against law enforcement are the: 2014 killing of two Las Vegas Police Department officers by Jerad and Amanda Miller, 2012 killing of two sheriff's deputies in Louisiana by a family-linked sovereign citizen cabal, and the 2010 killing of two West Memphis police officers by father-son team Jerry and Joe Kane. These murders are indicative of the types of threats law enforcement faces from sovereign citizens for more than three decades, which arose with the sovereign citizen progenitor, the Posse Comitatus group.

There are disparate indicators that law enforcement should be aware of in relation to sovereign citizens. Among the indicators are: symbols, language (oral/written), fraudulent documents, fictitious organizations, mannerisms, expressions, items (e.g., fake driver's licenses, license plates, social security cards), anti-government signs, fences/barbed wire, and security cameras at property owned by sovereign citizens. Knowledge of these symbols and mechanisms to respond to them can aid law enforcement's efficacy and safety.
