Crash Investigation 1

Frankfort Police Department

20602 Lincoln-Way Lane, Frankfort, IL 60423

Monday- Friday, January 31 – February 11, 2022

8:00 am till 4:00 pm

This course complies with the guidelines of the following
mandate(s):

- | | |
|------------------------------|---------------------------------------|
| • Civil Rights | 3.0 Hours (1.0 Hour Scenario-Based) |
| • Const. Use of LE Authority | 4.0 Hours (4.0 Hours Scenario-Based) |
| • Legal Updates | 3.0 Hours (1.0 Hour Scenario-Based) |
| • Procedural Justice | 3.0 Hours |
| • Lead Homicide Investigator | 80.0 Hours (8.0 Hours Scenario-Based) |

Course Description: In most jurisdictions, traffic crashes account for more lives lost, more injuries and more property damage than all criminal activity combined. To effectively implement crash prevention programs and improve quality of life, law enforcement agencies need to know the who, what, where, when and why of crash occurrence.

The moments immediately following a traffic crash are crucial, and only a well-trained crash investigator knows how to identify and collect the necessary information at the crash scene and to begin the interpretation of that evidence.

Crash investigators must work quickly and confidently to preserve significant physical results before the crash scene is altered or evidence disappears. They must anticipate what information will be needed for enforcing traffic laws, planning crash prevention programs and possible case litigation. In addition, they must properly document the at-scene information and evidence because once the scene is cleared, the evidence might be impossible to recover.

Crash Investigation 1, based on J. Stannard Baker's world-renowned text, Traffic Crash Investigation, is an in-depth study of the skills needed to systematically investigate a traffic crash. Techniques for recognizing and properly recording roadway and vehicle crash evidence are thoroughly presented. Students learn to take measurements and photographs of the crash scene and to create sketches and after-crash diagrams. Crash Investigation 1 also addresses how the collected data are used to reconstruct crashes. Finally, the use of electronic devices to collect and record at-scene data is also introduced.

Course Topics:

- Preparation for traffic crash investigation
- Information from and about people
- Information from vehicles
- Information from roads
- Measuring and mapping the crash scene
- Photographing the crash scene and damaged vehicles

For this updated program, students will develop a new case study. Photographs and exhibits have

been updated, and classroom instruction now includes how the latest generation of vehicle electronics - including data recorders, traction and stability controls, multiple airbags, etc. - affect both the crash and the crash investigation

Course Materials: All students need to bring a laptop computer or other device with a USB port to the class. Student reference materials will be distributed in USB flash drives (files will accept electronic comments and highlighting and can be saved).

In all cases, please bring the following additional items to class:

- Comfortable outdoor clothing (likely to get dirty) for Week 2 outdoor projects
- Simple calculator with square root key
- Mechanical Pencils
- Staedtler Geometry Compass
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed.
- Students may use calculators and electronic communication devices in class; however, possession/use of electronic communication devices during closed-book quizzes and exams is prohibited.

Course Outcomes: Officers/investigators who successfully complete Crash Investigation 1 significantly improve their ability to handle all aspects of the majority of traffic crash investigations occurring within their jurisdictions.

Participants who successfully complete Crash Investigation 1 or its equivalent are eligible to enroll in Tri-River's and NUCPS's next crash investigation course, Crash Investigation 2.

Instructor (s): Course instructor(s) are provided by *NUCPS*.

| • Civil Rights | 4.0 Hours |
| • Const. Use of LE Authority | 8.0 Hours |
| • Procedural Justice | 4.0 Hours |
| • Lead Homicide Investigator | 16.0 Hours |

Course Description:

This *two-day* course will provide the investigator with strategies to vigorously target, investigate, interview/interrogate, prosecute and prevent resurgence of criminal street gangs. The program will equip the investigator with the knowledge and tools to “attack” organized gangs by using a multi-agency, multi-jurisdictional approach. The concepts taught in this course have been used to effectively dismantle gangs and take back communities.

Topics Include:

- Understanding today’s gang alliances and their growing social network
- Gangs in schools
- Effective street interviewing
- Conducting gang investigations-graffiti to homicide
- Being successful in the interview-getting confessions
- Strategize your follow up *attack-eradication* strategies

Instructor: Domenic Cappelluti CFI was a veteran street cop with the Waukegan (Illinois) Police Department and former Group Supervisor of the elite Lake County Major Crime Task Force (Illinois). With over 25 years of experience Domenic has specialized in high profile violent street crimes, to include homicides, murder for hire cases on gang and drug officers, and officer involved shootings. During his career, Domenic has worked in patrol, and avidly supervised the Criminal Investigations Division and the Gang Suppression Unit. Domenic has proudly conducted and directed hundreds of gang and drug related operations throughout his County and the Chicago metropolitan area targeting Chicago based street gangs

- WZ Non-Confrontational Method
- Showing Empathy
- Understanding Resistance
- Developing the Admission
- Obtain the Statement

Instructor: Lou Tessman, CFI® retired as Deputy Chief of Waukegan, IL. Police Department. Lou is a 26-year veteran of the U.S. Marines, retiring as a CWO-4. In addition to his service in Vietnam, he was activated for Desert Storm and Desert Shield and has received numerous awards including the Naval Commendation Medal. While with Waukegan, he worked in the detective bureau for nine years and as a juvenile officer for one year. Lou also served as Commander of the elite Lake County Major Task Force. During his career, he has conducted thousands of interviews and interrogations. Most noteworthy, Lou has obtained over 80 homicide confessions during his career with only three instances where he was unable to obtain a confession from the homicide suspect. Lou has been a guest speaker on the Discovery Channel, Real detective, and America's Most Wanted. Lou's work was most recently featured in a Dateline NBC story about convicted child molester Arthur Riam.

Wicklander-Zulawski Advanced Criminal Interview and Interrogation Techniques

Frankfort Police Department

20602 Lincoln-Way Lane, Frankfort, IL 60423

Thursday – Friday; February 17-18, 2022

8:00 am till 5:00 pm

This course complies with the guidelines of the following mandate(s): PENDING

Course Description: This 2-day Seminar on Advanced Criminal Interview & Interrogation Techniques is designed to enhance the interviewing process for law enforcement personnel tasked with the investigation of domestic or foreign terrorism and terrorist-related activities. Criminal activities traditionally investigated by law enforcement may have provided cover and funding for terrorist organizations in the United States and abroad. Participants will obtain training in the latest, cutting-edge methods and tools to conduct more effective interviews and interrogations in their terrorism-related investigations resulting in more actionable intelligence, quicker admissions and better statements. This workshop utilizes practical exercise, using underlying psychological principals to improve communication and interviewing skills for a more focused and successful investigation of terrorist activities.

A non-confrontational approach to interviewing has been recognized for the way it produces faster and more accurate results. In many cases, admissions are achieved without the suspect ever making a denial or protesting their innocence.

Course Topics, Discussions and Objectives:

- Causes Of Denials
- Causes of False Confessions
- Dealing with Difficult Subjects
- Selecting Non-Confrontational Methods
- Development of the Admission

PENDING

Course Description: The "Cannabis Regulation and Tax Act" as described in "Amendment to HB 1438", was signed into law by Governor Pritzker on June 25th, 2019. This legislation permits the cultivation, selling, and the adult use of cannabis, beginning January 1, 2020. The implementation of this legislation will have a tremendous effect on all aspects of law enforcement. The most profound impact will be on traffic safety. Illinois officers need to be trained to understand the legislation and to take appropriate action when required.

Upon Completion of this training officers will be able to:

- Describe business organization which may cultivate and sell cannabis
- Describe the entities associated with transporting, testing and education
- Define the state agencies associated with regulating the cannabis industry
- Distinguish the laws governing medical cannabis and the adult user
- Describe the possession limits for Illinois residents and non-residents
- Describe who is banned from the medical program
- Define the Opioid Alternative Pilot Program
- Define Medical Cannabis Provisional Patients
- Summarize scientific research related to driving and cannabis usage
- Recognize signs and symptoms associated with cannabis usage
- Describe research regarding the effectiveness of field tests
- Describe the two Implied Consent provision associated with the legislation
- Describe the limitations of chemical testing

Course Goals: At the end of this eight-hour block of instruction officers will have:

1. An understanding of the new cannabis laws as it relates to the cannabis industry;
2. The knowledge to identify violations of the cannabis laws;
3. The knowledge to observe, identify and articulate cannabis usage;
4. An understanding of the two DUI violations which may occur.

Instructor: Tony Lebron (Retired M/Sgt; ISP) will be the lead instructor.

Course Description: This is a 3-day, twenty-one hour program on the Reid Technique of Interviewing and Interrogation®. The course includes; interview and interrogation preparation, behavior symptoms, the Reid® Behavior Analysis Interview (B.A.I.) and "The Reid Nine Steps of Interrogation" which include:

Interview and Interrogation Preparation

The style, appearance and approach of the successful interviewer and interrogator will be covered, as will the room settings conducive to these activities.

Behavior Symptoms

Differences in verbal and nonverbal behavior between innocent and deceptive persons often can be observed, and are thus indicative of whether or not a suspect is telling the truth. A guilty suspect makes a conscious decision to resist your effort to get at the truth. In trying to maintain a structure of verbal lies, however, that suspect most often develops internal conflicts and tensions which manifest themselves in nonverbal behavior. Thus, body movements, facial expressions, eye contact, attitudes, posture and grooming gestures can indicate whether the subject is telling the truth or lying. Nonverbal indicators can also be used to determine whether the suspect under interrogation is listening, maintaining a defiant attitude or is ready to confess. You will learn how to observe and assess critical behavior symptoms and use those assessments to determine whether to move on to the next step of the interrogation.

Reid® Behavioral Analysis Interview (B.A.I.)

The information developed through use of the standard investigative questions of "who," "what," "when" and "how" is often not adequate — even in combination with physical evidence — to identify the wrongdoer. The Reid Behavioral Analysis Interview is a technique that uses a structured set of non-accusatory behavior-provoking questions developed as a result of many thousands of interviews. The B.A.I. makes it easier to determine whether the suspect is telling the truth about involvement in the matter under investigation, and is flexible enough to be used in cases ranging from employee theft to homicide.

The Reid Nine Steps of Interrogation®

The nine-step approach to a successful interrogation has been developed by John E. Reid and Associates through extensive research and practical experience over a period of 60 years. Because of the subject's importance, approximately half the classroom time in the seminar is devoted to the interrogation process and detailed examination of each of the nine steps.

John Reid and Associates will provide the instructor for this class.

Tactical Emergency Casualty Care

Frankfort Police Department

20602 Lincoln-Way Lane, Frankfort, IL 60423

Wednesday; March 9, 2022

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- Emergency Medical Training & Certification 8.0 Hours (4.0 Hours Scenario-Based)

Course Description: Officers will discuss and visualize the concept of Tactical Emergency Casualty Care as it applies to law enforcement tactical situations and the treatment of injured officers. Officers will learn and demonstrate specific treatments and interventions for the most commonly encountered wound patterns.

Officers are asked to bring clothing appropriate for weather conditions for scenario training.

On completion of the course, each participant will receive a Medical Patrol Officer Kit for duty use. Each kit contains: One C-A-T Combat Application Tourniquet, an OLAES Emergency Trauma Dressing and a Hyfin Vent Compact Chest Seal.

Upon completion of this period of instruction, officers will be able to:

1. Identify the concepts of Tactical Emergency Casualty Care, its use in the law enforcement environment and how this concept differs from historically taught conventional First Responder medical treatment practices.
2. Identify the most commonly sustained officer injuries and preventable causes of death.
3. Identify the importance of mindset and maintaining situational awareness when wounded and when treating fellow officers.
4. Identify signs and symptoms of airway problems and demonstrate airway interventions.
5. Identify signs and symptoms of serious bleeding and demonstrate control interventions.
6. Identify signs and symptoms of shock and demonstrate prevention and treatment interventions.
7. Perform a Casualty Evaluation/F.A.S.T. Rapid Trauma Assessment and tactical evacuation.
8. Plan and perform a vehicle and non-vehicle officer down rescue/extraction in a high-threat environment.

Instructor: Justin D. Rottmann is a police officer and a firefighter/paramedic. He has been part of the ILEAS Region 8 SRT since 2012. He currently serves as the TEMS (tactical EMS) team leader.

Asset Forfeiture & Financial Crimes Training

New Lenox Police Department

200 Veterans Parkway, New Lenox, IL. 60451

Thursday, March 10, 2022

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):
PENDING

Course Description: Forfeitures can be a valuable tool to law enforcement in the following areas: improving public safety by forfeiting the DUI and suspended driver's car, taking away expensive vehicles and other assets from drug dealers, seizing bank accounts of criminals who commit check/credit card fraud and other financial crimes, forfeiting real property paid for with proceeds of mortgage fraud or any other crime where money is derived.

This course will provide law enforcement officers an understanding of forfeiture law in Illinois and how to successfully incorporate the forfeiture component into criminal investigations and prosecutions. After reviewing applicable statutes, the course will cover practical implementation of those statutes through real world examples. Additionally, techniques for locating assets and building financial cases will be discussed. This course will be useful for patrol officers; officers in specialized units such as narcotics, gangs or financial crimes; command staff; and agency policymakers. For those individuals who have already attended a forfeiture training, this course will broaden your ability to implement forfeiture law into your investigations and capture previously untouched assets of criminal enterprises.

Some of the topics include:

- Statutory basis for forfeiture in Illinois based on the Controlled Substances Act, The Money Laundering Act, The Gang Act, Article 36, and miscellaneous statutes
- Locating and discovering hidden assets and co-conspirators
- Putting together the forfeiture case simultaneous to the criminal case
- Search warrant execution – how to build a forfeiture case during a search warrant
- Techniques and tips for building a financial crimes case
- Use of forfeited property

Instructor: Assistant State's Attorney Dant Foulk of the Will County State's Attorney's Office, manages the Forfeiture Unit and serves in the office's Financial Crimes Prosecution Unit. In the Forfeiture Unit, Dant specializes in identifying, locating, seizing and forfeiting illegally gained proceeds from narcotics and money laundering activities and other financial crimes. In the Financial Crimes Unit, he coordinates the long-term investigations of complex financial crimes, including credit card and check fraud rings, identity theft conspiracies and organized money laundering activities.

John Reid Advanced Interviews & Interrogations

Will County Sheriff's Department
16911 W. Laraway Rd., Joliet, IL 60433
Friday; March 11, 2022
8:00 am till 3:00 pm

This course complies with the guidelines of the following mandate(s):

- Procedural Justice 3.0 Hours
- Lead Homicide Investigator 6.0 Hours (3.0 Hours Scenario-Based)

Course Description: This course is for individuals who have completed the 3-day seminar on The Reid Technique of Interviewing and Interrogation and builds upon their knowledge of the Reid Technique.

Most unsuccessful interrogations are a result of the investigator's inability to move the guilty suspect from one stage of the interrogation to the other. *Reid* has defined three distinct stages of the interrogation that may give the investigator problems:

1. Defiant stage: seven proven tactics to move suspects out of this stage
2. Neutral stage: four proven techniques to get the suspect to listen to the interrogator's themes
3. Acceptance stage: three specific techniques that will dramatically increase admissions of guilt

People who commit crimes do so to fulfill certain needs. What needs were satisfied is based upon the case facts, evidence and results of the interview — types of needs that will be thoroughly discussed are:

- Real need crimes
- Impulse need crimes
- Esteem need crimes
- Lifestyle need crimes

The Advanced Seminar will also address the following specific problem areas for some but not all interrogations:

- Juvenile interrogations
- Interrogation regarding guilty knowledge
- Playing one suspect against another
- Interrogation on multiple crimes

Course Instructor: This course will be taught by Instructors with John E. Reid and Associates, Inc.

ARIDE

Advanced Roadside Impaired Driving Enforcement

New Lenox Police Department

200 Veterans Parkway, New Lenox, IL. 60451

Thursday & Friday; March 17-18, 2022

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- | | |
|--|---------------------------------------|
| • Civil Rights | 10.0 Hours (3.0 Hours Scenario-Based) |
| • Const. Use of L.E. Authority | 2.0 Hours |
| • Legal Updates | 4.0 Hours |
| • Advanced Roadside Impaired Driving Enforcement (ARIDE) | 16.0 Hours (3.0 Hours Scenario-Based) |

Course Description: The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police (IACP) Technical Advisory Panel (TAP) and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers that have not received advanced or in-service training regarding drug impairment tend to not be able to identify these characteristics; therefore, they will release an impaired driver. Once an officer completes the training he/she will be more proficient with the 3 battery of tests (HGN, WAT, OLS), as well as a broader knowledge of drug impairment indicators. The law enforcement officer will also be more familiar with the DRE program and its function. This will facilitate better communication and transfer of critical roadside indicators of impairment to the evaluating DRE officer for a more complete and accurate assessment of the impairment.

ARIDE is a 16-hour training course taught by DRE instructors or SFST instructors who are also DREs. The training will be conducted under the control and approval of the DEC Program state coordinator. This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem. The following topics are discussed and/or delivered in detail throughout the entire curriculum:

- Update of Standardized Field Sobriety Testing Battery
- How drug impaired driving affects our community
- SFST Proficiency Examination
- Drugs in the human body and the impairing effects they may have
- Seven categories of drugs identified by the DEC Program
- Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement
- Provide an expanded knowledge of prosecuting drug impaired drivers to prosecutors and courts

Much of the classroom training is devoted to hands-on practice.

Instructors: Dave Christiansen (lead instructor), of the Dekalb County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash investigator. Ari Briskman (co-instructor), of the Lake County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash reconstructionist.

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

PENDING

Course Description: This forty-hour course is specifically designed for experienced uniformed patrol personnel selected to serve as Field Training Officers with probationary employees. The course emphasizes the FTO's role in assisting probationers certify for solo patrol operations by applying the knowledge and skills acquired during Basic Police Training/Certification and using them according to agency policy, procedures and community service delivery standards. The instruction highlights two essential Field Training and Evaluation Process skills: 1) the ability to examine and objectively document the probationer's job behaviors using the 2009 revised non-numerical/behaviorally anchored standardized assessment guidelines and, 2) analyzing the probationer's training needs and using proper instructional techniques for corrective action. The instruction presentation will focus upon discussion as well as hands-on application of the course materials in small group and individual/student exercises. Students will be required to complete out-of-classroom reading assignments from the course text and workbook, *Breaking Routine™: Field Training Officer*.

The course content will include:

- What every FTO really needs to know about the operational structure of the Field Training & Evaluation Process.
- The Instructional Relay Race: Taking over where Basic Police Training/Certification left off.
 - Inventorying the probationer's current knowledge and skill proficiencies.
- Selection and use of on-the-job instructional techniques: finding the best tools to meet the challenge.
- Utilization of legally defensible, non-numerical standardized evaluation guidelines.
- Objectively documenting probationer performance.
- Documenting the extent of training and coaching without becoming a best-selling author.
- Strategically addressing Probationer areas of Corrective Action Necessary.
- Utilizing the Probationer Officer Manual as the Field Training playbook.
- Practical Directed Patrol Mapping™: Preparing the Probationer for Proactive – Community Oriented Policing: Dancing with SARA!
- Creating a Self-Reliant™ law enforcement agent.

Special attention: *Students should be familiar with their Department's current Field Training and Evaluation Process and should be briefed on their agency's process. Students are encouraged to bring a copy of their agency's Probationary Office Manual and forms to class.*

This course complies with the guidelines of the following mandate(s):

- | | |
|-----------------------|-----------|
| • Cultural Competency | 3.0 hours |
| • Procedural Justice | 2.0 hours |

Course Description: This new 32-hour curriculum has been designed to provide new instructors with the skills needed to become dynamic, effective trainers. In this highly interactive and participatory program, students will be introduced to a multitude of techniques that can be used successfully within traditional law enforcement environments and applications, including the classroom, field operations, simulated scenes, scenarios, and assessment training.

This course focuses on techniques of instruction that address different adult learning styles and will provide a comprehensive overview of different classroom management principles. Participants will complete numerous practical exercises in public speaking, demonstrative instruction, and lesson plan preparation. Class will culminate in each participant providing a block of instruction on a law enforcement-related topic of their choosing. Attendees will be encouraged in the development of their instructional skills through immediate, supportive feedback from instructors as well as their fellow classmates.

Topics to be addressed include:

- How to instruct to all adult learning styles
- Time management of a training program or unit of instruction
- Organization and lesson plan preparation
- Writing course objectives
- Different types of class participation
- How to construct exam questions
- Classroom media, including PowerPoint, and Poll Everywhere

Crash Investigation 2

Frankfort Police Department
20602 Lincoln-Way Lane, Frankfort, IL 60423
Monday- Friday, March 28 – April 8, 2022
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- | | |
|------------------------------|--|
| • Civil Rights | 2.0 Hours |
| • Const. Use of LE Auth | 3.5 Hours (3.0 Hours Scenario-Based) |
| • Legal Updates | 3.0 Hours (1.0 Hour Scenario-Based) |
| • Procedural Justice | 9.5 Hours (2.0 Hours Scenario-Based) |
| • Lead Homicide Investigator | 80.0 Hours (18.5 Hours Scenario-Based) |

Course Description:

At scene traffic crash data collection is useful only if all appropriate information is collected and properly interpreted and analyzed. Participation in Crash Investigation 2 enhances the capability and credibility of the at-scene investigator.

Crash Investigation 2, based on the 2014 edition of J. Stannard Baker's world-renowned textbook Traffic Crash Investigation, emphasizes vehicle behavior in crashes, vehicle damage analysis and more advanced mapping and evidence location skills.

Crash Investigation 2 builds upon topics examined in Crash Investigation 1 and provides the student/investigator with greater knowledge of the information available at the crash scene and how to properly collect and initiate interpretation of that information.

The course also provides instruction in the use of laser-based measurement devices to measure crash scenes and the evidence found there. Laser Technology, Inc. units are used for these demonstrations. Downloading the electronic information into mapping programs is also covered.

Course Topics:

- Vehicle damage analysis - description, reporting and determination of direction of forces
- Vehicle behavior in crashes
- Results of the crash on the road - identifying and interpreting tire marks and road scars
- Lamp filament analysis - determining whether headlamps, tail lights and turn signals were on or off at moment of impact
- Tire damage analysis - role of tire failure
- Measurement methods - perspective grid, photogrammetry, measurement techniques, diagram drawing and systematic methods for organizing and illustrating data
- Interpretation of data - use of all information obtained through investigation
- Specialized data gathering - measuring devices and other testing
- Laser-based measurement and use of mapping software
- In addition to addressing how the latest generation of vehicle electronics - including data recorders, traction and stability controls, multiple airbags - affect both the crash and the crash investigation, specific new topics include:

[Back to Index](#)

- hit-and-run investigations,
- dealing with event data recorders
- technical report writing and other emerging technologies

Course Materials: All students need to bring a laptop computer or other device with a USB port to the class. Student reference materials will be distributed in USB flash drives (files will accept electronic comments and highlighting and can be saved).

In all cases, please bring the following additional items to class:

- Comfortable outdoor clothing (likely to get dirty) for Week 2 outdoor projects
- Small pair of scissors
- Simple calculator with square root key
- Staedtler Geometry Compass
- Mechanical Pencils
- Triangles 45-45-90 and 30-60-90
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed
- **Traffic Crash Investigation, 11th Edition – All Crash Investigation 1 students receive a copy of the text. If necessary, a copy may be purchased online at nucps.northwestern.edu/crashbooks.**
- Students may use calculators and electronic communication devices in class; however, possession/use of electronic communication devices during closed-book quizzes and exams is prohibited.

Who Should Attend:

- Crash Investigation 2 is designed for those who analyze data collected by other crash investigators and who gather and analyze supplementary data.
- Crash Investigation 2 participants must have successfully completed NUCPS's Crash Investigation 1 or its equivalent

Course Outcomes: Officers/investigators who successfully complete Crash Investigation 2 develop skills in technically preparing crash investigation data and collecting follow-up data required by prosecutors, defense attorneys, claim adjusters, fleet supervisors, reconstructionist and highway safety engineers.

Instructor (s): Course instructor(s) are provided by *NUCPS*.

- Describe the entities associated with transporting, testing and education
- Define the state agencies associated with regulating the cannabis industry
- Distinguish the laws governing medical cannabis and the adult user
- Describe the possession limits for Illinois residents and non-residents
- Describe who is banned from the medical program
- Define the Opioid Alternative Pilot Program
- Define Medical Cannabis Provisional Patients
- Summarize scientific research related to driving and cannabis usage
- Recognize signs and symptoms associated with cannabis usage
- Describe research regarding the effectiveness of field tests
- Describe the two Implied Consent provision associated with the legislation
- Describe the limitations of chemical testing

Course Goals: At the end of this eight-hour block of instruction officers will have:

5. An understanding of the new cannabis laws as it relates to the cannabis industry;
6. The knowledge to identify violations of the cannabis laws;
7. The knowledge to observe, identify and articulate cannabis usage;
8. An understanding of the two DUI violations which may occur.

Instructor: Tony Lebron (Retired M/Sgt; ISP) will be the lead instructor.

Use of Force – Train the Trainer

JJC, Weitendorf Agricultural Center
17840 W. Laraway Rd., Joliet, IL. 60433
Monday & Tuesday; May 2 & 3, 2022

9:00 am till 5:00 pm

This course complies with the guidelines of the following mandate(s):
PENDING

Course Description: This 16-hour train-the-trainer program is designed to instruct officers in the legal, policy, and tactical issues related to the lawful and justifiable use of force in the course of police duties. This program will cover mandated State of Illinois use of force objectives and expand upon them.

Human performance science related to high stress response will be studied so that students might better understand how and why officers respond and make high-speed decisions during critical incidents.

Review of applicable federal and state statutes, case law, and policies will provide student officers with the knowledge needed to return to their respective agencies and develop effective courses of on-going study and instruction for all officers as required by the Police and Community Relations Improvement Act and ILETSB policy regarding the certification of in-house use of force training programs.

Other use of force-related topics to be covered in this program include:

- Procedural justice, de-escalation, disengagement, tactical patience, and perception challenges
- Human performance as it relates to force use and judgement, including time framing, time to start/time to stop, perseveration, visual narrowing, inattention blindness, and memory challenges in violent events
- Pre-event preparation issues, including an overview of "Left of Bang" concepts & behavior analysis
- Force documentation, articulation, and the importance of story-telling techniques to accurately describe behavior

Students will be provided with study guide / handout materials and no cost access to a DropBox online library of pertinent legal decision, articles, policies, and videos so they can develop training programs for their individual agencies.

The result of consistent training in YFFR Protocol will not only lead to better performance and stress management but an increase in mindful responses versus emotional reactions with interpersonal communication.

This course will introduce the trainee to the basic concepts of yoga, mindfulness, and resilience, functions of the brain and nervous system, as well as the principles of the YFFR Protocol that make it job-specific and culturally informed. Attendees will learn techniques to use right away along with resources to continue their training.

Course Objectives:

1. Explain yoga, its original intent, and address misconceptions.
2. Formulate the steps needed to practice mindfulness.
3. Outline the 3 Principles of Resilience Training.
4. Assess how a career in Law Enforcement can affect the mind, body, and nervous system.
5. Categorize the basic functions of the nervous system and stress response.
6. Conclude the missing skill set in Law Enforcement training.
7. Illustrate how yoga can train the Law Enforcement Officer to perform at his/her highest level of functioning for tactical performance and career longevity.
8. Compare how the YFFR Protocol differs from community yoga in western cultures.
9. Deduce how YFFR can be added into current Law Enforcement Training Standards.
10. Learn and practice the foundational techniques of YFFR protocol.
11. Distinguish which basic YFFR techniques can train the entire system to process stress effectively, build resilience actively, and enhance performance tactically.
12. Adopt YFFR techniques for improving body mechanics, neuromuscular efficiency, awkward shooting positions, breath control, and proprioception for tactical performance.
13. Decide when and how to use and adapt YFFR techniques for optimal value.
14. Understand how to implement YFFR as a consistent training tool personally or for your department.

Officers should wear clothing that they would normally wear during defensive tactics training, as there will be practical applications to the classroom instructions. This will take place on defensive tactics mats. Watch the attached videos for further:

Instructor: Cheryl Mabry is a 500-hr Certified Yoga teacher, and has been a life-long fitness practitioner and teacher, with a primary focus on Corporate Yoga since 2003. Cheryl's teachings are rooted in safe, effective techniques that honor mental and physical strength with self-awareness. (CONTINUED NEXT PAGE)

After spending years in gymnastics, powerlifting, cycling and strength training, and enduring a life threatening spinal injury...then surgery, Cheryl credits her resiliency to her Yoga practice and mindset training. Her deep desire to help those in the First Responder community began with her father, a Vietnam Veteran, and other extended family members that serve in local communities. After learning about Yoga For First Responders (YFFR) in August of 2018 from a recent Chicago Police Department (CPD) Academy grad, Cheryl began to research and follow YFFR. She completed her Instructor School Class 009 with YFFR in Seattle in 2019. She is currently serving as Fundraising Coordinator with YFFR and has been an active Instructor and speaker for YFFR since certifying. She recently was a Squad Leader for YFFR at Instructor School Class 014 at CPD and spoke at the ILEETA conference back in March of 2021. Cheryl engages in the YFFR Community weekly, and looks to future opportunities to learn and lead. Cheryl resides near Chicago, IL, and is deeply committed to sharing the benefits of the YFFR Protocol.

SFST Instructor School

Romeoville Police Department

1050 West Romeo Road, Romeoville, IL. 60446

Monday – Friday; May 16-20, 2022

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):
PENDING

Course Description: The purpose of this course is to prepare law enforcement professionals to effectively instruct the SFST training program using the concepts and principles provided by the National Highway Traffic Safety Administration and the International Association of Chiefs of Police. The curriculum addresses the application of basic adult learning theory and the instruction skills needed to deliver this training.

In the SFST instructor-development training program, the principal participants are law enforcement officers who have demonstrated proficiency in the administration of the standardized field sobriety tests (SFSTs), and are actively involved in detecting and apprehending impaired drivers. Participants should be well versed and comfortable with the SFSTs, including the HGN test.

Primary reasons for attending this training are:

- a desire to develop or strengthen effective presentation skills.
- a desire to develop or strengthen skills as an SFST instructor.
- a desire to learn how to conduct interactive participant-centered training.
- a desire to become more familiar with the SFST curriculum available through NHTSA and the International Association of Chiefs of Police.

The most significant learning activities are the presentations made by the participants. The participants will use NHTSA course materials to prepare their practice teaching presentations. Participants are expected to become thoroughly familiar with content, learning activities, training aids, etc. related to delivery of the SFST course.

Instructors: Dave Christiansen (lead instructor), of the Dekalb County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash investigator. He will be assisted by various Law Enforcement Officers (active and retired) approved by the Illinois Law Enforcement Training and Standards Board.

8:00 am to 4:00 pm

This course complies with the guidelines of the following mandate(s):
PENDING

Course Description: The *First-Line Supervision* course prepares first-line supervisors for a successful transition from officer to supervisor and provides professional development to current supervisors who have had little or no formal training to lead officers. The course provides the fundamentals of leadership and followership to enable students to become more effective in their roles, and provide an educational foundation for life-long learning and professional development.

The **one-week course** is designed to teach supervisors how to overcome contemporary leadership challenges and focuses on understanding human behavior and day-to-day work relationships with subordinates, superiors and the public. As emerging leaders navigating today's changing law enforcement environment, *First-Line Supervision* students learn how to effectively motivate, evaluate and discipline employees in order to successfully carry out the visions of their law enforcement agencies.

Who Should Attend:

First-Line Supervision is an absolute must for all new supervisors or soon-to-be-promoted officers. Experienced supervisors are encouraged to attend to improve their leadership and supervisory effectiveness and continue developing in the law enforcement profession.

***Students will need a laptop computer or similar device with a USB port.**

Course Content:

- The personal profile system: DiSC instrument
- Key elements of dynamic leadership
- Communication
- Supervising Diversity
- Motivational principles
- Performance Management
- Planning and decision making
- The disciplinary process
- Ethics, professionalism and community image
- Risk Management

Instructors: Course instructors are police managers (active or retired) who combine extensive experience with solid academic credentials, provided by *NUCPS*.

Policing A Diversified America (The U Approach)

New Lenox Police Department
200 Veterans Parkway, New Lenox, IL. 60451
Monday; May 23, 2022
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):
PENDING

Purpose: Law enforcement officers today must understand the need to be educated in the differences that exist among the many cultures that we have in America. It is important that individuals who engage in law enforcement learn to understand and respect the differences among the many cultures today. This understanding will assist in enhancing the public perception of law enforcement and thus provide officers with the knowledge, skills and attitude necessary for dealing with cultural differences and thus enhance the professional image of today's law enforcement officers.

Course Description: Policing a Diversified America is a specialized course of study for law enforcement officers, who as part of their calls for service and proactive responsibilities, will likely encounter people that may be different from who they are and people who have different views on life. With this 8-hour training course officers will be able use the knowledge attained to better relate to a variety of cultures and communicate/interact effectively through understanding.

The key components of this course will cover the following:

- The definition of culture and the many types of cultures that exist today in America.
- The history of cultural tensions in America
- The mental conditioning of bias
- Discussion on cultural stereotyping
- Presumptions about Law Enforcement and Culture
- Controversies involving the excessive use of force
- The Civil Rights Act
- Laws Governing Racial Profiling
- Case Laws Involving Law Enforcement and Bias
- Effective Communication Through Understanding

About the Instructor: The course will be conducted by Traneil Thomas. Traneil is currently a Sergeant and former detective with over 20 years of Law Enforcement experience. Traneil is also a Marine Corps Veteran and holds a Bachelor's Degree in Criminal Justice. He is currently the CEO and Owner of Trained Ready Armed Defense Training & Consulting; he is also the owner of Trained Ready & Armed Apparel. Course Description: Dave "J.D. Buck Savage" Smith first presented **The Winning Mind™** in 1987. Since then it has evolved into one of the most remarkable training experiences that law enforcement personnel will ever attend. By looking at the key components of peak performance, including who wins and why, the roles that optimism, risk and bureaucracy play in our personal and professional lives, and how individuals and organizations can make themselves truly resilient, Dave presents an entertaining & inspiring program designed to help everyone, regardless of their experience, optimize their odds of **winning** any confrontation.

The Winning Mind is updated continuously and always customized for the audience when it is presented. In his unique, energetic style, Dave Smith and his wife Sgt. Betsy Smith will give men & women the mental edge they need to not only face threats on the street but also manage the stresses they may confront in their daily lives, both on and off duty. In this multi-media session, Dave and Betsy will discuss:

- What makes someone a "winner?"
- Why "survival" is minimalistic, and we must train to WIN!
- The true role of "Warrior Ethos" in the police profession
- Understanding the role beliefs play in winning • What is true "optimism?"
- The "Truth About Gender Differences" in all aspects of your life
- What training really works and why
- The science of Crisis Decision Making
- The "Not Today" mindset, every day, on every shift
- Law Enforcement's Role in Preserving a Free Society
- Preventing panic, the "archenemy of survival"
- Being truly resilient after a setback!

This course is perfect for everyone working in a public safety organization regardless of rank, experience or assignment. Dave Smith's The Winning Mind has something for everyone!

Instructors:

Former police lieutenant **Dave Smith** is an internationally known speaker, writer, and law enforcement expert. Dave completed his college degree at the University of Arizona while fighting forest fires with the "Coconino Hot Shots" and then began his police career with the Tucson Police Department. In 1978 he joined the Arizona Department of Public Safety, holding positions in Patrol, SWAT, Narcotics, Training and

ARIDE

Advanced Roadside Impaired Driving Enforcement

Orland Park Police Department

15100 S. Ravinia Ave., Orland Park, IL. 60462

Wednesday & Thursday; June 1-2, 2022

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- | | |
|--|---------------------------------------|
| • Civil Rights | 10.0 Hours (3.0 Hours Scenario-Based) |
| • Const. Use of L.E. Authority | 2.0 Hours |
| • Legal Updates | 4.0 Hours |
| • Advanced Roadside Impaired Driving Enforcement (ARIDE) | 16.0 Hours (3.0 Hours Scenario-Based) |

Course Description: The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police (IACP) Technical Advisory Panel (TAP) and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers that have not received advanced or in-service training regarding drug impairment tend to not be able to identify these characteristics; therefore, they will release an impaired driver. Once an officer completes the training he/she will be more proficient with the 3 battery of tests (HGN, WAT, OLS), as well as a broader knowledge of drug impairment indicators. The law enforcement officer will also be more familiar with the DRE program and its function. This will facilitate better communication and transfer of critical roadside indicators of impairment to the evaluating DRE officer for a more complete and accurate assessment of the impairment.

ARIDE is a 16-hour training course taught by DRE instructors or SFST instructors who are also DREs. The training will be conducted under the control and approval of the DEC Program state coordinator. This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem. The following topics are discussed and/or delivered in detail throughout the entire curriculum:

- Update of Standardized Field Sobriety Testing Battery
- How drug impaired driving affects our community
- SFST Proficiency Examination
- Drugs in the human body and the impairing effects they may have
- Seven categories of drugs identified by the DEC Program
- Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement
- Provide an expanded knowledge of prosecuting drug impaired drivers to prosecutors and courts

Much of the classroom training is devoted to hands-on practice.

Instructors: Dave Christiansen (lead instructor), of the Dekalb County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash investigator. Ari Briskman (co-instructor), of the Lake County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash reconstructionist.

Purpose: Law enforcement officers are generally the first responders to crisis events. This course is also open to local and county sworn corrections officers. It is important to have individuals in law enforcement who can utilize effective strategies, insuring public and personal safety. The Crisis Intervention Team (CIT) training provides officers with education about mental illness and other behavioral disabilities as well as providing skills and tools for effectively and safely interacting with someone who is experiencing a crisis.

Course Description: Crisis Intervention Team training is an in-depth 40-hour specialized course of study for uniformed patrol law enforcement officers and sworn corrections officers who, in addition to their regular service calls, will be required to respond to crisis calls involving people who have behavioral disabilities. CIT officers will use their acquired knowledge and skill to effectively handle crisis situations and make the most appropriate disposition, which will best serve the individual and the community.

The key components of this course cover the following:

- Officers are exposed to the dynamics of mental illness, developmental disabilities, child and adolescent disorders, elderly individuals with behavioral issues, returning combat veterans, people who have excited delirium, and people with substance abuse/co-occurring disorders. This training will allow officers to make quick and effective decisions utilizing options they have to resolve the crisis.
- Officers are exposed to the experiences, viewpoints and concerns of persons with mental illnesses (consumers). Officers will meet with consumers in order to gain their perspective and learn from them.
- Officers receive instruction and demonstrations in basic listening and responding skills along with crisis interventions strategies. Real life crisis scenarios provided by trained professional actors with the assistance of state-certified CIT officers are presented to officers for them to demonstrate their resolution skills.
- **The scenario-based training will take place on Thursday, June 9th, attendees will be required to wear their "department uniform of the day" for their current assignment**

About the Instructors: The course will be conducted by a diverse group of law enforcement and behavioral health professionals, including active CIT officers from various parts of the State of Illinois. An essential part of the CIT course is scenario-based skills training with crisis scenarios provided by trained professional actors. All scenarios are facilitated and evaluated by certified CIT officers.
