~~Building Entry and Control Tactics Combined for~~ **FULL 21st Century Policing FULL**

Plainfield Police Department
14300 Coil Plus Dr., Plainfield, IL. 60544
Monday and Tuesday; February 24-25, 2025
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- De-escalation Techniques 7.75 Hours (7.25 Hours Scenario-Based)
- Officer safety techniques, including cover, concealment, and time 8.25 Hours (7.75 Hours Scenario-Based)
- Specialized: School Resource Officer (SRO) Pre-Qualified
 - Active Threat Response 16.0 Hours (15.0 Hours Scenario-Based)

Course Description: This course will be two days in length for a total of 16 hours of training. This program has been designed by Conceptual Guardian Systems Inc. to provide students with concepts related to building entry and control tactics.

This course will cover building entry and control tactics, combined together to show Officers safer ways to clear buildings and how to more effectively deal with compliant and non-compliant subjects encountered during building entry. Officers will learn how to non-compliantly handcuff a subject on the ground without placing a knee on the subject's back, reducing the chance for positional asphyxia. Officers will also learn how to non-compliantly handcuff a subject in a standing position that allows the Officer to quickly move a subject out of a zone of concern. Officers will learn concepts related to building entry that will allow them to safely clear any building on the planet using two easy to learn concepts. Officers will also learn hallway and stairway clearing tactics. This course is related to single Officer/two Officer call for service response and team tactics related to search/arrest warrants and active shooter response.

PLEASE NOTE: SCHOOL RESOURCE OFFICERS WILL RECEIVE PRIORITY

To participate, students must bring duty belt, duty pistol, duty long gun, flashlight or weapon mounted light and body armor.

Instructors: Lead Instructor, Jason Laferriere is the Owner and Founder of CGSI. Jason has spent over 33 years in Law Enforcement and 39 years studying and teaching martial arts. Jason spent 21 years as a Special Agent with Homeland Security Investigations serving as the Assistant Team Leader and Training Coordinator for HSI Chicago's SRT team. He created HSI's SRT control tactics system and undercover escape and evasion program. Prior to HSI, Jason was a Police Officer in Montpelier, Vermont and served in the United States Coast Guard.

Supervising/Managing the Field Training Process

(Sokolove Model)

Romeoville Police Department

1050 West Romeo Road, Romeoville, IL. 60446

Monday-Thursday, February 24-27, 2025

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- | | |
|----------------------------------|------------|
| • Civil Rights | 0.5 Hour |
| • Const. Use of LE Authority | 0.5 Hour |
| • Legal Updates | 1.0 Hour |
| • Officer wellness/mental health | 1.0 Hour |
| • Procedural Justice | 12.0 Hours |

Course Description: This four-day hands-on, problem-based learning course is specifically designed for first-line patrol and administrative support services managers responsible for supervising and managing Field Training Officers and probationary law enforcement employees. Instruction will include all revisions to the Process.

The course emphasizes the necessary components of supervising probationers and Field Training Officers at the patrol shift level to ensure that administrative guidelines and legal requirements are met. The course highlights two essential supervisory responsibilities: (1) the ability to comprehensively examine probationer performance documentation in accordance with the **totally revised** standardized Field Training and Evaluation Process assessment guidelines, and (2) auditing the probationer's on-the-job training to ensure the Field Training Unit utilizes the most appropriate instructional techniques for training task mastery and when necessary, corrective action. The instructional presentation will focus upon discussion of critical Field Training issues as well as hands on completion of the course materials during small group and individual in-class exercises. Students are required to complete out-of-classroom reading assignments.

Course content will include:

- Ensuring that your Agency's Field Training and Evaluation Process structure actually *works*.
- In-class review and assessment of participating agency *Probationer's Training and Evaluation Manual* (POM).
- Staffing the Field Training Unit: Recruitment, Testing, Selection and Training of FTOs.
- Realistic definition and expectations of Field Training Officer duties/responsibilities.
- Issues of compensation for Field Training Unit personnel.
- FTO scheduling issues/resource allocation.
- Utilizing the non-numerically anchored performance assessment scale and guidelines including 2009 revisions.
- Performance assessment errors that compromise the objectivity and legality of Field Training.
- Auditing the *Daily Observation Report*: Application of the standardized evaluation guidelines.
- Auditing the FTO's application of the on-shift instructional techniques.

Continued on next page:

- Auditing Probationer training and coaching documentation. Are the FTOs doing what they were trained to do?
- Conducting the *Weekly Performance Summary* process meeting.
- Special focus: **Not Responding to Training** (NRT) Probationer and extension of training.
- Supervising the development of the NRT Probationer's *Performance Improvement Plan*.
- Supervising Probationers during Step V, the Solo Patrol Certification Period.
- Reorientation of personnel returning to Patrol Operations after extended street-absence.
- Preparing Probationer Employment Status Reports/Recommendation for the Chief Executive.
- Assessing the effectiveness of the Field Training Officers and the Field Training Process.
- Avoiding *constructive discharge* allegations
- Defending against State and Federal Court wrongful discharge claims.

Students should bring a copy of their Agency's current Field Training and Evaluation Process manual and forms.

Instructor: This course will be taught by: Mr. Bruce Sokolove, Field Training Assoc., Ypsilanti, MI.

Northwestern University - Traffic Crash Investigation 1

Frankfort Police Department

20602 Lincoln-Way Lane, Frankfort, IL 60423

Monday- Friday, February 24 – March 7, 2025

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- Civil Rights 3.0 Hours
- Const. Use of LE Authority 4.0 Hours
- Legal Updates 3.0 Hours
- Procedural Justice 3.0 Hours
- Lead Homicide Investigator 80.0 Hours

Course Description: In most jurisdictions, traffic crashes account for more lives lost, more injuries and more property damage than all criminal activity combined. To effectively implement crash prevention programs and improve quality of life, law enforcement agencies need to know the who, what, where, when and why of crash occurrence.

The moments immediately following a traffic crash are crucial, and only a well-trained crash investigator knows how to identify and collect the necessary information at the crash scene and to begin the interpretation of that evidence.

Crash investigators must work quickly and confidently to preserve significant physical results before the crash scene is altered or evidence disappears. They must anticipate what information will be needed for enforcing traffic laws, planning crash prevention programs and possible case litigation. In addition, they must properly document the at-scene information and evidence because once the scene is cleared, the evidence might be impossible to recover.

Crash Investigation 1, based on J. Stannard Baker's world-renowned text, Traffic Crash Investigation, is an in-depth study of the skills needed to systematically investigate a traffic crash. Techniques for recognizing and properly recording roadway and vehicle crash evidence are thoroughly presented. Students learn to take measurements and photographs of the crash scene and to create sketches and after-crash diagrams. Crash Investigation 1 also addresses how the collected data are used to reconstruct crashes. Finally, the use of electronic devices to collect and record at-scene data is also introduced.

Course Topics:

- Preparation for traffic crash investigation
- Information from and about people
- Information from vehicles
- Information from roads
- Measuring and mapping the crash scene
- Photographing the crash scene and damaged vehicles

Continued on next page:

- For this updated program, students will develop a new case study. Photographs and exhibits have been updated, and classroom instruction now includes how the latest generation of vehicle electronics - including data recorders, traction and stability controls, multiple airbags, etc. - affect both the crash and the crash investigation

Course Materials: All students need to bring a laptop computer or other device with a USB port to the class. Student reference materials will be distributed in USB flash drives (files will accept electronic comments and highlighting and can be saved).

In all cases, please bring the following additional items to class:

- Comfortable outdoor clothing (likely to get dirty) for Week 2 outdoor projects
- Simple calculator with square root key
- Mechanical Pencils
- Staedtler Geometry Compass
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed.
- Students may use calculators and electronic communication devices in class; however, possession/use of electronic communication devices during closed-book quizzes and exams is prohibited.

Course Outcomes: Officers/investigators who successfully complete Crash Investigation 1 significantly improve their ability to handle all aspects of the majority of traffic crash investigations occurring within their jurisdictions.

Participants who successfully complete Crash Investigation 1 or its equivalent are eligible to enroll in Tri-River's and NUCPS's next crash investigation course, Crash Investigation 2.

Instructor (s): Course instructor(s) are provided by *NUCPS*.

Yoga for First Responders

Plainfield Police Department
14300 Coil Plus Dr., Plainfield, IL. 60544
Thursday; February 27, 2025
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- Officer Wellness/Mental Health 8.0 Hours

Course Description: This course uses tactical breath work, physical drills, and cognitive behavioral therapy resulting in optimal functioning of the entire psychophysiological system. This includes increasing mental toughness, enhancing tactical skills, preventing injury, self-deescalation, regulating the nervous system and more. The result of consistent training in YFFR Protocol will not only lead to better performance and stress management but an increase in mindful responses versus emotional reactions with interpersonal communication.

This course will introduce the trainee to the basic concepts of yoga, mindfulness, and resilience, functions of the brain and nervous system, as well as the principles of the YFFR Protocol that make it job-specific and culturally informed. Attendees will learn techniques to use right away along with resources to continue their training.

Course Objectives:

1. Explain yoga, its original intent, and address misconceptions.
2. Formulate the steps needed to practice mindfulness.
3. Outline the 3 Principles of Resilience Training.
4. Assess how a career in Law Enforcement can affect the mind, body, and nervous system.
5. Categorize the basic functions of the nervous system and stress response.
6. Conclude the missing skill set in Law Enforcement training.
7. Illustrate how yoga can train the Law Enforcement Officer to perform at his/her highest level of functioning for tactical performance and career longevity.
8. Compare how the YFFR Protocol differs from community yoga in western cultures.
9. Deduce how YFFR can be added into current Law Enforcement Training Standards.
10. Learn and practice the foundational techniques of YFFR protocol.
11. Distinguish which basic YFFR techniques can train the entire system to process stress effectively, build resilience actively, and enhance performance tactically.
12. Adopt YFFR techniques for improving body mechanics, neuromuscular efficiency, awkward shooting positions, breath control, and proprioception for tactical performance.
13. Decide when and how to use and adapt YFFR techniques for optimal value.
14. Understand how to implement YFFR as a consistent training tool personally or for your department.

Officers should wear clothing that they would normally wear during defensive tactics training, as there will be practical applications to the classroom instructions. This will take place on defensive tactics mats. Watch the attached videos for further:

Instructor: Cheryl Mabry is a 500-hr Certified Yoga teacher, and has been a life-long fitness practitioner and teacher, with a primary focus on Corporate Yoga since 2003. Cheryl's teachings are rooted in safe, effective techniques that honor mental and physical strength with self-awareness.

After spending years in gymnastics, powerlifting, cycling and strength training, and enduring a life threatening spinal injury...then surgery, Cheryl credits her resiliency to her Yoga practice and mindset training. Her deep desire to help those in the First Responder community began with her father, a Vietnam Veteran, and other extended family members that serve in local communities. After learning about Yoga For First Responders (YFFR) in August of 2018 from a recent Chicago Police Department (CPD) Academy grad, Cheryl began to research and follow YFFR. She completed her Instructor School Class 009 with YFFR in Seattle in 2019. She is currently serving as Fundraising Coordinator with YFFR and has been an active Instructor and speaker for YFFR since certifying. She recently was a Squad Leader for YFFR at Instructor School Class 014 at CPD and spoke at the ILEETA conference back in March of 2021. Cheryl engages in the YFFR Community weekly, and looks to future opportunities to learn and lead. Cheryl resides near Chicago, IL, and is deeply committed to sharing the benefits of the YFFR Protocol.

BUILDING A BETTER POLICE REPORT

Lockport Police Department
1212 South Farrell Rd., Lockport, IL. 60441
Wednesday; March 12, 2025
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- Const. Use of LE Authority 0.5 Hour
- Procedural Justice 3.0 Hours
- Psychology of Domestic Violence 2.0 Hours
- Use of Force (General) 1.0 Hour
- Lead Homicide Investigator 8.0 Hours

Course Description:

This 8-hour course will focus on enhancing an officer's report writing skills so that he or she may better submit clear, accurate, concise, and detailed primary case reports. Emphasis will be placed on detailing probable cause for an arrest, better providing investigators with essentials in primary reports so that follow-up may become more efficient and enhancing case building in a way that will aid prosecutorial success. The course will examine some of the top failure points of poorly written reports as seen by shift supervisors, and then provide a blueprint to organization to better build reports for the future. Added emphasis will be placed on the additional care and challenges presented when preparing initial reports for Domestic Violence, Criminal Sexual Assault, and when an officer has had to apply physical force in the field. This course is geared to both newer patrol officers who may be developing report writing experience, as well as those veteran officers who might benefit from enhancing their report writing skills. Learning will be done through both lecture and a practical writing lab. Students are encouraged to bring a laptop computer with Microsoft Word installed.

Topics to be discussed:

- Developing a winning mindset for proper report writing- Why it is THAT important!
- Top areas of report failure and how to correct them before you commit them
- Eliminating the "Cliffhangers" and communicating to your overall audience (cops, courts, lawyers, and social services)
- Implementing a fool-proof "Blueprint" for organizing any report, every time
- Making the link from describing events to establishing why actions were taken
- Strategy for reviewing reports prior to submitting them
- Challenges in preparing a primary Domestic Violence Report
- Challenges in preparing a primary Sexual Assault Report
- Documenting your use of force within your report

Tactical Emergency Casualty Care

Romeoville Police Department

1050 West Romeo Road, Romeoville, IL. 60446

Monday; March 17, 2025

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- Emergency Medical Training & Certification 8.0 Hours (4.0 Hours Scenario-Based)

Course Description: Officers will discuss and visualize the concept of Tactical Emergency Casualty Care as it applies to law enforcement tactical situations and the treatment of injured officers. Officers will learn and demonstrate specific treatments and interventions for the most commonly encountered wound patterns.

Officers are asked to bring clothing appropriate for weather conditions for scenario training.

On completion of the course, each participant will receive a Medical Patrol Officer Kit for duty use. Each kit contains: One C-A-T Combat Application Tourniquet, an OLAES Emergency Trauma Dressing and a Hyfin Vent Compact Chest Seal.

Upon completion of this period of instruction, officers will be able to:

- Identify the concepts of Tactical Emergency Casualty Care, its use in the law enforcement environment and how this concept differs from historically taught conventional First Responder medical treatment practices.
- Identify the most commonly sustained officer injuries and preventable causes of death.
- Identify the importance of mindset and maintaining situational awareness when wounded and when treating fellow officers.
- Identify signs and symptoms of airway problems and demonstrate airway interventions.
- Identify signs and symptoms of serious bleeding and demonstrate control interventions.
- Identify signs and symptoms of shock and demonstrate prevention and treatment interventions.
- Perform a Casualty Evaluation/F.A.S.T. Rapid Trauma Assessment and tactical evacuation.
- Plan and perform a vehicle and non-vehicle officer down rescue/extraction in a high-threat environment.

Instructor: Justin D. Rottmann is a police officer and a firefighter/paramedic. He has been part of the ILEAS Region 8 SRT since 2012. He currently serves as the TEMS (tactical EMS) team leader.

○ Lead Homicide Investigator	40.0 Hours

Course Description:

This training features interactive lectures and discussions of actual case histories, videos, and laws specific to homicide investigations. This comprehensive seminar provides instruction in conducting investigations and prosecuting death cases from the start of the investigation, through evidence collection, press conferences, trial testimony, and ultimately conviction.

This class uses a combination of actual homicide case studies, so participants work through a case from the beginning, through case closure. **The training provides participants the techniques and structure to *lead* a professional and lawful investigation.**

“Effective 01-01-2012, under 50 ILCS 705/10.11, only law enforcement officers who successfully complete the Board certified 40-hour Lead Homicide Investigator training program may be assigned as lead investigators in homicide investigations.” This course fulfills the requirements.

Instructor: Lou Tessmann, CFI retired from the Waukegan (Illinois) Police Department after 23 years of service in a wide variety of assignments, including patrol, investigations, training, and ultimately Deputy Chief of Police. Lou is a 26-year veteran of the United States Marine Corps, retiring as a CWO-4. In addition to his service in Vietnam he was activated for Desert Storm and Desert Shield and has received numerous military awards including the Naval Commendation Medal. Lou began his career as a police officer with the City of Waukegan assigned to the patrol division. He was later assigned to the detective bureau for nine years and as a juvenile officer for one year. Lou also served as the Commander of the elite Lake County Major Crime Task Force. The task force works on major criminal investigations relating to homicides, kidnappings, and police-involved shootings. During his career, he has conducted thousands of interviews and interrogations. Most noteworthy, Lou has obtained over 80 homicide confessions during his career with only three instances where he was unable to obtain a confession from the homicide suspect. **(Continued)**

Jeffrey J. Pavletic is a subject matter expert and an award-winning trial attorney who has built a reputation of integrity and exceptional skill in the courtroom. As a prosecutor over the past three decades, he has tried countless cases to victory (including approximately 175 jury trials with a concentration in homicide and violent crime). In addition to trying some of the highest profile and complex cases that have occurred in the history of Northern Illinois, Jeff was Chief of the Felony Review Division, and was the First Assistant State's Attorney for the Lake County (Illinois State's Attorney's Office).

| ○ Advanced Roadside Impaired Driving Enforcement (ARIDE) | 16.0 Hours |

Course Description: The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police (IACP) Technical Advisory Panel (TAP) and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers that have not received advanced or in-service training regarding drug impairment tend to not be able to identify these characteristics; therefore, they will release an impaired driver. Once an officer completes the training, he/she will be more proficient with the 3 battery of tests (HGN, WAT, OLS), as well as a broader knowledge of drug impairment indicators. The law enforcement officer will also be more familiar with the DRE program and its function. This will facilitate better communication and transfer of critical roadside indicators of impairment to the evaluating DRE officer for a more complete and accurate assessment of the impairment. ARIDE is a 16-hour training course taught by DRE instructors or SFST instructors who are also DREs. The training will be conducted under the control and approval of the DEC Program state coordinator. This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem. The following topics are discussed and/or delivered in detail throughout the entire curriculum:

- Update of Standardized Field Sobriety Testing Battery
- How drug impaired driving affects our community
- SFST Proficiency Examination
- Drugs in the human body and the impairing effects they may have
- Seven categories of drugs identified by the DEC Program
- Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement
- Provide an expanded knowledge of prosecuting drug impaired drivers to prosecutors and courts

Much of the classroom training is devoted to hands-on practice.

Instructors: Dave Christiansen (lead instructor), of the Dekalb County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash investigator. Ari Briskman (co-instructor), of the Lake County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash reconstructionist.

~~Hi-Risk & Tactical Traffic Stops – Drumm~~

JJC, Weitendorf Agricultural Education Center

17840 W. Laraway Rd; Joliet, IL 60433

Thursday; March 20, 2025

8:00 am – 4:00 pm

This course complies with the guidelines of the following mandate(s):

- | | |
|---|--------------------------------------|
| • High-Risk Traffic Stops | 6.0 Hours (6.0 Hours Scenario-Based) |
| • Law concerning stops, searches, and the use of force | 0.5 Hour |
| • Officer safety techniques, including cover, concealment, and time | 1.0 Hour (0.5 Hour Scenario-Based) |

Course Description: The primary focus of the course will be to provide patrol officers and patrol supervisors with the specialized skills, knowledge and abilities while making or assisting on traffic stops needed to recognize the specific clues of persons involved in criminal, terrorist or other illegal activities. Content will include making the initial observation, contact, and safety protocols for traffic stops. Officers will learn and practice the strategic skill set needed for properly searching multiple suspects on the street. Scenarios will involve safely securing weapons, possible explosive devices, and procedures for procedural justice concerns during these encounters. Officers will also become familiar with the kinetics of car and truck-based bombs and incendiary devices. Officers will learn how to use traffic stops to initiate contact responses to possibly recognize individuals involved in illicit activities which may also relate to final-point smuggling and border crossings. These include front runners who are involved in supplying people, money, and weapons to individuals, home-based safety threats, as well as large impact groups. Attendees will also be exposed to their role as the grass roots front runners in domestic security. Training will utilize air soft scenario-based training.

STUDENTS MUST BRING THE FOLLOWING EQUIPMENT TO CLASS:

- ✓ Duty belt
- ✓ Duty flashlight
- ✓ Soft body armor
- ✓ Comfortable long sleeve shirt, **NO SHORTS** (fatigues/BDUs suggested) NOTE: Students will participate in multiple tactical exercises and can expect to get dirty.
- ✓ Water to drink during tactical exercises AND
- ✓ **A packed lunch**

Course Goals:

- Learn the differences between unknown, low, medium, and high risk stops.
- Review Illinois laws regarding traffic stops and occupant control issues.
- Review techniques for vehicle stop locations and suspect-officer interaction.
- Learn tactics for squad car placement on traffic stops.
- Learn the proper commands for removing driver from vehicle.
- Learn how to control and remove multiple subjects on stops.
- Learn how to read and use vehicle occupant body language for safety.
- Learn how de-escalation techniques can be used on traffic stops.
- Review identifying IEDs for responder and public safety.
- Learn how to request contact of STIC, bomb squad(s) and DHS.

This course complies with the guidelines of the following mandate(s):

- | | |
|------------------------------|------------|
| • Civil Rights | 0.5 Hour |
| • Const. Use of LE Authority | 1.5 Hours |
| • Legal Updates | 1.0 Hour |
| • Procedural Justice | 4.5 Hours |
| • Officer Safety Techniques | 1.5 Hours |
| • Specialized | |
| ○ Lead Homicide Investigator | 24.0 Hours |

Course Description: This introductory course is designed for newly assigned investigators, detectives, and Crime Scene Investigators (previously called evidence technicians.) The three-day crime scene course covers the foundations of the 7-step process. This process is being taught across Illinois, so that all Detectives and Crime Scene Investigators are processing scenes in an organized and consistent manner. The course goes on to cover Forensic Laboratory Disciplines, and the importance of forensic physical evidence to prove cases and secure convictions. Each of the forensic disciplines are covered in a manner, using scenario-based training to locate, process, package and submit the physical evidence into a Forensic Science Laboratory. Forensic evidence located in a crime scene can be collected and submitted, however, many disciplines of forensic evidence need to be processed before they can be submitted into the Laboratory. This 24-hour training instructs the **processing techniques** of latent fingerprints, footwear evidence, biology, DNA, firearms and ballistic evidence.

This course will benefit officers/investigators and CSIs that have **not** had continuing education in crime scene investigation in the last seven years. If you have taken the previously titled 40-hour basic evidence technician course or crime scene investigation 1 this course would not be necessary. If you have completed 40 hours (the prerequisite) you would move on to CSI 2 as your next course.

❖ ***Each officer should be familiar with his/her Department's digital camera and should bring the following items to class:***

- **A laptop computer for viewing electronic power points and documents**
- ✓ **Camera, tripod and memory card**
- ✓ **Latent print development kit which includes black powder/magnetic powder, tape, and white backing cards**
- ✓ **1-20 numbers crime scene tent markers**

Instructor: This course will be taught by Lt. Heather Hansen (ret.), Illinois State Police and Lt. Chris Collins (ret.) with Kane County Sheriff's Department.

The Reid Technique of Interviewing and Interrogation®

New Lenox Police Department

200 Veterans Parkway, New Lenox, IL 60451

Tuesday - Thursday; April 1-3, 2025

8:00 am till 3:00 pm

This course complies with the guidelines of the following mandate(s):

- Civil Rights 1.0 Hour
- Const. Use of LE Authority 1.0 Hour
- Legal Updates 2.0 Hours
- Procedural Justice 12.0 Hours
- Lead Homicide Investigator 18.0 Hours (7.0 Hours Scenario-Based)

Course Description: This is a 3-day, twenty-one hour program on the Reid Technique of Interviewing and Interrogation®. The course includes; interview and interrogation preparation, behavior symptoms, the Reid® Behavior Analysis Interview (B.A.I.) and "The Reid Nine Steps of Interrogation" which include:

Interview and Interrogation Preparation

The style, appearance and approach of the successful interviewer and interrogator will be covered, as will the room settings conducive to these activities.

Behavior Symptoms

Differences in verbal and nonverbal behavior between innocent and deceptive persons often can be observed, and are thus indicative of whether or not a suspect is telling the truth. A guilty suspect makes a conscious decision to resist your effort to get at the truth. In trying to maintain a structure of verbal lies, however, that suspect most often develops internal conflicts and tensions which manifest themselves in nonverbal behavior. Thus, body movements, facial expressions, eye contact, attitudes, posture and grooming gestures can indicate whether the subject is telling the truth or lying. Nonverbal indicators can also be used to determine whether the suspect under interrogation is listening, maintaining a defiant attitude or is ready to confess. You will learn how to observe and assess critical behavior symptoms and use those assessments to determine whether to move on to the next step of the interrogation.

Reid® Behavioral Analysis Interview (B.A.I.)

The information developed through use of the standard investigative questions of "who," "what," "when" and "how" is often not adequate — even in combination with physical evidence — to identify the wrongdoer. The Reid Behavioral Analysis Interview is a technique that uses a structured set of non-accusatory behavior-provoking questions developed as a result of many thousands of interviews. The B.A.I. makes it easier to determine whether the suspect is telling the truth about involvement in the matter under investigation, and is flexible enough to be used in cases ranging from employee theft to homicide.

The Reid Nine Steps of Interrogation®

The nine-step approach to a successful interrogation has been developed by John E. Reid and Associates through extensive research and practical experience over a period of 60 years. Because of the subject's importance, approximately half the classroom time in the seminar is devoted to the interrogation process and detailed examination of each of the nine steps.

John Reid and Associates will provide the instructor for this class.

8:00 am till 4:30 pm

This course complies with the guidelines of the following mandate(s):

- | | |
|------------------------------|-----------|
| • Civil Rights | 6.0 Hours |
| • Const. Use of LE Authority | 6.0 Hours |
| • Legal Updates | 8.0 Hours |
| • Procedural Justice | 4.0 Hours |

This three-day, 24-hour course is a State Certified program on the standardization of sobriety testing procedures. The latest testing methods will be demonstrated. Horizontal Gaze Nystagmus (HGN) techniques for improved probable cause standard for DUI arrests will be taught. This course will also cover the pharmacological differences between drug effects and alcohol effects on the body.

- ***This course utilizes live dosed individuals as opposed to videos, which greatly enhances the training.***

Course Description: The purpose of this course is to increase deterrence of DWI violations, and thereby reduce the number of crashes, deaths and injuries caused by impaired drivers. As a result of this training, participants will become significantly better able to:

- Understand enforcement's role in general DWI deterrence.
- Understand detection phases, clues and techniques.
- Understand requirements for organizing and presenting testimonial and documentary evidence in DWI cases.
- Recognize and interpret evidence of DWI violations.
- Administer and interpret Standardized Field Sobriety Tests.
- Describe DWI evidence clearly and convincingly in written reports and verbal testimony.
- Understand the tasks and decisions of DWI detection.
- Know and recognize typical vehicle maneuvers and human indicators symptomatic of DWI associated with initial observations.
- Know and recognize typical reinforcing maneuvers and indicators that come to light during the stopping sequence.
- Know and recognize typical sensory and other clues of alcohol and/or other drug impairment that may be seen during face-to-face contact with DWI suspects.
- Know and recognize typical behavioral clues of alcohol and/or other drug impairment that may be seen during the suspect's exit from the vehicle.
- Understand the role and relevance of psychophysical testing in pre-arrest screening of DWI suspects.
- Know and carry out appropriate administrative procedures for validated divided attention psychophysical tests.
- Know and carry out appropriate administrative procedures for the Horizontal Gaze Nystagmus test.
- Know and recognize typical clues of alcohol and/or other drug impairment that may be seen during administration of the Standardized Field Sobriety Tests.

John Reid Advanced Interviews & Interrogations

New Lenox Police Department

Friday; April 4, 2025

8:00 am till 3:00 pm

This course complies with the guidelines of the following mandate(s):

- Procedural Justice 3.0 Hours
- Lead Homicide Investigator 6.0 Hours (3.0 Hours Scenario-Based)

Course Description: This course is for individuals who have completed the 3-day seminar on *The Reid Technique of Interviewing and Interrogation*, and builds upon their knowledge of the Reid Technique.

Most unsuccessful interrogations are a result of the investigator's inability to move the guilty suspect from one stage of the interrogation to the other. *Reid* has defined three distinct stages of the interrogation that may give the investigator problems:

1. Defiant stage: seven proven tactics to move suspects out of this stage
2. Neutral stage: four proven techniques to get the suspect to listen to the interrogator's themes
3. Acceptance stage: three specific techniques that will dramatically increase admissions of guilt

People who commit crimes do so to fulfill certain needs. What needs were satisfied is based upon the case facts, evidence and results of the interview — types of needs that will be thoroughly discussed are:

- Real need crimes
- Impulse need crimes
- Esteem need crimes
- Lifestyle need crimes

The Advanced Seminar will also address the following specific problem areas for some but not all interrogations:

- Juvenile interrogations
- Interrogation regarding guilty knowledge
- Playing one suspect against another
- Interrogation on multiple crimes

Course Instructor: This course will be taught by Instructors with John E. Reid and Associates, Inc.

Call Detail Records and Geolocation Analysis of Mobile Phones

Romeoville Police Department

1050 West Romeo Rd., Romeoville, IL. 60446

Monday-Wednesday; April 7-9, 2025

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- Civil Rights .50 Hours
- Const. Use of LE Authority .50 Hours
- Procedural Justice 10.0 Hours
- Lead Homicide Investigator 24.0 Hours

Course Description: This course will provide law enforcement personnel with the necessary information to successfully examine Cellular Records and Google Location Records. Students will be instructed on Cellular Technology, legal aspects of cellular records, how to obtain and analyze cellular records, and how to forensically map cellular records and other device location records including Google records. The class will be both lecture and practical exercise with forensic mapping software.

Topics Include: Radio Waves / Electromagnetic Waves | Cellular Network Technology | Cell Sites (BTS) | Azimuth / Beamwidth | Mesh Networks | Attenuation | Tower Density | Mobile Network Operators / Mobile Virtual Network Operators | Verizon/T-Mobile/AT&T Records | Search Warrants vs. Subpoenas | Identifying the carrier for a mobile phone number | Terminology | Pre-paid phone records | Non-CDR messaging | Forensic mapping of Call Detail Records | Introduction to Google Earth Pro | Call Detail Records geolocation analysis practical | Time Difference of Arrival Records | Best Practices in Cellular Record Analysis | Forensic mapping of TDOA and CDR records | Analyze and forensically map cellular records | Tower Dumps | Advance Tower Dumps | Google records and student practical with Google records | Advertiser ID location data | Google Geofence Data | Real world case examples with Cellular records and Google records.

Officers *MUST* bring a computer with internet capabilities that have a USB Port, and students need to have Google Earth Pro for Desktop installed prior to class.

Instructor: Jeffrey German is a Detective with the City of Joliet, Illinois Police Department. Detective German has over 20 years' experience as a Police Officer and over 8 years' experience as a Detective. Detective German is an Adjunct Faculty Instructor for the College of DuPage Homeland Security Training Institute, External Trainer for the National White Collar Crime Center (NW3C), and an Investigator for the Will/Grundy Major Crimes Task Force. Detective German is currently tasked with High-Tech Criminal Investigations for the Joliet Police Department Investigations Division where his duties are cell phone forensics, video forensics, major crimes investigations, and Geolocation analysis of mobile devices. Vehicle Dynamics

Students must have successfully completed Crash Investigation 1 and Crash Investigation 2

Frankfort Police Department
20602 Lincoln-Way Lane, Frankfort, IL 60423
Monday- Friday, April 7-11, 2025
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- Civil Rights 0.50 Hour
- Const. Use of LE Authority 0.50 Hour
- Procedural Justice 1.0 Hour
- Lead Homicide Investigator 40.0 Hours

Course Description:

Learn the mathematics and laws of physics required for Traffic Crash Reconstruction 1 & 2. This course teaches the motion of bodies and the actions of forces that produce or change that motion (dynamics) as applied to crashes. Students learn the classical mechanics equations of motion, drag factor, and friction and acceleration coefficients. Vehicle Dynamics also introduces the methodology for estimating vehicle speeds based on flips, vaults, and sideslips and teaches the differences between force, momentum, and energy in crash investigation/reconstruction.

This course provides an introduction to basic mathematical procedures and the basic laws of physics necessary for those who wish to attend Traffic Crash Reconstruction 1 and Traffic Crash Reconstruction 2.

Vehicle Dynamics involves a considerable amount of physics and mathematics. Prospective students should have successfully completed a high school physics course as well as high school level algebra, geometry, and trigonometry.

Course Topics:

- Newton' Laws of Motion
- Coefficient of friction and drag factor
- Introduction to basic motion equations – velocity, time, acceleration, and distance
- Speed estimates using flip/vault, fall and sideslip equations
- Momentum – collinear (in-line)
- Energy and skidding, kinetic energy, and velocity estimates
- Speed estimates from irregular skid marks

Course Materials: All students **must** bring the following:

- Small pair of scissors
- Scientific calculator with square root key
- Mechanical Pencils
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed

*Students may use calculators and electronic communication devices in class; however, possession/use of electronic communication devices during closed-book quizzes and exams is prohibited.

- Officer Safety Tech-including cover, concealment, and time 0.5 hour

Course Description: Law enforcement officers have an important role to play in their interactions with community members. This means responding to incidents with individuals who have mental health issues, including diagnosed mental illness.

This 8-hour course, developed by the Illinois Law Enforcement Training & Standards Board, is meant to provide law enforcement officers with an awareness of mental health issues including a history of mental health systems, types of mental illness, signs and symptoms, common treatments & medications, and potential interactions law enforcement may have, on a regular basis, with these individuals, their families and service providers.

Topics covered will include:

- Prevalence of mental illness
- History & impact on law enforcement
- Common forms of mental illness likely to be encountered
- Signs & symptoms of mental illness
- Treatments & medications
- Suicide warning signs
- Police interaction models
- De-escalation strategies
- Involuntary admission process
- HIPAA & FERPA

Instructor: Lt. Troy Siewert retired from the Orland Park Police Department (OPPD) and holds a master's degree in criminal social justice from Lewis University. He is a certified CIT coordinator, CIT officer, crisis negotiator and Mental Health First Aid instructor as well as a CIT role play evaluator for the Illinois Law Enforcement Training and Standards Board. **(Continued)**

Troy started the OPPD Crisis Intervention Team (CIT) in 2015 and has developed the program into what is now recognized as a standard for best practice. He has been a guest speaker at multiple conferences and various local professional groups promoting CIT and the One Mind Campaign.

| ○ Lead Homicide Investigator | 32.0 Hours |
| ○ School Resource Officer (SRO) Pre-Qualified | |
| ▪ Juvenile Law | 10.0 Hours |
| ▪ Officer & Youth Interaction | 16.0 Hours |

PURPOSE OF COURSE: This four-day, 32-hour program has been designed by expert practitioners from the fields of juvenile law, social work, and law enforcement to assist recently assigned juvenile officers in the legal, moral, and social issues that they will encounter in their positions as juvenile specialists. Public Act 88-7 requires "Juvenile Officers" to complete a course as prescribed by the Board. This course meets that requirement.

**** Students **MUST** bring a laptop or tablet that can utilize a thumb drive; paper copies of the materials will not be provided. ****

COURSE OVERVIEW: The focus of this course is primarily to provide police officers with the skills, knowledge, and abilities needed to perform their duties as juvenile officers. In this unique role, juvenile officers not only enforce laws, but also respond compassionately and effectively to family problems. They serve as protectors of society by investigating criminal acts for findings of delinquency and as supporters of youths by helping them to grow out of adolescence without experiencing the stigma of police involvement.

Specific topics to be addressed in this program include the following:

- The role and responsibility of the Juvenile Officer
- Gaining perspectives on the assignment
- Child development
- Child psychology
- Communicating with adolescents and parents
- Adolescents and electronic influences
- Intervention and prevention strategies
- Article I of the Juvenile Court Act: General provisions
- Article II of the Juvenile Court Act: Abused, neglected, and dependent minors
- Article III of the Juvenile Court Act: Minors requiring authoritative intervention (**CONTINUED**)

[Back to Index](#)

- Article IV of the Juvenile Court Act: Addicted Minors
- Article V of the Juvenile Court Act: Delinquent minors
- Psychodynamics of child abuse
- The role of law enforcement and social services
- Protective custody
- Investigative techniques
- Preparing child abuse cases for court
- Sexual abuse and sexual exploitation investigations

COURSE GOALS: The goals of this course are to make officers particularly aware of the demographics of the burgeoning youth population, which is becoming increasingly more vulnerable to gang recruitment, violent crime, sexual exploitation, alcohol, and drug abuse, and carrying weapons. Officers will become uniquely aware of these problems and the needs facing the children, adolescents, young adults, and parents that they will be serving in their capacity as juvenile officers. Throughout the program, participation in supportive networks such as Juvenile Officer Associations, Gang Task Forces, and high school liaison programs will be discussed and encouraged.

Yoga for First Responders

Plainfield Police Department
14300 Coil Plus Dr., Plainfield, IL. 60544
Thursday; May 8, 2025
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- Officer Wellness/Mental Health 8.0 Hours

Course Description: This course uses tactical breath work, physical drills, and cognitive behavioral therapy resulting in optimal functioning of the entire psychophysiological system. This includes increasing mental toughness, enhancing tactical skills, preventing injury, self-deescalation, regulating the nervous system and more. The result of consistent training in YFFR Protocol will not only lead to better performance and stress management but an increase in mindful responses versus emotional reactions with interpersonal communication.

This course will introduce the trainee to the basic concepts of yoga, mindfulness, and resilience, functions of the brain and nervous system, as well as the principles of the YFFR Protocol that make it job-specific and culturally informed. Attendees will learn techniques to use right away along with resources to continue their training.

Course Objectives:

15. Explain yoga, its original intent, and address misconceptions.
16. Formulate the steps needed to practice mindfulness.
17. Outline the 3 Principles of Resilience Training.
18. Assess how a career in Law Enforcement can affect the mind, body, and nervous system.
19. Categorize the basic functions of the nervous system and stress response.
20. Conclude the missing skill set in Law Enforcement training.
21. Illustrate how yoga can train the Law Enforcement Officer to perform at his/her highest level of functioning for tactical performance and career longevity.
22. Compare how the YFFR Protocol differs from community yoga in western cultures.
23. Deduce how YFFR can be added into current Law Enforcement Training Standards.
24. Learn and practice the foundational techniques of YFFR protocol.
25. Distinguish which basic YFFR techniques can train the entire system to process stress effectively, build resilience actively, and enhance performance tactically.
26. Adopt YFFR techniques for improving body mechanics, neuromuscular efficiency, awkward shooting positions, breath control, and proprioception for tactical performance.
27. Decide when and how to use and adapt YFFR techniques for optimal value.
28. Understand how to implement YFFR as a consistent training tool personally or for your department.

Officers should wear clothing that they would normally wear during defensive tactics training, as there will be practical applications to the classroom instructions. This will take place on defensive tactics mats. Watch the attached videos for further:

Instructor: Cheryl Mabry is a 500-hr Certified Yoga teacher, and has been a life-long fitness practitioner and teacher, with a primary focus on Corporate Yoga since 2003. Cheryl's teachings are rooted in safe, effective techniques that honor mental and physical strength with self-awareness.

After spending years in gymnastics, powerlifting, cycling and strength training, and enduring a life threatening spinal injury...then surgery, Cheryl credits her resiliency to her Yoga practice and mindset training. Her deep desire to help those in the First Responder community began with her father, a Vietnam Veteran, and other extended family members that serve in local communities. After learning about Yoga For First Responders (YFFR) in August of 2018 from a recent Chicago Police Department (CPD) Academy grad, Cheryl began to research and follow YFFR. She completed her Instructor School Class 009 with YFFR in Seattle in 2019. She is currently serving as Fundraising Coordinator with YFFR and has been an active Instructor and speaker for YFFR since certifying. She recently was a Squad Leader for YFFR at Instructor School Class 014 at CPD and spoke at the ILEETA conference back in March of 2021. Cheryl engages in the YFFR Community weekly, and looks to future opportunities to learn and lead. Cheryl resides near Chicago, IL, and is deeply committed to sharing the benefits of the YFFR Protocol.

This course complies with the guidelines of the following mandate(s):

- Crisis Intervention 3.5 Hours
- Procedural Justice 2.0 Hours
- De-escalation Techniques 1.5 Hours (1.5 Hours Scenario-Based)

Course Description: Mental Health First Aid (MHFA) for Adults is an evidence-based program designed to teach police officers and first responders how to identify, understand, and respond to signs of mental health challenges or crises in adults. This 8-hour course provides officers with practical tools to assist individuals in need, de-escalate potentially volatile situations, and support overall community well-being. By enhancing mental health literacy and crisis response capabilities, this training promotes safer, more informed interactions between law enforcement and the communities they serve. MHFA equips individuals with the skills to recognize and respond to signs of mental health challenges or crises, such as anxiety, depression, substance use, or suicidal ideation.

Topics include:

- Understanding mental health and substance use disorders.
- Recognizing risk factors and warning signs of mental health issues.
- The impact of mental health on law enforcement interactions.
- Overview of the Mental Health First Aid Action Plan (ALGEE):
 - **A**ssess for risk of suicide or harm.
 - **L**isten non-judgmentally.
 - **G**ive reassurance and information.
 - **E**ncourage professional help.
 - **E**ncourage self-help strategies.
- Crisis response strategies, including de-escalation techniques.
- Connecting individuals to community resources and professional services.

Goals of the MHFA Class:

- Equip officers with the tools to identify and respond effectively to mental health challenges.
- Reduce stigma surrounding mental health within law enforcement and the community.
- Promote officer and public safety by fostering understanding and compassion.
- Strengthen community trust through informed, empathetic interactions.

~~Small Unmanned Aircraft Systems (Drones) in Law~~

FULL Enforcement FULL

JJC, Weitendorf Agricultural Education Center

17840 W. Laraway Rd., Joliet, IL 60433

Monday-Thursday, May 19-22, 2025

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- Civil Rights 1.0 Hour
- Const. Use of LE Authority 4.0 Hours
- Legal Updates 1.0 Hour
- Procedural Justice 1.0 Hour
- Officer safety techniques 1.0 Hour

Course Description: This training will introduce officers to the use of Small Unmanned Aircraft Systems (sUAS), commonly called “drones”, for both evidence collection and search operations. The course will cover all aspects of UAS operations, including preparations for the mandatory FAA Part 107 licensing. It will include information on the necessary waiver to fly in populated areas and night operation of drones. Hands-on experience with full-sized drones will give officers the confidence and ability to operate in a safe manner. Evidence collections in both photo and video format will be addressed, as well as the legal aspects of how to handle and store this information, as it differs from standard photo/video collection rules.

Finally, the Freedom from Drone Surveillance Act, ILCS 725/167 will be discussed to provide officers and their departments with a clear understanding about operating drones within the confines of the law, including the mandate to inform the State about maintenance and flight operations. Upon completion of this course, attendees will possess the knowledge to successfully take and pass their Part 107 FAA pilot’s exam to become a licensed pilot. They will also be able to assist in creating proper departmental policies and procedures for operating drones.

Course Objectives: Identify the following: All state and federal laws pertaining to Small Unmanned Aircraft Systems (sUAS); different types of airspace; weather and weather-related conditions including cloud formations, types of fog, and wind conditions and how they play a role in the flight of a sUAS; loading and performance factors; airport and airfield standards, including left traffic patterns, METARS, TAFs, sectional charts, longitude and latitude; crew resource management, including types of attitudes, visual observers, Remote Pic, and the effects of drugs and alcohol; radio communication including 2.4 and 5 GHz, AWOS, ASOS, licensed frequencies, and CTAF; Emergency, Lost-Link, and Flyaway procedures; launch and recovery; and Plan B and C.

✓ Perform the procedures for: Vertical takeoff and landing, basic flight maneuvers, recording video, taking still images, autonomous flights, pre-flight and maintenance, equipment replacement, record keeping, pre- and post-flight inspection, and logbook maintenance.

✓ Gain the necessary knowledge and skills to test for and earn the FAA certification for sUAS Operator.

✓ Understand the Freedom from Drone Surveillance Act. **(CONTINUED)**

Instructor: Chris Edwards, Associate Professor at Rend Lake College, the primary instructor for this class, holds an AAS degree in Information Technology from Rend Lake College, a Bachelor's Degree in Information Technology from Southern Illinois University Carbondale, and a Master's Degree in Cybersecurity from Liberty University. He is licensed as a Remote Pilot by the FAA. Chris teaches in the Information Technology Division at Rend Lake, with an emphasis on Cybersecurity and Computer Forensics. He has developed the sUAS curriculum for the college. Chris has taught a related series of courses for over three years and has added several other courses to the curriculum.

In an effort to allow equal training opportunities, all "Member" Officers who have not taken this course will receive priority over those who have, unless their department requests an exception.

Course Description: With rising insurance, repair, and medical costs, reducing or preventing law enforcement accidents is crucial for officer safety, and that of the public they protect. The professional instructors at Autobahn have developed an extensive one day driving program that covers skills training typically found in a multiple day program.

In the classroom, officers will learn the following concepts of driving safety:

- How cars react under emergency environments
- The basics of car control
- Common mistakes of other drivers on the road
- How to avoid accidents in the first place
- Controlling adrenaline
- Maintaining a high level of awareness
- Minimizing the effects of distractions

Throughout the rest of the day, officers will be placed in common emergency situations in a controlled, safe environment designed to replicate common emergency scenarios.

These drills will cover:

- Braking in low traction conditions (rain, snow, etc.)
- Emergency lane change techniques
- Vehicle dynamics training
- Skid control recovery

❖ *To facilitate this one-day program, breakfast and lunch are provided on site.*

Requirements:

➤ **At least one department squad car, SUV, or Pick-up truck is required for every two officers (from the same department) and will be used in the training.**

- In order to maximize training, class size is limited to 12 officers.
- Officers are required to check-in at the front security/information gate house.

Brill Law Enforcement Action in Democracy (LEAD) – 4 Hour

Plainfield Police Department
14300 Coil Plus Dr., Plainfield, IL. 60544

Wednesday; June 11, 2025

8:00 am till 12:00 pm (4 hours)

This course complies with the guidelines of the following mandate(s):

- Cultural Competency 1.0 Hour
- Human Rights 2.0 Hours
- Procedural Justice 1.0 Hour

Course Description: This dynamic 4-hour program has been designed to provide law enforcement officers with a compelling historical analysis of the Holocaust that serves as a framework for further exploration of the ways in which abuses of authority evolve over time and how the rights of individuals must be balanced with the need for societal protection. The Law Enforcement Democracy Initiative is a proven program that impacts how police officers consider empathy, ethics, and morals in their decision-making process.

Participants will examine how changes in government policy and law shifted traditional functions of policing in German society to the implementation of human rights abuses and genocidal programs represented as national security and defense priorities. They will consider the effects these incremental policy shifts had on societal, occupational, and personal life, as well as the decision making of individual police officers during the Nazi era. Through examination of historical and contemporary case studies, students will consider the following issues:

- Moral and ethical decision-making
- Explore issues of racism, bias, and violence through exploration of contemporary case studies
- Discuss the dangers of silence and indifference
- Challenges inherent to the law enforcement profession
- Responsibilities officers have to society and each other
- Stereotyping and the abuse of authority
- Empathizing and connecting with individuals
- Current Hate Crime legislation, reporting considerations, and review of high-profile hate crimes

Class will conclude with a Holocaust survivor's eyewitness recounting of events as they happened during the Nazi era.

Dr. Susan Woollen: I worked in higher education for over 30 years, and I retired from the Department of Criminal Justice Sciences (CJS) at Illinois State University in 2019. I was an administrator in CJS and co-taught a study abroad course on genocide using the Holocaust as a case study. I also taught classes in the College of Education at ISU. My early research focused on equity in education and women's leadership in higher education. Currently, a former colleague and I are conducting research that applies a criminological theory to explain the causes of genocide and how to prevent future cases. I have co-presented results of this research to the American Society of Criminology, as well as to the United Nations Office on Drugs and Crime. I am also actively involved with the Illinois Holocaust Museum and Education Center as a docent, facilitator, and member of the Second-Generation Speakers' Bureau (my mother was a survivor of the atomic bomb that was deployed over Nagasaki, and I present her pre-war, war, and post-war experiences to community members).

Jacqueline L. Schneider is Professor and former Chair in the Department of Criminal Justice Sciences at Illinois State University, Normal, IL. She received her undergraduate degrees in law enforcement and in criminal justice from the University of Cincinnati. She received her Master's in Public Administration from The Ohio State University and then returned to the University of Cincinnati on scholarship to work on her doctorate in Sociology, which she received in 1995. She's taught and conducted research in the US and in England where her work on stolen goods markets has been put forward as best practice in and has attracted interest from policymakers in various countries. In addition to her many grants, she was the first recipient of the Home Office's Innovative Research Challenge Grant (UK) and she received an outstanding teaching award in the United States. Her published works include numerous academic papers and chapters in books. Her book, *Sold into Extinction* received the Distinguished Book Award, 2012 from the American Society of Criminology's Division of International Criminology. Animal Cruelty and its Link to Domestic Violence

Romeoville Police Department

1050 West Romeo Rd., Romeoville, IL. 60446

Thursday; June 19, 2025

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- Civil Rights 1.0 Hour
- Const. Use of LE Authority 1.0 Hour
- Legal Updates 1.5 Hours
- Procedural Justice 0.5 Hour
- Psychology of Domestic Violence 1.5 Hours
- Reporting of Child Abuse and Neglect 0.5 Hour

Course Description: Criminal offenses committed against animals are often overlooked and not prioritized. However, it permeates and affects most traditional areas of law- including tort, criminal, family, civil and constitutional law. Through extensive research, a link has been established between crimes committed against animals and those committed against human victims. Often these crimes against human victims do not become apparent until the crime against an animal has been discovered. Recognizing and understanding this link and how to properly navigate from the inception of the investigation to the witness stand is the key goal of this course.

Topics to be addressed in this class include:

- Understanding Illinois Current Animal statutes and applicable case law
- A crash course in Domestic violence in general, and how it's been linked to animal cruelty
- Animal hoarding, a mental illness
- Investigating animal cruelty cases
- Search warrants
- Animal forfeiture

Instructor: Assistant State's Attorney Courtney Hogan is assigned as a felony assistant. Along with these duties, she assists as a special prosecutor for animal cruelty cases in the Animal Protection Unit. She has served as a prosecutor in the domestic violence division in Michigan and Will County. She has been a practicing attorney for nearly ten years, graduating from Western Michigan Thomas M. Cooley Law School.
