# **Criminal Investigation of Deadly Force and Officer Involved Shootings**

Plainfield Fire Protection District (Headquarters)

23748 W. 135<sup>th</sup> Street; Plainfield, IL 60544

Monday - Wednesday, September 18 - 20, 2017

8:00 am to 4:00 pm (8am to Noon on Wednesday)

This course complies with the guidelines of the following mandate(s) Law Updates  
Civil Rights | Constitutional and Proper Use of Law LE Authority | Use of Force | Lead Homicide

**Course Description:** There is arguably no single event that can traumatize a police agency more than a police officer involved shooting incident. The criticism and intense scrutiny generated by the media, community activists, the general public, and the criminal justice system itself, can be enormous. Civil judgments resulting from such cases can debilitate a police organization for years, have an adverse effect on employee morale, and hamper agency effectiveness through the erosion of public opinion. It is, therefore, imperative that every police department prepare in earnest for this inevitable eventuality. It is also essential that the investigator charged with the task of leading a police officer involved shooting investigation become as equally prepared.

The purpose of this course is to provide attendees with a basic investigative model that is applicable to all officer involved shootings incidents, regardless of the size of their department. Police officer involved shootings are vastly different from any other type of investigation. The stakes for the shooting officer and his department are so high that it is imperative that the investigation be conducted in a prescribed manner. This course will provide those in attendance with the knowledge, skills and confidence necessary to handle any deadly force incident.

This course is intended for those investigators who are specifically assigned to the criminal investigation of officer involved shootings and in-custody deaths. It is also appropriate for those detectives or uniform personnel who may be required to assist in these types of investigations. Crime scene technicians, medical examiner/coroner investigators, supervisors, military investigators, criminal analysts, and prosecuting attorneys would also benefit from the training.

Continued on next page:

Students should be forewarned that the content of this course contains numerous death scene photographs that are highly graphic and intense.

# Tactical Analysis Program

Based on the book ***Left of Bang***

"Tactical Awareness and Threat Recognition"

Frankfort Police Department,

20602 Lincoln Way Lane, Frankfort, IL 60423

Tuesday & Wednesday, October 3 & 4, 2017

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Use of Force | Cultural Competency | Procedural Justice | Civil Rights

**Course Description:** This course will be conducted by Patrick Van Horne (co-author of the acclaimed book ***Left of Bang***), Co-founder and CEO of The CP Journal out of Boulder, Colorado. The CP Journal provides training and professional consultation to the military, law enforcement, and private security industry in behavioral analysis and threat recognition. The course is based on the principals of the Marine Corps' Combat Hunter Program that was developed during the Iraq and Afghanistan wars.

**Training Elements:** Developing the ability to observe, classify, assess and communicate nonverbal behavior empowers our nation's protectors to proactively recognize potential threats before an attack occurs. The observation process taught in this course improves both intuitive decision-making and the deliberate analysis of situations, persons, and environments.

The "Tactical Awareness and Threat Recognition" portion of the course provides instruction in the foundational behavioral observations used to make assessments about individual people. The course is focused on ensuring that students can accurately assign people to each of the four mutually exclusive primary clusters of behavior. Once officers have proven that they can make these observations, articulate the reason for objectively assigning a person to each cluster, and understand the "why" behind the assessments, these behaviors are then put into the context of the "officer ambush" to determine the significance of each behavior in relation to the risks that police officers face.

The "Tactical Sense-making" portion of the course expands on the behaviors taught on the first day to include all four pillars of observable behaviors. Officers learn how to establish an all-encompassing baseline for operational areas using a deliberate, systematic and repeatable process.

## **Topics include:**

- Overview of Officer Ambushes and Terrorist Attacks

While on active duty, he served as a Platoon Commander and Company Executive Officer with Weapons Company, 1st Battalion, Fourth Marines, as well as serving as a Company Commander with 1st Marine Regiment. Through his two deployments to Iraq, he saw first-hand the importance of strong leadership and effective training for the members of our military as they prepare for deployment.

Following his time as a Company Commander, he became the Officer-in-Charge of a Mobile Training Team at the School of Infantry at Camp Pendleton, providing training to deploying Infantry battalions and regiments in the Combat Hunter Program. He graduated from Marist College in 2005 with a B.S. in Business Administration and a Minor in Accounting. ## ***Advanced Roadside Impaired Driving Enforcement***

Frankfort Police Department,  
20602 Lincoln-Way Lane, Frankfort, IL 60423

Thursday & Friday; October 5 & 6, 2017

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):  
Civil Rights | Constitutional & Proper Use of LE Authority | Human Rights | Legal Updates

**Course Description:** The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police (IACP) Technical Advisory Panel (TAP) and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers that have not received advanced or in-service training regarding drug impairment tend to not be able to identify these characteristics; therefore, they will release an impaired driver. Once an officer completes the training he/she will be more proficient with the 3 battery of tests (HGN, WAT, OLS), as well as a broader knowledge of drug impairment indicators. The law enforcement officer will also be more familiar with the DRE program and its function. This will facilitate better communication and transfer of critical roadside indicators of impairment to the evaluating DRE officer for a more complete and accurate assessment of the impairment.

ARIDE is a 16-hour training course taught by DRE instructors or SFST instructors who are also DREs. The training will be conducted under the control and approval of the DEC Program state coordinator. This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem. The following topics are discussed and/or delivered in detail throughout the entire curriculum:

- Update of Standardized Field Sobriety Testing Battery
- How drug impaired driving affects our community
- SFST Proficiency Examination
- Drugs in the human body and the impairing effects they may have
- Seven categories of drugs identified by the DEC Program
- Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement
- Provide an expanded knowledge of prosecuting drug impaired drivers to prosecutors and courts

Much of the classroom training is devoted to hands-on practice.

# **Law Enforcement Media Relations**

Orland Park Police Department  
15100 S. Ravinia Ave., Orland Park IL 60462

Tuesday; November 14, 2017

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Annual Police Chief, Deputy Police Chief and Sheriffs Training

**Course Description:** Not too many law enforcement professionals like the media these days. That's understandable, but not helpful. Engagement with the media is inevitable; victory is only optional. LE professionals and their departments can win with the media; this one-day training program shows you how. You will learn how to deal with reporters in a wide range of circumstances from routine day-to-day inquiries to a full-blown critical incident (we study in-depth the Chicago Police Department's officer-involved LaQuan MacDonald shooting.) This is practical training, not theoretical; what you learn will work for you on the street, right away. Topics include: meeting the 900-pound gorilla; the "DWI" Principle of successful media relations; taking back your share of the First Amendment; "feeding the animals"; don't get stuck on stupid!; controlling the media at incident scenes; managing media relations and public relations when things get ugly; and much, much more. Students learn how to take charge of reporters rather than being victimized by them. Numerous videos illustrate key teaching points, informing and entertaining the class. You will learn valuable strategies and tactics, and you will have fun doing it! The bottom line: this training helps LE professionals become far more comfortable and effective with the media, teaches you useful media skills and controls, and enables you to enjoy better media relations and better public relations.

**Who Should Attend:** This training is not just for PIOs. All law enforcement decision-makers, supervisors, and/or subject-matter experts who expect contact with the media will benefit from this training. This includes police chiefs and deputy chiefs; sheriffs and undersheriffs; captains, lieutenants, sergeants, watch commanders, shift supervisors, on-scene incident commanders and public information officers.

**Instructor:** Rick Rosenthal is a nationally-recognized media relations trainer and consultant. His clients include: The Executive Management programs of the Northwestern University Center for Public Safety (formerly the NU Traffic Institute); the Command Officer Development programs of the Southern Police Institute; and the Executive Management Institute programs of the Federal Law Enforcement Training Center (FLETC). Other agencies trained include: 6 state police organizations (AK, IL, IN, KY, NJ, and WA); 8 state police chiefs associations (FL, IL, GA, ME, OH, OR, PA and WA); 7 state sheriffs associations (CO, IL, NC, OH, OR, WA and WI); the International Association of Chiefs of Police; the National Sheriffs Association; and the US Marshals Service. Rick is on your side, but he teaches from his unique perspective as an award-winning, 30-year veteran TV and radio news anchorman and reporter (22 years on the air in Chicago.) He delivers the inside story on who reporters are, how they'll behave with you and why, and provides you with practical, real-life strategies and tactics, skills and techniques that you can use to win with the media.
