Tuesday, March 15, 2016

8:00 am till 4:00 pm

Course Description: Forfeitures can be a valuable tool to law enforcement in the following areas: improving public safety by forfeiting the DUI and suspended driver's car, taking away expensive vehicles and other assets from drug dealers, seizing bank accounts of criminals who commit check/credit card fraud and other financial crimes, forfeiting real property paid for with proceeds of mortgage fraud or any other crime where money is derived.

This course will provide law enforcement officers an understanding of forfeiture law in Illinois and how to successfully incorporate the forfeiture component into criminal investigations and prosecutions. After reviewing applicable statutes, the course will cover practical implementation of those statutes through real world examples. Additionally, techniques for locating assets and building financial cases will be discussed. This course will be useful for patrol officers; officers in specialized units such as narcotics, gangs or financial crimes; command staff; and agency policymakers. For those individuals who have already attended a forfeiture training, this course will broaden your ability to implement forfeiture law into your investigations and capture previously untouched assets of criminal enterprises.

Some of the topics include:

The Reid Technique of Interviewing and Interrogation®

New Lenox Police Department

200 Veterans Parkway, New Lenox, IL 60451

Monday, Tuesday & Wednesday, March 21, 22 & 23, 2016

8:00 am till 3:00 pm

The subject matter of this course falls within the key training guidelines for the in-service training requirements for Lead Homicide Investigator.

Course Description: This is a twenty-one hour program on the Reid Technique of Interviewing and Interrogation®. The course includes; interview and interrogation preparation, behavior symptoms, the Reid® Behavior Analysis Interview (B.A.I.) and "The Reid Nine Steps of Interrogation" which include:

Interview and Interrogation Preparation

The style, appearance and approach of the successful interviewer and interrogator will be covered, as will the room settings conducive to these activities.

Behavior Symptoms

Differences in verbal and nonverbal behavior between innocent and deceptive persons often can be observed, and are thus indicative of whether or not a suspect is telling the truth. A guilty suspect makes a conscious decision to resist your effort to get at the truth. In trying to maintain a structure of verbal lies, however, that suspect most often develops internal conflicts and tensions which manifest themselves in nonverbal behavior. Thus, body movements, facial expressions, eye contact, attitudes, posture and grooming gestures can indicate whether the subject is telling the truth or lying. Nonverbal indicators can also be used to determine whether the suspect under interrogation is listening, maintaining a defiant attitude or is ready to confess.

Reid®" Behavioral Analysis Interview "(B.A.I.)

The information developed through use of the standard investigative questions of "who," "what," "when" and "how" is often not adequate — even in combination with physical evidence — to identify the wrongdoer. The Reid Behavioral Analysis Interview is a technique that uses a structured set of non-accusatory behavior-provoking questions developed as a result of many thousands of interviews. The B.A.I. makes it easier to determine whether the suspect is telling the truth about involvement in the matter under investigation, and is flexible enough to be used in cases ranging from employee theft to homicide.

The Reid Nine Steps of Interrogation®

The nine step approach to a successful interrogation has been developed by John E. Reid and Associates through extensive research and practical experience over a period of 60 years. Because of the subject's importance, approximately half the classroom time in the seminar is devoted to the interrogation process and detailed examination of each of the nine steps.

John Reid and Associates will provide the instructor for this class.

John Reid Advanced Interviews & Interrogations

New Lenox Police Department
200 Veterans Parkway, New Lenox, IL 60451

Thursday, March 24, 2016

8:00 am to 3:00 pm

The subject matter of this course falls within the key training guidelines for the in-service training requirements for Lead Homicide Investigator.

Course Description: This course is for individuals who have completed the 3-day seminar on *The Reid Technique of Interviewing and Interrogation*, and builds upon their knowledge of the Reid Technique.

Most unsuccessful interrogations are a result of the investigator's inability to move the guilty suspect from one stage of the interrogation to the other. *Reid* has defined three distinct stages of the interrogation that may give the investigator problems:

1. Defiant stage: seven proven tactics to move suspects out of this stage
2. Neutral stage: four proven techniques to get the suspect to listen to the interrogator's themes
3. Acceptance stage: three specific techniques that will dramatically increase admissions of guilt

People who commit crimes do so to fulfill certain needs. What needs were satisfied is based upon the case facts, evidence and results of the interview — types of needs that will be thoroughly discussed are:

- Real need crimes
- Impulse need crimes
- Esteem need crimes
- Lifestyle need crimes

The Advanced Seminar will also address the following specific problem areas for some but not all interrogations:

- Juvenile interrogations
- Interrogation regarding guilty knowledge
- Playing one suspect against another
- Interrogation on multiple crimes

Course Instructor: This course will be taught by Instructors with John E. Reid and Associates, Inc.

Member Tuition: \$50.00

Non-Member Tuition: \$125.00
