This course complies with the guidelines of the following mandate(s): Use of Force
Legal Updates | Civil Rights | Constitutional & Proper Use of LE Authority

Course Description: Vehicle stops are one of the most hazardous duties performed by police officers; no two traffic stops are ever the same. These hazards compound themselves at night, when unknown threats and risks can be present within reach but hidden by darkness. This eight-hour, scenario-based seminar is designed to teach officers the unique tactical considerations and tactics for making traffic stops from positions of advantage and safety at night.

COURSE GOALS:

- Proper application and use of flashlights
 - Multiple lights, Team techniques
- Learn and practice the "wall of light" theory
- Learn to use different lighting to their advantage
 - Street lights, ambient lights, moving traffic headlights, spot lights, flashlights
- Learn how to use darkness as a cover officer advantage
- Identify the special hazards officers face at night on traffic stops
- Learn techniques for removing and controlling multiple vehicle occupants
- Learn the proper commands for removing occupants from vehicles.
- Recognize Improvised Explosive Devices (IED) and rolling terrorist vehicles and use
- Review techniques for vehicle stop locations and suspect-officer interaction
- Learn how to secure an IED and scene for responder and public safety
- Learn how to contact STIC, JTTF, and DHS for terrorist involved stops
- Recognize physical tells of subjects who may be carrying IEDs

This class is a soft air, weapons training course. Officers need to bring their duty belts and should (not required) have their department vehicles for scenarios. Officers are encouraged to have either sweatshirts or long sleeve shirts available to wear. Face protection and Air Soft® type weapons will be issued at the training site.

The instructors: The lead instructor is Michael Drumm. All instructors are certified, full-time police officers, and are members of the Illinois Tactical Officers Association and the International Law Enforcement Educators and Trainers Association. Drumm is also a DHS contract instructor.

~~The Reid Technique of Interviewing and Interrogation®~~

~~Frankfort Police Department~~

~~20602 Lincoln Way Lane, Frankfort, IL 60423~~

~~Monday - Wednesday, December 2 - 4, 2019~~

~~8:00 am till 3:00 pm~~

This course complies with the guidelines of the following mandate(s):
Civil Rights | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator | Legal Updates

Course Description: This is a 3-day, twenty-one hour program on the Reid Technique of Interviewing and Interrogation®. The course includes; interview and interrogation preparation, behavior symptoms, the Reid® Behavior Analysis Interview (B.A.I.) and "The Reid Nine Steps of Interrogation" which include:

Interview and Interrogation Preparation

The style, appearance and approach of the successful interviewer and interrogator will be covered, as will the room settings conducive to these activities.

Behavior Symptoms

Differences in verbal and nonverbal behavior between innocent and deceptive persons often can be observed, and are thus indicative of whether or not a suspect is telling the truth. A guilty suspect makes a conscious decision to resist your effort to get at the truth. In trying to maintain a structure of verbal lies, however, that suspect most often develops internal conflicts and tensions which manifest themselves in nonverbal behavior. Thus, body movements, facial expressions, eye contact, attitudes, posture and grooming gestures can indicate whether the subject is telling the truth or lying. Nonverbal indicators can also be used to determine whether the suspect under interrogation is listening, maintaining a defiant attitude or is ready to confess. You will learn how to observe and assess critical behavior symptoms and use those assessments to determine whether to move on to the next step of the interrogation.

Reid® Behavioral Analysis Interview (B.A.I.)

The information developed through use of the standard investigative questions of "who," "what," "when" and "how" is often not adequate — even in combination with physical evidence — to identify the wrongdoer. The Reid Behavioral Analysis Interview is a technique that uses a structured set of non-accusatory behavior-provoking questions developed as a result of many thousands of interviews. The B.A.I. makes it easier to determine whether the suspect is telling the truth about involvement in the matter under investigation, and is flexible enough to be used in cases ranging from employee theft to homicide.

The Reid Nine Steps of Interrogation®

The nine-step approach to a successful interrogation has been developed by John E. Reid and Associates through extensive research and practical experience over a period of 60 years. Because of the subject's importance, approximately half the classroom time in the seminar is devoted to the interrogation process and detailed examination of each of the nine steps.

John Reid and Associates will provide the instructor for this class.

John Reid Advanced Interviews & Interrogations

Frankfort Police Department
20602 Lincoln-Way Lane, Frankfort, IL 60423
Thursday; December 5, 2019
8:00 am to 3:00 pm

This course complies with the guidelines of the following mandate(s):
Civil Rights | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator | Legal Updates

Course Description: This course is for individuals who have completed the 3-day seminar on *The Reid Technique of Interviewing and Interrogation*, and builds upon their knowledge of the Reid Technique.

Most unsuccessful interrogations are a result of the investigator's inability to move the guilty suspect from one stage of the interrogation to the other. *Reid* has defined three distinct stages of the interrogation that may give the investigator problems:

1. Defiant stage: seven proven tactics to move suspects out of this stage
2. Neutral stage: four proven techniques to get the suspect to listen to the interrogator's themes
3. Acceptance stage: three specific techniques that will dramatically increase admissions of guilt

People who commit crimes do so to fulfill certain needs. What needs were satisfied is based upon the case facts, evidence and results of the interview — types of needs that will be thoroughly discussed are:

- Real need crimes
- Impulse need crimes
- Esteem need crimes
- Lifestyle need crimes

The Advanced Seminar will also address the following specific problem areas for some but not all interrogations:

- Juvenile interrogations
- Interrogation regarding guilty knowledge
- Playing one suspect against another
- Interrogation on multiple crimes

This course complies with the guidelines of the following mandate(s):
Law Updates | Civil Rights | Constitutional & Proper Use of LE Authority |
Lead Homicide Recertification

Course Description:

This course will inform and update police officers on criminal procedure laws as they pertain to criminal investigations. The instructor, a veteran prosecutor, will examine procedural law, substantive law, case law, and photographic crime scene evidence. Documented case studies will be used to illustrate current legal requirements.

Topics to be discussed:

- Potential Pitfalls for Law Enforcement | Miranda | Terry v. Ohio | Electronic Recording of Interrogations | Search and Seizure | Fourth Amendment | Polygraphs and Voice Stress Analyzers | Right to Privacy | Police Surveillance | Law Regarding Personal Electronic Devices | Fifth Amendment | Identification Procedures | Body Cameras | The Police Community Improvement Act | Homicide & Questionable Death Protocols | Supreme Court Rule 3.6

Instructor: Jeffrey J. Pavletic is an award-winning trial attorney who has built a reputation of integrity and exceptional skill in the courtroom. As a prosecutor for the past two decades, he has tried countless cases to victory (including approximately 150 jury trials with a concentration in homicide and violent crime). In addition to trying some of the highest profile and complex cases that have occurred in the history of Northern Illinois, Jeff was Chief of the Felony Review Division, and is currently the First Assistant State's Attorney for the Lake County (Illinois) State's Attorney's Office. Jeff served as Special Counsel to the U.S. House of Representatives Judiciary Committee in the impeachment of President Clinton. His duties included all aspects of independent counsel review, the impeachment inquiry, presentation of articles of impeachment to the U.S. House of Representatives, all witness interviews and depositions of trial witnesses, and the actual impeachment trial before the U.S. Senate. Jeff has received numerous federal, state, and local awards. These include Illinois State Crime Commission's State's Attorney of the Year, Felony Trial Attorney of the Year, The Fred L. Foreman Criminal Justice Award, The Ruth Rosengarden Victim Service provider Award, and a special U.S. House of Representatives Award presented by Congressman Henry Hyde. Jeff has been featured on 20/20, The Today Show, Good Morning America, Court TV, and the Discovery Channel. Jeff is a published author and a well-respected legal instructor who holds undergraduate and graduate faculty positions and has received accolades as a nationally renowned lecturer, training thousands of police officers, lawyers, prosecutors, and judges.

This course will also cover the pharmacological differences between drug effects and alcohol effects on the body.

- ***This course utilizes live dosed individuals as opposed to videos, which greatly enhances the training.***

Course Description: The purpose of this course is to increase deterrence of DWI violations, and thereby reduce the number of crashes, deaths and injuries caused by impaired drivers. As a result of this training, participants will become significantly better able to:

- Understand enforcement's role in general DWI deterrence.
- Understand detection phases, clues and techniques.
- Understand requirements for organizing and presenting testimonial and documentary evidence in DWI cases.
- Recognize and interpret evidence of DWI violations.
- Administer and interpret Standardized Field Sobriety Tests.
- Describe DWI evidence clearly and convincingly in written reports and verbal testimony.
- Understand the tasks and decisions of DWI detection.
- Know and recognize typical vehicle maneuvers and human indicators symptomatic of DWI associated with initial observations.
- Know and recognize typical reinforcing maneuvers and indicators that come to light during the stopping sequence.
- Know and recognize typical sensory and other clues of alcohol and/or other drug impairment that may be seen during face-to-face contact with DWI suspects.
- Know and recognize typical behavioral clues of alcohol and/or other drug impairment that may be seen during the suspect's exit from the vehicle.
- Understand the role and relevance of psychophysical testing in pre-arrest screening of DWI suspects.
- Know and carry out appropriate administrative procedures for validated divided attention psychophysical tests.
- Know and carry out appropriate administrative procedures for the Horizontal Gaze Nystagmus test.
- Know and recognize typical clues of alcohol and/or other drug impairment that may be seen during administration of the Standardized Field Sobriety Tests.

Instructors: The instructors for this class will be Lt. Dave Schurr (Ret.) of the Bolingbrook Police Department and Sgt. Steve Sigler of the Illinois State Police.

Content includes the use of IVC violations for probable cause stops, bail bond procedures for multiple offense and out-of-state violators, and equipment and safety and enforcement issues.

Attendees will participate in table-top exercises in the morning and afternoon sessions. These exercises will help officers understand the subtle differences in the subsections of offenses (e.g.: turning, U turns, sign violations). Attendees will also examine the differences between business, petty, and serious IVC offenses. Attendees will:

- Learn the application of the "hands free" electronic communication device law
 - what is allowed while holding the device (speed dialing, etc)
- Review
 - New laws
 - Changes to existing laws
- Review current violations from commonly used IVC chapters
- Cover the new bond procedure for petty traffic offenses effective 01/01/2015
- Learn how to recognize vehicles which are *hazardous dilapidated motor vehicles*
 - when a vehicle can be towed by law enforcement from private property
- DUI enforcement laws
 - BAID
 - MDDP
 - Felony violations
- Review less commonly used, probable cause-based sections
- Learn proper application of IVC registration sections to out-of-state violators
- Review current court case law affecting application of the IVC

Continued on next page:

- Learn proper application and use of IVC sections for similar offenses
 - e.g.: charging too fast for conditions instead of speeding
- Review towing statutes and court rulings about vehicle towing
- Learn graduated license enforcement
- Review child safety seat enforcement

This course is appropriate for patrol and traffic enforcement officers (local, county, state), and their supervisors.

Instructor: H. Michael Drumm, D.P.A, will conduct the course. Dr. Drumm is president of Drumm & Associates, Ltd. He has more than 37 years of IVC enforcement experience, and is currently a member of the Monee Police Department. Drumm is an ITOA and ILEETA member, and is certified as an instructor with the Illinois Law Enforcement Training and Standards Board. 8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s): Civil Rights | Constitutional & Proper Use of LE Authority | Legal Updates | Procedural Justice

Course Description: This four-day hands-on, problem-based learning course is specifically designed for first-line patrol and administrative support services managers responsible for supervising and managing Field Training Officers and probationary law enforcement employees. Instruction will include all revisions to the Process.

The course emphasizes the necessary components of supervising probationers and Field Training Officers at the patrol shift level to ensure that administrative guidelines and legal requirements are met. The course highlights two essential supervisory responsibilities: (1) the ability to comprehensively examine probationer performance documentation in accordance with the **totally revised** standardized Field Training and Evaluation Process assessment guidelines, and (2) auditing the probationer's on-the-job training to insure the Field Training Unit utilizes the most appropriate instructional techniques for training task mastery and when necessary, corrective action. The instructional presentation will focus upon discussion of critical Field Training issues as well as hands on completion of the course materials during small group and individual in-class exercises. Students are required to complete out-of-classroom reading assignments.

Course content will include:

- Insuring that your Agency's Field Training and Evaluation Process structure actually *works*.
- In-class review and assessment of participating agency *Probationer's Training and Evaluation Manual* (POM).
- Staffing the Field Training Unit: Recruitment, Testing, Selection and Training of FTOs.
- Realistic definition and expectations of Field Training Officer duties/responsibilities.
- Issues of compensation for Field Training Unit personnel.
- FTO scheduling issues/resource allocation.
- Utilizing the non-numerically anchored performance assessment scale and guidelines including 2009 revisions.
- Performance assessment errors that compromise the objectivity and legality of Field Training.
- Auditing the *Daily Observation Report*: Application of the standardized evaluation guidelines.
- Auditing the FTO's application of the on-shift instructional techniques.
- Auditing Probationer training and coaching documentation. Are the FTOs doing what they were trained to do?
- Conducting the *Weekly Performance Summary* process meeting.
- Special focus: **Not Responding to Training** (NRT) Probationer and extension of training

Continued on next page:

[Back to Index](#)

- Supervising the development of the NRT Probationer's *Performance Improvement Plan*.
- Supervising Probationers during Step V, the Solo Patrol Certification Period.
- Reorientation of personnel returning to Patrol Operations after extended street-absence.
- Preparing Probationer Employment Status Reports/Recommendation for the Chief Executive.
- Assessing the effectiveness of the Field Training Officers and the Field Training Process.
- Avoiding *constructive discharge* allegations
- Defending against State and Federal Court wrongful discharge claims.

Students should bring a copy of their Agency's current Field Training and Evaluation Process manual and forms.

Orland Park Police Department
15100 S. Ravinia Ave., Orland Park IL 60462
Thursday, January 23, 2020
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Law Update | Civil Rights | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator

Course Description: Each year, law enforcement officers are injured, killed, or indicted as a result of improper searches. This eight hour presentation will provide an in-depth analysis of fatal searching mistakes that are frequently acknowledged but seldom addressed. This class has been specifically developed for male AND female patrol officers of all experience levels. However, any personnel responsible for conducting body searches on subjects, whether on the street or in lock-up, will benefit from attending. Unique circumstances surrounding the proper searching of females by officers of the same or opposite sex will be examined in detail. Students will gain insight and be provided the opportunity to exchange ideas and helpful tips that can be put to use immediately.

Topics to be addressed include the following:

- * Proper search methods * Common search mistakes * Same sex searches
- * Opposite sex searches * Strip searches * Policy and procedure
- * Legal doctrine pertaining to different types of searches, including strip searches

Students will participate in practical search exercises as part of this class and are asked to bring a copy of their current policy regarding searches/lock-up procedures to class.

Instructor:

The instructor for this course is Sgt. Julie Johnson of the Carol Stream Police Department, where she has served for 17 years. Prior to joining the CSPD in 1997, she was a dispatcher/telecommunicator for the Woodridge Police Department for three years. Crisis Intervention Team Training (CIT)

Orland Park Police Department
15100 S. Ravinia Ave., Orland Park IL 60462
Monday – Friday; February 10 - 14, 2020
8:00 am till 4:00 pm

Please note: Officers are required to have 2 years of service in a non-probationary status before he/she may attend this class.

This course complies with the guidelines of the following mandate(s): Civil Rights | Constitutional & Proper Use of LE Authority | Cultural Competency | Human Rights | Legal Updates | Procedural Justice | Mental Health Awareness

Purpose: Law enforcement officers are generally the first responders to crisis events. This course is also open to local and county sworn corrections officers. It is important to have individuals in law enforcement who can utilize effective strategies, insuring public and personal safety. The Crisis Intervention Team (CIT) training provides officers with education about mental illness and other behavioral disabilities as well as providing skills and tools for effectively and safely interacting with someone who is experiencing a crisis.

Course Description: Crisis Intervention Team training is an in-depth 40-hour specialized course of study for uniformed patrol law enforcement officers and sworn corrections officers who, in addition to their regular service calls, will be required to respond to crisis calls involving people who have behavioral disabilities. CIT officers will use their acquired knowledge and skill to effectively handle crisis situations and make the most appropriate disposition, which will best serve the individual and the community. Course is certified by the *Illinois Law Enforcement Training and Standards Board*.

The key components of this course cover the following:

- Officers are exposed to the dynamics of mental illness, developmental disabilities, child and adolescent disorders, elderly individuals with behavioral issues, returning combat veterans, people who have excited delirium, and people with substance abuse/co-occurring disorders. This training will allow officers to make quick and effective decisions utilizing options they have to resolve the crisis.
- Officers are exposed to the experiences, viewpoints and concerns of persons with mental illnesses (consumers). Officers will meet with consumers in order to gain their perspective and learn from them.
- Officers receive instruction and demonstrations in basic listening and responding skills along with crisis interventions strategies. Real life crisis scenarios provided by trained professional actors with the assistance of state-certified CIT officers are presented to officers for them to demonstrate their resolution skills.
- **The scenario-based training will take place on Thursday and attendees will be required to wear their “department uniform of the day” for their current assignment.**

About the Instructors: The course will be conducted by a diverse group of law enforcement and behavioral health professionals, including active CIT officers from various parts of the State of Illinois. An essential part of the CIT course is scenario-based skills training with crisis scenarios provided by trained professional actors. All scenarios are facilitated and evaluated by certified CIT officers.

This course complies with the guidelines of the following mandate(s):

Civil Rights | Constitutional & Proper Use of LE Authority | Cultural Competency | Human Rights | Legal Updates |
Procedural Justice

Course Description: The *First-Line Supervision* course prepares first-line supervisors for a successful transition from officer to supervisor, and provides professional development to current supervisors who have had little or no formal training to lead officers. The course provides the fundamentals of leadership and followership to enable students to become more effective in their roles, and provide an educational foundation for life-long learning and professional development.

The **one-week course** is designed to teach supervisors how to overcome contemporary leadership challenges and focuses on understanding human behavior and day-to-day work relationships with subordinates, superiors and the public. As emerging leaders navigating today's changing law enforcement environment, *First-Line Supervision* students learn how to effectively motivate, evaluate and discipline employees in order to successfully carry out the visions of their law enforcement agencies.

Who Should Attend:

First-Line Supervision is an absolute must for all new supervisors or soon-to-be-promoted officers. Experienced supervisors are encouraged to attend to improve their leadership and supervisory effectiveness and continue developing in the law enforcement profession.

Course Content:

- The personal profile system: DiSC instrument
- Key elements of dynamic leadership
- Communication
- Supervising Diversity
- Motivational principles
- Performance Management
- Planning and decision making
- The disciplinary process
- Ethics, professionalism and community image
- Risk Management

375 Briarcliff Rd., Bolingbrook, IL 60440

Monday thru Friday, March 2 – 6, 2020

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s): Civil Rights | Law Updates | Use of Force
Cultural Competency | Procedural Justice | Human Rights | Constitutional and Proper Use of L.E. Authority

Course Description: This five-day, 40-hour training program is intended to be a practical, informational and hands on program. The purpose of the course is to give law enforcement personnel the knowledge and skills they need to train other law enforcement personnel on a one-to-one basis. A diverse use of instructional methods will be employed to provide a student-centered learning environment. Upon successful completion of this program will have basic knowledge in a variety of topics including adult learning, coaching, and the design of a typical FTO program.

Course topics include:

- The police image
- The Field Trainer's role and responsibility
- Principles of adult learning and coaching
- Methods of providing effective feedback
- Overriding the probationary officer's decisions
- Sexual harassment/hostile working environment
- The evaluation process
- Job status review and recommendation
- Probationary officer training manuals

NOTE: Participants must bring a laptop computer or tablet capable of connecting to the Internet. The participant's e-device must have a PDF reader (Adobe Reader Recommended). All course materials are provided through Google Drive. If you have any I/T questions please contact the instructor at (847) 644-6437

Crash Investigation 1

Frankfort Police Department
20602 Lincoln-Way Lane, Frankfort, IL 60423
Monday- Friday, March 2 – 13, 2020
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Law Updates | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator

Course Description: In most jurisdictions, traffic crashes account for more lives lost, more injuries and more property damage than all criminal activity combined. To effectively implement crash prevention programs and improve quality of life, law enforcement agencies need to know the who, what, where, when and why of crash occurrence.

The moments immediately following a traffic crash are crucial, and only a well-trained crash investigator knows how to identify and collect the necessary information at the crash scene and to begin the interpretation of that evidence.

Crash investigators must work quickly and confidently to preserve significant physical results before the crash scene is altered or evidence disappears. They must anticipate what information will be needed for enforcing traffic laws, planning crash prevention programs and possible case litigation. In addition, they must properly document the at-scene information and evidence because once the scene is cleared, the evidence might be impossible to recover.

Crash Investigation 1, based on J. Stannard Baker's world-renowned text, Traffic Crash Investigation, is an in-depth study of the skills needed to systematically investigate a traffic crash. Techniques for recognizing and properly recording roadway and vehicle crash evidence are thoroughly presented. Students learn to take measurements and photographs of the crash scene and to create sketches and after-crash diagrams. Crash Investigation 1 also addresses how the collected data are used to reconstruct crashes. Finally, the use of electronic devices to collect and record at-scene data is also introduced.

Course Topics:

- Preparation for traffic crash investigation
- Information from and about people
- Information from vehicles
- Information from roads
- Measuring and mapping the crash scene
- Photographing the crash scene and damaged vehicles
- For this updated program, students will develop a new case study. Photographs and exhibits have been updated, and classroom instruction now includes how the latest generation of vehicle electronics - including data recorders, traction and stability controls, multiple airbags, etc. - affect both the crash and the crash investigation

Course Materials: All students need to bring a laptop computer or other device with a USB port to the class. Student reference materials will be distributed in USB flash drives (files will accept electronic comments and highlighting and can be saved).

In all cases, please bring the following additional items to class:

- Comfortable outdoor clothing (likely to get dirty) for Week 2 outdoor projects
- Simple calculator with square root key
- Mechanical Pencils
- Staedtler Geometry Compass
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed.
- Students may use calculators and electronic communication devices in class; however, possession/use of electronic communication devices during closed-book quizzes and exams is prohibited.

Course Outcomes: Officers/investigators who successfully complete Crash Investigation 1 significantly improve their ability to handle all aspects of the majority of traffic crash investigations occurring within their jurisdictions.

Participants who successfully complete Crash Investigation 1 or its equivalent are eligible to enroll in Tri-River's and NUCPS's next crash investigation course, Crash Investigation 2.

Instructor (s): Course instructor(s) are provided by *NUCPS*.

Advanced Roadside Impaired Driving Enforcement

New Lenox Police Department
200 Veterans Parkway, New Lenox, IL. 60451
Monday & Tuesday; March 24 & 25, 2020
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):
Civil Rights | Constitutional & Proper Use of LE Authority | Human Rights | Legal Updates

Course Description: The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police (IACP) Technical Advisory Panel (TAP) and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers that have not received advanced or in-service training regarding drug impairment tend to not be able to identify these characteristics; therefore, they will release an impaired driver. Once an officer completes the training he/she will be more proficient with the 3 battery of tests (HGN, WAT, OLS), as well as a broader knowledge of drug impairment indicators. The law enforcement officer will also be more familiar with the DRE program and its function. This will facilitate better communication and transfer of critical roadside indicators of impairment to the evaluating DRE officer for a more complete and accurate assessment of the impairment.

ARIDE is a 16-hour training course taught by DRE instructors or SFST instructors who are also DREs. The training will be conducted under the control and approval of the DEC Program state coordinator. This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem. The following topics are discussed and/or delivered in detail throughout the entire curriculum:

- Update of Standardized Field Sobriety Testing Battery
- How drug impaired driving affects our community
- SFST Proficiency Examination
- Drugs in the human body and the impairing effects they may have
- Seven categories of drugs identified by the DEC Program
- Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement
- Provide an expanded knowledge of prosecuting drug impaired drivers to prosecutors and courts

Much of the classroom training is devoted to hands-on practice.

Instructor: Tony Lebron (Retired M/Sgt; Illinois State Police) will be the lead instructor.

Breath Alcohol Testing

16-hour Breath Analysis Instrument Operator Course

Monee Police Department,
5356 W. Main Street, Monee, IL 60449
Wednesday & Thursday; April 8-9, 2020
8:00 am till 5:00 pm

This course complies with the guidelines of the following mandate(s):
Law Update

Course Description:

Officers completing this program will be certified as Illinois Breath Analysis Operators by the Illinois State Police. This sixteen-hour course is also certified by the Illinois Law Enforcement Training and Standards Board.

Some of the topics that will be discussed are as follows:

- Operation and function of the breath testing equipment approved for use in Illinois
- Detailed discussions on drinking driver enforcement
- Laboratory training in the use of equipment
- Pharmacological effects of alcohol
- Legal matters relating to drinking driver enforcement (including implied consent and case presentation for court)

Successful completion and attendance of the course including passing the exam is required to be a state certified Breath Alcohol Operator (BAO).

Instructors: The Illinois State Police Academy will be providing instructors for this course.

Crash Investigation 2

Frankfort Police Department
20602 Lincoln-Way Lane, Frankfort, IL 60423
Monday- Friday, May 11 – 22, 2020
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Law Updates | Constitutional & Proper Use of LE Authority | Lead Homicide Investigator

Course Description: At scene traffic crash data collection is useful only if all appropriate information is collected and properly interpreted and analyzed. Participation in Crash Investigation 2 enhances the capability and credibility of the at-scene investigator.

Crash Investigation 2, based on the 2014 edition of J. Stannard Baker's world-renowned textbook Traffic Crash Investigation, emphasizes vehicle behavior in crashes, vehicle damage analysis and more advanced mapping and evidence location skills.

Crash Investigation 2 builds upon topics examined in Crash Investigation 1 and provides the student/investigator with greater knowledge of the information available at the crash scene and how to properly collect and initiate interpretation of that information.

The course also provides instruction in the use of laser-based measurement devices to measure crash scenes and the evidence found there. Laser Technology, Inc. units are used for these demonstrations. Downloading the electronic information into mapping programs is also covered.

Course Topics:

- Vehicle damage analysis - description, reporting and determination of direction of forces
- Vehicle behavior in crashes
- Results of the crash on the road - identifying and interpreting tire marks and road scars
- Lamp filament analysis - determining whether headlamps, tail lights and turn signals were on or off at moment of impact
- Tire damage analysis - role of tire failure
- Measurement methods - perspective grid, photogrammetry, measurement techniques, diagram drawing and systematic methods for organizing and illustrating data
- Interpretation of data - use of all information obtained through investigation
- Specialized data gathering - measuring devices and other testing
- Laser-based measurement and use of mapping software
- In addition to addressing how the latest generation of vehicle electronics - including data recorders, traction and stability controls, multiple airbags - affect both the crash and the crash investigation, specific new topics include:
 - hit-and-run investigations,
 - dealing with event data recorders
 - technical report writing and other emerging technologies

- Comfortable outdoor clothing (likely to get dirty) for Week 2 outdoor projects
- Small pair of scissors
- Simple calculator with square root key
- Staedtler Geometry Compass
- Mechanical Pencils
- Triangles 45-45-90 and 30-60-90
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed
- **Traffic Crash Investigation, 11th Edition – All Crash Investigation 1 students receive a copy of the text. If necessary, a copy may be purchased online at nucps.northwestern.edu/crashbooks.**
- Students may use calculators and electronic communication devices in class; however, possession/use of electronic communication devices during closed-book quizzes and exams is prohibited.

Who Should Attend:

- Crash Investigation 2 is designed for those who analyze data collected by other crash investigators and who gather and analyze supplementary data.
- Crash Investigation 2 participants must have successfully completed NUCPS's Crash Investigation 1 or its equivalent

Course Outcomes: Officers/investigators who successfully complete Crash Investigation 2 develop skills in technically preparing crash investigation data and collecting follow-up data required by prosecutors, defense attorneys, claim adjusters, fleet supervisors, reconstructionists and highway safety engineers.

Instructor (s): Course instructor(s) are provided by *NUCPS*.
