ARIDE

Advanced Roadside Impaired Driving Enforcement

New Lenox Police Department

200 Veterans Parkway, New Lenox, IL. 60451

Thursday & Friday; March 17-18, 2022

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- | | |
|--|---------------------------------------|
| • Civil Rights | 10.0 Hours (3.0 Hours Scenario-Based) |
| • Const. Use of L.E. Authority | 2.0 Hours |
| • Legal Updates | 4.0 Hours |
| • Advanced Roadside Impaired Driving Enforcement (ARIDE) | 16.0 Hours (3.0 Hours Scenario-Based) |

Course Description: The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police (IACP) Technical Advisory Panel (TAP) and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers that have not received advanced or in-service training regarding drug impairment tend to not be able to identify these characteristics; therefore, they will release an impaired driver. Once an officer completes the training he/she will be more proficient with the 3 battery of tests (HGN, WAT, OLS), as well as a broader knowledge of drug impairment indicators. The law enforcement officer will also be more familiar with the DRE program and its function. This will facilitate better communication and transfer of critical roadside indicators of impairment to the evaluating DRE officer for a more complete and accurate assessment of the impairment.

ARIDE is a 16-hour training course taught by DRE instructors or SFST instructors who are also DREs. The training will be conducted under the control and approval of the DEC Program state coordinator. This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem. The following topics are discussed and/or delivered in detail throughout the entire curriculum:

- Update of Standardized Field Sobriety Testing Battery
- How drug impaired driving affects our community
- SFST Proficiency Examination
- Drugs in the human body and the impairing effects they may have
- Seven categories of drugs identified by the DEC Program
- Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement
- Provide an expanded knowledge of prosecuting drug impaired drivers to prosecutors and courts

Much of the classroom training is devoted to hands-on practice.

Instructors: Dave Christiansen (lead instructor), of the Dekalb County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash investigator. Ari Briskman (co-instructor), of the Lake County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash reconstructionist.

| • Civil Rights | 1.0 Hour |
| • Const. Use of LE Authority | 1.0 Hour |
| • Human Rights | 1.0 Hour |
| • Legal Updates | 2.0 Hours |
| • Procedural Justice | 25.0 Hours |

Course Description: This forty-hour course is specifically designed for experienced uniformed patrol personnel selected to serve as Field Training Officers with probationary employees. The course emphasizes the FTO's role in assisting probationers certify for solo patrol operations by applying the knowledge and skills acquired during Basic Police Training/Certification and using them according to agency policy, procedures and community service delivery standards. The instruction highlights two essential Field Training and Evaluation Process skills: 1) the ability to examine and objectively document the probationer's job behaviors using the 2009 revised non-numerical/behaviorally anchored standardized assessment guidelines and, 2) analyzing the probationer's training needs and using proper instructional techniques for corrective action. The instruction presentation will focus upon discussion as well as hands-on application of the course materials in small group and individual/student exercises. Students will be required to complete out- of-classroom reading assignments from the course text and workbook, *Breaking Routine™: Field Training Officer*.

The course content will include:

- What every FTO really needs to know about the operational structure of the Field Training & Evaluation Process.
- The Instructional Relay Race: Taking over where Basic Police Training/Certification left off.
 - Inventorying the probationer's current knowledge and skill proficiencies.
- Selection and use of on-the-job instructional techniques: finding the best tools to meet the challenge.
- Utilization of legally defensible, non-numerical standardized evaluation guidelines.
- Objectively documenting probationer performance.
- Documenting the extent of training and coaching without becoming a best-selling author.
- Strategically addressing Probationer areas of Corrective Action Necessary.
- Utilizing the Probationer Officer Manual as the Field Training playbook.
- Practical Directed Patrol Mapping™: Preparing the Probationer for Proactive – Community Oriented Policing: Dancing with SARA!
- Creating a Self-Reliant™ law enforcement agent.

Special attention: *Students should be familiar with their Department's current Field Training and Evaluation Process and should be briefed on their agency's process. Students are encouraged to bring a copy of their agency's Probationary Office Manual and forms to class.*

Instructor: This course will be taught by: Mr. Bruce Sokolove, Field Training Assoc., Ypsilanti, MI.

Crash Investigation 2

Frankfort Police Department
20602 Lincoln-Way Lane, Frankfort, IL 60423
Monday- Friday, March 28 – April 8, 2022
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- | | |
|------------------------------|--|
| • Civil Rights | 2.0 Hours |
| • Const. Use of LE Auth | 3.5 Hours (3.0 Hours Scenario-Based) |
| • Legal Updates | 3.0 Hours (1.0 Hour Scenario-Based) |
| • Procedural Justice | 9.5 Hours (2.0 Hours Scenario-Based) |
| • Lead Homicide Investigator | 80.0 Hours (18.5 Hours Scenario-Based) |

Course Description:

At scene traffic crash data collection is useful only if all appropriate information is collected and properly interpreted and analyzed. Participation in Crash Investigation 2 enhances the capability and credibility of the at-scene investigator.

Crash Investigation 2, based on the 2014 edition of J. Stannard Baker's world-renowned textbook Traffic Crash Investigation, emphasizes vehicle behavior in crashes, vehicle damage analysis and more advanced mapping and evidence location skills.

Crash Investigation 2 builds upon topics examined in Crash Investigation 1 and provides the student/investigator with greater knowledge of the information available at the crash scene and how to properly collect and initiate interpretation of that information.

The course also provides instruction in the use of laser-based measurement devices to measure crash scenes and the evidence found there. Laser Technology, Inc. units are used for these demonstrations. Downloading the electronic information into mapping programs is also covered.

Course Topics:

- Vehicle damage analysis - description, reporting and determination of direction of forces
- Vehicle behavior in crashes
- Results of the crash on the road - identifying and interpreting tire marks and road scars
- Lamp filament analysis - determining whether headlamps, tail lights and turn signals were on or off at moment of impact
- Tire damage analysis - role of tire failure
- Measurement methods - perspective grid, photogrammetry, measurement techniques, diagram drawing and systematic methods for organizing and illustrating data
- Interpretation of data - use of all information obtained through investigation
- Specialized data gathering - measuring devices and other testing
- Laser-based measurement and use of mapping software
- In addition to addressing how the latest generation of vehicle electronics - including data recorders, traction and stability controls, multiple airbags - affect both the crash and the crash investigation, specific new topics include:

[Back to Index](#)

- hit-and-run investigations,
- dealing with event data recorders
- technical report writing and other emerging technologies

Course Materials: All students need to bring a laptop computer or other device with a USB port to the class. Student reference materials will be distributed in USB flash drives (files will accept electronic comments and highlighting and can be saved).

In all cases, please bring the following additional items to class:

- Comfortable outdoor clothing (likely to get dirty) for Week 2 outdoor projects
- Small pair of scissors
- Simple calculator with square root key
- Staedtler Geometry Compass
- Mechanical Pencils
- Triangles 45-45-90 and 30-60-90
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed
- **Traffic Crash Investigation, 11th Edition – All Crash Investigation 1 students receive a copy of the text. If necessary, a copy may be purchased online at nucps.northwestern.edu/crashbooks.**
- Students may use calculators and electronic communication devices in class; however, possession/use of electronic communication devices during closed-book quizzes and exams is prohibited.

Who Should Attend:

- Crash Investigation 2 is designed for those who analyze data collected by other crash investigators and who gather and analyze supplementary data.
- Crash Investigation 2 participants must have successfully completed NUCPS's Crash Investigation 1 or its equivalent

Course Outcomes: Officers/investigators who successfully complete Crash Investigation 2 develop skills in technically preparing crash investigation data and collecting follow-up data required by prosecutors, defense attorneys, claim adjusters, fleet supervisors, reconstructionist and highway safety engineers.

Instructor (s): Course instructor(s) are provided by *NUCPS*.

Enforcing Cannabis Laws

Bradley Police Department

147 S. Michigan Ave., Bradley, IL 60915

Tuesday; April 5, 2022

8:00 am to 4:00 pm

This course complies with the guidelines of the following mandate(s):

- | | |
|------------------------------|-----------|
| • Civil Rights | 1.0 Hour |
| • Const. Use of LE Authority | 3.0 Hours |
| • Legal Updates | 4.0 Hours |

Course Description: The "Cannabis Regulation and Tax Act" as described in "Amendment to HB 1438", was signed into law by Governor Pritzker on June 25th, 2019. This legislation permits the cultivation, selling, and the adult use of cannabis, beginning January 1, 2020. The implementation of this legislation will have a tremendous effect on all aspects of law enforcement. The most profound impact will be on traffic safety. Illinois officers need to be trained to understand the legislation and to take appropriate action when required.

Upon Completion of this training officers will be able to:

- Describe business organization which may cultivate and sell cannabis
- Describe the entities associated with transporting, testing and education
- Define the state agencies associated with regulating the cannabis industry
- Distinguish the laws governing medical cannabis and the adult user
- Describe the possession limits for Illinois residents and non-residents
- Describe who is banned from the medical program
- Define the Opioid Alternative Pilot Program
- Define Medical Cannabis Provisional Patients
- Summarize scientific research related to driving and cannabis usage
- Recognize signs and symptoms associated with cannabis usage
- Describe research regarding the effectiveness of field tests
- Describe the two Implied Consent provision associated with the legislation
- Describe the limitations of chemical testing

Course Goals: At the end of this eight-hour block of instruction officers will have:

1. An understanding of the new cannabis laws as it relates to the cannabis industry;

Monday & Tuesday; May 2 & 3, 2022

9:00 am till 5:00 pm

This course complies with the guidelines of the following mandate(s):
PENDING

Course Description: This 16-hour train-the-trainer program is designed to instruct officers in the legal, policy, and tactical issues related to the lawful and justifiable use of force in the course of police duties. This program will cover mandated State of Illinois use of force objectives and expand upon them.

Human performance science related to high stress response will be studied so that students might better understand how and why officers respond and make high-speed decisions during critical incidents.

Review of applicable federal and state statutes, case law, and policies will provide student officers with the knowledge needed to return to their respective agencies and develop effective courses of on-going study and instruction for all officers as required by the Police and Community Relations Improvement Act and ILETSB policy regarding the certification of in-house use of force training programs.

Other use of force-related topics to be covered in this program include:

- Procedural justice, de-escalation, disengagement, tactical patience, and perception challenges
- Human performance as it relates to force use and judgement, including time framing, time to start/time to stop, perseveration, visual narrowing, inattention blindness, and memory challenges in violent events
- Pre-event preparation issues, including an overview of "Left of Bang" concepts & behavior analysis
- Force documentation, articulation, and the importance of story-telling techniques to accurately describe behavior

Students will be provided with study guide / handout materials and no cost access to a DropBox online library of pertinent legal decision, articles, policies, and videos so they can develop training programs for their individual agencies.

Yoga for First Responders

Joliet Park District Inwood Athletic Center

(Board Room - Enter through the Ice Arena doors)

3000 W. Jefferson St., Joliet, IL. 60435

Thursday, May 5, 2022

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- Officer Wellness/Mental Health 8.0 Hours

Course Description: This course uses tactical breath work, physical drills, and cognitive behavioral therapy resulting in optimal functioning of the entire psychophysiological system. This includes increasing mental toughness, enhancing tactical skills, preventing injury, self-deescalation, regulating the nervous system and more. The result of consistent training in YFFR Protocol will not only lead to better performance and stress management but an increase in mindful responses versus emotional reactions with interpersonal communication.

This course will introduce the trainee to the basic concepts of yoga, mindfulness, and resilience, functions of the brain and nervous system, as well as the principles of the YFFR Protocol that make it job-specific and culturally informed. Attendees will learn techniques to use right away along with resources to continue their training.

Course Objectives:

1. Explain yoga, its original intent, and address misconceptions.
2. Formulate the steps needed to practice mindfulness.
3. Outline the 3 Principles of Resilience Training.
4. Assess how a career in Law Enforcement can affect the mind, body, and nervous system.
5. Categorize the basic functions of the nervous system and stress response.
6. Conclude the missing skill set in Law Enforcement training.
7. Illustrate how yoga can train the Law Enforcement Officer to perform at his/her highest level of functioning for tactical performance and career longevity.
8. Compare how the YFFR Protocol differs from community yoga in western cultures.
9. Deduce how YFFR can be added into current Law Enforcement Training Standards.
10. Learn and practice the foundational techniques of YFFR protocol.
11. Distinguish which basic YFFR techniques can train the entire system to process stress effectively, build resilience actively, and enhance performance tactically.
12. Adopt YFFR techniques for improving body mechanics, neuromuscular efficiency, awkward shooting positions, breath control, and proprioception for tactical performance.
13. Decide when and how to use and adapt YFFR techniques for optimal value.
14. Understand how to implement YFFR as a consistent training tool personally or for your department.

Officers should wear clothing that they would normally wear during defensive tactics training, as there will be practical applications to the classroom instructions. This will take place on defensive tactics mats. Watch the attached videos for further:

Instructor: Cheryl Mabry is a 500-hr Certified Yoga teacher, and has been a life-long fitness practitioner and teacher, with a primary focus on Corporate Yoga since 2003. Cheryl's teachings are rooted in safe, effective techniques that honor mental and physical strength with self-awareness. (CONTINUED NEXT PAGE)

After spending years in gymnastics, powerlifting, cycling and strength training, and enduring a life threatening spinal injury...then surgery, Cheryl credits her resiliency to her Yoga practice and mindset training. Her deep desire to help those in the First Responder community began with her father, a Vietnam Veteran, and other extended family members that serve in local communities. After learning about Yoga For First Responders (YFFR) in August of 2018 from a recent Chicago Police Department (CPD) Academy grad, Cheryl began to research and follow YFFR. She completed her Instructor School Class 009 with YFFR in Seattle in 2019. She is currently serving as Fundraising Coordinator with YFFR and has been an active Instructor and speaker for YFFR since certifying. She recently was a Squad Leader for YFFR at Instructor School Class 014 at CPD and spoke at the ILEETA conference back in March of 2021. Cheryl engages in the YFFR Community weekly, and looks to future opportunities to learn and lead. Cheryl resides near Chicago, IL, and is deeply committed to sharing the benefits of the YFFR Protocol.

Emotional Survival for Law Enforcement

Plainfield Fire Protection District Headquarters

23748 W. 135th Street, Plainfield, IL. 60544

Friday; May 6, 2022

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Pending

Course Description:

This presentation is designed to assist law enforcement professionals by the development of behavioral strategies to inoculate against loss of idealism and inappropriate behavior patterns. It will review the short and long-term effects on law enforcement officers on both the personal and professional aspects of their lives. The course will discuss how the initial enthusiasm and desire to professionally contribute can be transformed into negative cynicism, social distrust and hostility to the world at large that significantly impacts the professionals work performance, decision-making and ultimately over-all quality of life. The goal of the course is to have the law enforcement professional review the potential impact the career causes in the personal life and to develop strategies for overall emotional survival. The strategies are designed to permit the professional to continue functioning effectively and ethically without "burning-out" and without resorting to emotional isolation from friends and colleagues.

The course addresses the dynamics that can transform within a matter of a few years, idealistic and committed officers/employees into cynical, angry individuals who begin having difficulties in both the personal and professional aspects of their lives. The course outlines the issues that can potentially see officers engaging in inappropriate behavior patterns and decision-making that leads to both administrative and, unfortunately in some officers, criminal difficulties. The purpose of the class is to provide information that lets the special assignment officer see how the deterioration process can take place and what specific preventative strategies can be employed.

Another goal of the course is to provide information that lets agencies keep officers committed and engaged in productive police work. The course also gives information to employees on how not to become a "self-perceived victim", a descriptor for an officer or employee that spends inordinate amounts of time resenting and resisting organizational and supervisory directive, as well as, suffering unnecessary destruction in the personal dimensions of their life.

This course is presented at all FBI LEEDS and Executive Development Institutes at the FBI Academy.

Instructor: Robert White is a former Deputy Chief with the Flagstaff, Arizona Police Department where he served in multiple line and command positions over his 31-year tenure.

He is a graduate of the FBI National Academy 167th Session and remains actively involved in National Academy Associates continuing educational development and with the Arizona Chiefs of Police Association. He holds both Bachelor's and Master's Degrees from Northern Arizona University. He is also a graduate of the Southwest Command College and the Arizona Regional Policing Institute. He has extensive experience instructing both law enforcement training sessions and at the University level in the area of management principles and customer service. (CONTINUED)

He is also a Leadership Development Instructor for the International Association of Chiefs of Police.

In addition to his law enforcement experience, he is a certified Fire Fighter. He has instructed on the topic of Emotional Survival for Law Enforcement and is an instructor on this topic with E-S Press, Inc. He resides in Flagstaff, Arizona.

Monday – Friday; May 16-20, 2022

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- | | |
|------------------------------|------------|
| • Civil Rights | 2.0 Hours |
| • Const. Use of LE Authority | 2.0 Hours |
| • Legal Updates | 16.0 Hours |

Course Description: The purpose of this course is to prepare law enforcement professionals to effectively instruct the SFST training program using the concepts and principles provided by the National Highway Traffic Safety Administration and the International Association of Chiefs of Police. The curriculum addresses the application of basic adult learning theory and the instruction skills needed to deliver this training.

In the SFST instructor-development training program, the principal participants are law enforcement officers who have demonstrated proficiency in the administration of the standardized field sobriety tests (SFSTs), and are actively involved in detecting and apprehending impaired drivers. Participants should be well versed and comfortable with the SFSTs, including the HGN test.

Primary reasons for attending this training are:

- a desire to develop or strengthen effective presentation skills.
- a desire to develop or strengthen skills as an SFST instructor.
- a desire to learn how to conduct interactive participant-centered training.
- a desire to become more familiar with the SFST curriculum available through NHTSA and the International Association of Chiefs of Police.

The most significant learning activities are the presentations made by the participants. The participants will use NHTSA course materials to prepare their practice teaching presentations. Participants are expected to become thoroughly familiar with content, learning activities, training aids, etc. related to delivery of the SFST course.

Instructors: Dave Christiansen (lead instructor), of the Dekalb County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash investigator. He will be assisted by various Law Enforcement Officers (active and retired) approved by the Illinois Law Enforcement Training and Standards Board.

Policing A Diversified America (The U Approach)

New Lenox Police Department
200 Veterans Parkway, New Lenox, IL. 60451
Monday; May 23, 2022
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):
PENDING

Purpose: Law enforcement officers today must understand the need to be educated in the differences that exist among the many cultures that we have in America. It is important that individuals who engage in law enforcement learn to understand and respect the differences among the many cultures today. This understanding will assist in enhancing the public perception of law enforcement and thus provide officers with the knowledge, skills and attitude necessary for dealing with cultural differences and thus enhance the professional image of today's law enforcement officers.

Course Description: Policing a Diversified America is a specialized course of study for law enforcement officers, who as part of their calls for service and proactive responsibilities, will likely encounter people that may be different from who they are and people who have different views on life. With this 8-hour training course officers will be able use the knowledge attained to better relate to a variety of cultures and communicate/interact effectively through understanding.

The key components of this course will cover the following:

- The definition of culture and the many types of cultures that exist today in America.
- The history of cultural tensions in America
- The mental conditioning of bias
- Discussion on cultural stereotyping
- Presumptions about Law Enforcement and Culture
- Controversies involving the excessive use of force
- The Civil Rights Act
- Laws Governing Racial Profiling
- Case Laws Involving Law Enforcement and Bias
- Effective Communication Through Understanding

About the Instructor: The course will be conducted by Traneil Thomas. Traneil is currently a Sergeant and former detective with over 20 years of Law Enforcement experience. Traneil is also a Marine Corps Veteran and holds a Bachelor's Degree in Criminal Justice. He is currently the CEO and Owner of Trained Ready Armed Defense Training & Consulting; he is also the owner of Trained Ready & Armed Apparel. Traneil grew up on the south-side of Chicago and is well versed in both urban and suburban lifestyles.

Course Description: Dave "J.D. Buck Savage" Smith first presented **The Winning Mind™** in 1987. Since then it has evolved into one of the most remarkable training experiences that law enforcement personnel will ever attend. By looking at the key components of peak performance, including who wins and why, the roles that optimism, risk and bureaucracy play in our personal and professional lives, and how individuals and organizations can make themselves truly resilient, Dave presents an entertaining & inspiring program designed to help everyone, regardless of their experience, optimize their odds of **winning** any confrontation.

The Winning Mind is updated continuously and always customized for the audience when it is presented. In his unique, energetic style, Dave Smith and his wife Sgt. Betsy Smith will give men & women the mental edge they need to not only face threats on the street but also manage the stresses they may confront in their daily lives, both on and off duty. In this multi-media session, Dave and Betsy will discuss:

- What makes someone a "winner?"
- Why "survival" is minimalistic, and we must train to WIN!
- The true role of "Warrior Ethos" in the police profession
- Understanding the role beliefs play in winning • What is true "optimism?"
- The "Truth About Gender Differences" in all aspects of your life
- What training really works and why
- The science of Crisis Decision Making
- The "Not Today" mindset, every day, on every shift
- Law Enforcement's Role in Preserving a Free Society
- Preventing panic, the "archenemy of survival"
- Being truly resilient after a setback!

This course is perfect for everyone working in a public safety organization regardless of rank, experience or assignment. Dave Smith's The Winning Mind has something for everyone!

ARIDE

Advanced Roadside Impaired Driving Enforcement

Orland Park Police Department

15100 S. Ravinia Ave., Orland Park, IL. 60462

Wednesday & Thursday; June 1-2, 2022

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- | | |
|--|---------------------------------------|
| • Civil Rights | 10.0 Hours (3.0 Hours Scenario-Based) |
| • Const. Use of L.E. Authority | 2.0 Hours |
| • Legal Updates | 4.0 Hours |
| • Advanced Roadside Impaired Driving Enforcement (ARIDE) | 16.0 Hours (3.0 Hours Scenario-Based) |

Course Description: The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police (IACP) Technical Advisory Panel (TAP) and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers that have not received advanced or in-service training regarding drug impairment tend to not be able to identify these characteristics; therefore, they will release an impaired driver. Once an officer completes the training he/she will be more proficient with the 3 battery of tests (HGN, WAT, OLS), as well as a broader knowledge of drug impairment indicators. The law enforcement officer will also be more familiar with the DRE program and its function. This will facilitate better communication and transfer of critical roadside indicators of impairment to the evaluating DRE officer for a more complete and accurate assessment of the impairment.

ARIDE is a 16-hour training course taught by DRE instructors or SFST instructors who are also DREs. The training will be conducted under the control and approval of the DEC Program state coordinator. This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem. The following topics are discussed and/or delivered in detail throughout the entire curriculum:

- Update of Standardized Field Sobriety Testing Battery
- How drug impaired driving affects our community
- SFST Proficiency Examination
- Drugs in the human body and the impairing effects they may have
- Seven categories of drugs identified by the DEC Program
- Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement
- Provide an expanded knowledge of prosecuting drug impaired drivers to prosecutors and courts

Much of the classroom training is devoted to hands-on practice.

Instructors: Dave Christiansen (lead instructor), of the Dekalb County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash investigator. Ari Briskman (co-instructor), of the Lake County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash reconstructionist.

Bloodstain Evidence Workshop

Plainfield Police Department
14300 Coil Plus Dr., Plainfield, IL. 60544
Thursday; June 2, 2022
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s): PENDING

- | | |
|------------------------------|-----------|
| • Const. Use of LE Authority | 3.0 Hours |
| • Procedural Justice | 1.0 Hour |
| • Lead Homicide Investigator | 8.0 Hours |

Course Description: The goal of this program is to provide investigators with the skills necessary to identify, document, collect, and preserve bloodstain evidence and effectively integrate it into their cases. It provides the foundation for investigators to identify, document, collect, and handle bloodstain evidence in any criminal case. Students will be given detailed explanations of the most up-to-date, scientifically sound methods for identifying, documenting, and collecting bloodstain evidence encountered by law enforcement crime scene service units. It will build upon basic blood evidence training students receive in standard 40 Hour Basic Evidence Technician courses and will introduce advanced methods for interpreting and processing such evidence.

The lecture portion of this program is minimal so students can maximize time spent on hands-on exercises meant to build upon practical skills that will be immediately applicable on the job.

Topics to be addressed include:

- Safety precautions to be taken when working with bloodstain evidence
- Identifying bloodstain evidence
- Documenting bloodstain evidence (through photography and sketching)
- Photographing bloodstain evidence
- Sketching bloodstain evidence
- Chemical enhancement of bloodstain evidence
- Collecting blood stain evidence

Upon completion of this program students will have an enhanced awareness of how bloodstain evidence provides information as to types of weapons used, minimum number of blows struck, movement before and after bloodshed, and victim / offender positions before, during and after bloodshed.

STUDENTS MUST BRING A DEPARTMENT-ISSUED CAMERA WITH MACRO LENS, THE INSTRUCTIONAL MANUAL FOR THE CAMERA, A TRIPOD, ELECTRONIC FLASH, SYNC CORD, CABLE RELEASE, MEMORY CARD, FLASHLIGHT, AND A SCIENTIFIC CALCULATOR TO CLASS. MOST SMART PHONES HAVE A SCIENTIFIC CALCULATOR APP.

Instructor: This course will be taught by Michael Kirby (Inverness P.D.-retired).

Scott Pickett, CFI retired from the Department of Homeland Security with more than 32 years of local and Federal law enforcement experience. He started his career as a Dallas Police Officer and was a full-time SWAT officer in the department's Special Operations Section. During his time at the Dallas Police Department, Scott responded to and participated in approximately 100 homicide and death investigations obtaining confessions and witness statements. Scott then accepted a special agent position with the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF). He was assigned to an organized and violent crime group focusing on Jamaican Posse members, outlaw motorcycle gangs, and violent Colombian narcotics traffickers. As a special agent and supervisor at several ATF field offices and Headquarters, Scott conducted many complex investigations, interviews, and interrogations which resulted in the task force clearing 12 homicides in the United States and Jamaica. His experience investigating Colombian drug traffickers resulted in witness statements being obtained leading to the clearance of three homicides. As the supervisor for a violent crime taskforce, Scott provided leadership and oversight to task force members responding to and solving several bombing cases including a cold case bombing. In the cold case, numerous interviews had to be conducted soliciting new details to the investigation. This case resulted in a successful prosecution and murder conviction. After the attacks on September 11th, Scott transferred to the Department of Homeland Security's Federal Air Marshal Service (FAMS) as a supervisor. He helped open the Cincinnati Field Office and later transferred to the Cleveland Field Office as the Assistant Special Agent in Charge. Scott was promoted and transferred to FAMS Headquarters where he was the Special Agent in Charge of the FAMS Investigations Division. He then transferred to the Chicago Field Office and served as the Assistant Supervisory Air Marshal in Charge for more than three years before retiring in 2016. Scott has been an international speaker, a member of a United Nations working group, a presenter at INTERPOL, and an instructor at numerous domestic firearms trafficking seminars. Scott earned a Bachelor of Science Degree in Police Administration from Eastern Kentucky University and a master's degree in Homeland Security and Defense from the Naval Postgraduate School.

Jeffrey J. Pavletic is an award-winning trial attorney who has built a reputation of integrity and exceptional skill in the courtroom. As a prosecutor for the past two decades, he has tried countless cases to victory (including approximately 150 jury trials with a concentration in homicide and violent crime). In addition to trying some of the highest profile and complex cases that have occurred in the history of Northern Illinois, Jeff was Chief of the Felony Review Division, and is currently the First Assistant State's Attorney for the Lake County (Illinois) State's Attorney's Office. Jeff served as Special Counsel to the U.S. House of Representatives Judiciary Committee in the impeachment of President Clinton. His duties included all aspects of independent counsel review, the impeachment inquiry, presentation of articles of impeachment to the U.S. House of Representatives, all witness interviews and depositions of trial witnesses, and the actual impeachment trial before the U.S. Senate. Jeff has received numerous federal, state, and local awards. These include Illinois State Crime Commission's State's Attorney of the Year, Felony Trial Attorney of the Year, The Fred L. Foreman Criminal Justice Award, The Ruth Rosengarden Victim Service provider Award, and a special U.S. House of Representatives Award presented by Congressman Henry Hyde. Jeff has been featured on 20/20, The Today Show, Good Morning America, Court TV, and the Discovery Channel. Jeff is a published author and a well-respected legal instructor who holds undergraduate and graduate faculty positions and has received accolades as a nationally renowned lecturer, training thousands of police officers, lawyers, prosecutors, and judges.

Illinois General Explosives Recognition and Requirements

New Lenox Police Department

200 Veterans Parkway, New Lenox, IL.60451

Wednesday; June 15, 2022

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):
PENDING

Course Description: This is a one day 8-hour class being provided by the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. The class will provide hands on education for recognizing the different types of high/low explosives and their requirements at both the State of Illinois level, as well as the BATFE (Federal) level. In addition to general explosive recognition, the specifics and differences of consumer fireworks (1.4) vs. professional grade fireworks (1.3G) and the laws that pertain to them will be discussed in great detail.

This class is being provided by the IDNR to help educate law enforcement and to provide direct assistance, on scene, when dealing with explosive situations. The IDNR regulates / investigates high and low explosives including 1.1, 1.2, 1.3, and 1.5. Too many times law enforcement does not have the education to know how to identify an explosive and/or if a bomb squad needs to be called. Bomb Squads, Explosives Breaching SWAT Teams, and BOMB Dog Handlers already possess the IL Individual Explosives License. The IDNR must be notified immediately upon any recovery of a regulated explosive and/or device to pursue the information necessary for enforcement.

If the Officer and their respective department so desire; after completing the class and passing the exam they can receive an IL IDNR Individual Explosives License, to be used in association with their law enforcement duties. A random monthly bank of test questions will be administered at the end of the class which will consist of 50 questions that will be multiple choice and/or True-False. Each officer receiving the license will fill out an application and must pass the test with an 80% or higher. Officers who do not pass the test will be provided an opportunity to retest in the near future.

- **Licensing is recommended but not required to attend.**

There are eight chapters covered in the presentation and each officer will be provided a packet of information from the IDNR consisting of a copy of the IL Explosives Act, the Admin Codes that Apply to the Act, a general explosives safety packet, a packet for note taking as the presentation is given, and a small 4-page packet for officers to keep available as a quick reference guide for explosive identification purposes, while on duty.

Continued on next page:

Key topical areas to be addressed include the following:

- Illinois Explosives Act
- Explosive Storage Requirements-Law Enforcement and Non-Law Enforcement
- Explosives Safety/Recognition/Handling (m-devices, homemade sticks, etc.)
- Fireworks- 1.3G low explosives (professional fireworks) vs 1.4 low explosives
- Enforcement of 1.3G vs. 1.4 and their requirements

Instructor:

The instructor for this class is Nick Sterling who currently is a Specialist/Inspector/Investigator for the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. Mr. Sterling's current territory includes Cook, Lake, McHenry, DuPage, Kane, Kendall, Gundy, and Will Counties. Sterling has been with the Department for four years and inspects/investigates all explosive storage facilities (Law enforcement and Non-Law Enforcement), explosives accidents, explosives incidents, and performs random checks/investigations on both licensed and unlicensed individuals. Sterling has 18 years of high explosives experience and teaches the IL Individual Explosives License Class on a regular basis. Over the past few years Mr. Sterling has noticed a lack of education when law enforcement agencies are dealing with explosives related issues, and hopes to help prevent these issues in the future through education and assistance.

Vehicle Dynamics

Students must have successfully completed Crash Investigation 1 and Crash Investigation 2

Frankfort Police Department

20602 Lincoln-Way Lane, Frankfort, IL 60423

Monday- Friday, June 20-24, 2022

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

PENDING

Course Description:

Learn the mathematics and laws of physics required for Traffic Crash Reconstruction 1 & 2. This course teaches the motion of bodies and the actions of forces that produce or change that motion (dynamics) as applied to crashes. Students learn the classical mechanics equations of motion, drag factor, and friction and acceleration coefficients. Vehicle Dynamics also introduces the methodology for estimating vehicle speeds based on flips, vaults, and sideslips and teaches the differences between force, momentum, and energy in crash investigation/reconstruction.

This course provides an introduction to basic mathematical procedures and the basic laws of physics necessary for those who wish to attend Traffic Crash Reconstruction 1 and Traffic Crash Reconstruction 2.

Vehicle Dynamics involves a considerable amount of physics and mathematics. Prospective students should have successfully completed a high school physics course as well as high school level algebra, geometry, and trigonometry.

Course Topics:

- Newton' Laws of Motion
- Coefficient of friction and drag factor
- Introduction to basic motion equations – velocity, time, acceleration, and distance
- Speed estimates using flip/vault, fall and sideslip equations
- Momentum – collinear (in-line)
- Energy and skidding, kinetic energy, and velocity estimates
- Speed estimates from irregular skid marks

Course Materials: All students must bring the following:

- Small pair of scissors
- Scientific calculator with square root key
- Mechanical Pencils
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed

*Students may use calculators and electronic communication devices in class; however, possession/use of electronic communication devices during closed-book quizzes and exams is prohibited.

Instructor (s): Course instructor(s) are provided by *NUCPS*.

Member Tuition: None*

Non-Member Tuition: \$900.00*

*Initial registration will be limited to Tri-River member agencies; a waiting list will be established for non-members. A limited number of seats are available. All agencies may be limited as to the number of attendees allowed to initially register and attend.

Sexual Assault Investigator Training (Day-2)

Attendees must have previously completed the Initial Responders 8-hour in person or 8-hour online class to attend

Joliet Police Department

150 W. Washington St., Joliet, IL. 60432

(Park on the hill to the west of the P.D., but not against the river)

Wednesday; June 22, 2022

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

• Civil Rights	0.5 Hour
• Const. Use of LE Authority	0.5 Hour
• Cultural Competency	0.5 Hour
• Human Rights	0.5 Hour
• Legal Updates	0.5 Hour
• Procedural Justice	0.5 Hour
• Psychology of Domestic Violence	1.0 Hour
• Sexual Assault Trauma Informed Response	4.0 Hours
• Lead Homicide Investigator	8.0 Hours
• Sexual Assault Investigator Training	8.0 Hours

Course Description: This course will meet all the requirements of the Sexual Assault Incident Procedure Act (Public Act 099-0801) which was enacted January 1, 2017. This Act requires all agencies employing law enforcement officers who conduct sexual assault and abuse investigations be required to provide specialized training within 2 years (January 1, 2019) of the effective date of this act. The act also requires that agencies present training to all law enforcement officers who are initial responders within 3 years (January 1, 2020) of the effective date of this act.

Instructor: Commander John Arizzi has worked for the Lockport Police Department since 2005. He is the Investigations Commander and currently serving as a Division Commander in the Will/Grundy Major Crimes Task Force. John is a former Deputy Director of the Metro Area Narcotics Squad and has worked undercover for both state and federal authorities. John is also an FBI certified crisis negotiator and served on the Will County SWAT team. John holds a Bachelor's Degree in Criminal Justice from Benedictine University.
