8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

|----------------------|-----------|
| • Legal Updates      | 3.5 Hours |
| • Procedural Justice | 2.0 Hours |

**Course Description:** This is a one day 8-hour class being provided by the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. The class will provide hands on education for recognizing the different types of high/low explosives and their requirements at both the State of Illinois level, as well as the BATFE (Federal) level. In addition to general explosive recognition, the specifics and differences of consumer fireworks (1.4) vs. professional grade fireworks (1.3G) and the laws that pertain to them will be discussed in great detail.

This class is being provided by the IDNR to help educate law enforcement and to provide direct assistance, on scene, when dealing with explosive situations. The IDNR regulates / investigates high and low explosives including 1.1, 1.2, 1.3, and 1.5. Too many times law enforcement does not have the education to know how to identify an explosive and/or if a bomb squad needs to be called. Bomb Squads, Explosives Breaching SWAT Teams, and BOMB Dog Handlers already possess the IL Individual Explosives License. The IDNR must be notified immediately upon any recovery of a regulated explosive and/or device to pursue the information necessary for enforcement.

If the Officer and their respective department so desire; after completing the class and passing the exam they can receive an IL IDNR Individual Explosives License, to be used in association with their law enforcement duties. A random monthly bank of test questions will be administered at the end of the class which will consist of 50 questions that will be multiple choice and/or True-False. Each officer receiving the license will fill out an application and must pass the test with an 80% or higher. Officers who do not pass the test will be provided an opportunity to retest in the near future.

➤ **Licensing is recommended but not required to attend.**

There are eight chapters covered in the presentation and each officer will be provided a packet of information from the IDNR consisting of a copy of the IL Explosives Act, the Admin Codes that Apply to the Act, a general explosives safety packet, a packet for note taking as the presentation is given, and a small 4-page packet for officers to keep available as a quick reference guide for explosive identification purposes, while on duty.

Continued on next page:

**Key topical areas to be addressed include the following:**

- Illinois Explosives Act
- Explosive Storage Requirements-Law Enforcement and Non-Law Enforcement
- Explosives Safety/Recognition/Handling (m-devices, homemade sticks, etc.)
- Fireworks- 1.3G low explosives (professional fireworks) vs 1.4 low explosives
- Enforcement of 1.3G vs. 1.4 and their requirements

**Instructor:**

The instructor for this class is Nick Sterling who currently is a Specialist/Inspector/Investigator for the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. Mr. Sterling's current territory includes Cook, Lake, McHenry, DuPage, Kane, Kendall, Grundy, and Will Counties. Sterling has been with the Department for four years and inspects/investigates all explosive storage facilities (Law enforcement and Non-Law Enforcement), explosives accidents, explosives incidents, and performs random checks/investigations on both licensed and unlicensed individuals. Sterling has 18 years of high explosives experience and teaches the IL Individual Explosives License Class on a regular basis. Over the past few years Mr. Sterling has noticed a lack of education when law enforcement agencies are dealing with explosives related issues, and hopes to help prevent these issues in the future through education and assistance.

## Course Description:

### Recruiting

#### *Recruiting with Diversity in mind*

The goal of the recruiting component is to identify and attract talent from a diverse pool and to ensure that every candidate is treated fairly throughout the hiring process. Most recruiters focus on identifying and attracting talent for the organization. However, the recruiting manager must be equally concerned that once talented candidates are identified – especially diverse candidates – they have a rewarding experience in their interactions with the organization. They must ensure that the application and screening processes are bias-free.

### Hiring

#### *Define your process in a policy...Protect yourself!*

Partners in the process: buy in from your city/county HR department and ask them to assist you! Proctor the process so that it is fair and unbiased. Review your plans with them. Treat HR as your ally not the enemy. Community Involvement – if your agency has issues with the appearance of not being fair, ask your community leaders to become involved.

### Retention

Many recruiting managers believe their job is complete when new diverse candidates are hired. However, when you consider that organizations often spend tens of thousands of dollars to hire a single candidate, retention can be essential to the financial bottom line. Therefore, it is important for the recruiting manager to ensure their organization has strong on-boarding (orientation), mentoring, employee development and career counseling processes. In addition, the manager should assess the need for employee support groups and recommend the creation of ones deemed necessary.

### Background Investigations

Background investigators must be knowledgeable about all applicable local, state, and federal fair employment laws. They must be conversant in the legal requirements for appointment to the positions in question. They must heed all agency policies, practices, and operational limitations.

**(continued)**

They must base their inquiries and evaluations on candidate behaviors that have a direct relationship to the requirements and demands of the position, and they must do so with consistency and without bias. They must be able to articulate the information gathered from a wide variety of sources and how it is used in determining candidate suitability.

How do we treat a background investigation: Treat this process as you would any investigation, it is confidential, do not talk about this with anyone that does not have a need to know. Speak only to your supervisor or another investigator should you require advice or counsel on information developed.

**Instructor: Harvey Finkel** served 14 years with the City of Charlottesville Police Department retiring in 2015 as a Master Police Officer. Harvey participated in over 60 hiring processes with the Charlottesville Police Department coordinating all phases from application to on boarding for new employees. He has experience as a recruiter, Hiring Manager and Background Investigator. For 10 years Harvey held a Crime Prevention Specialist (CPS) certification in Virginia which included qualification as a General Instructor. He taught Crime Prevention with the Virginia Crime Prevention Association and assisted the Virginia Department of Criminal Justice Services as an instructor for their Basic Crime Prevention course. A frequent instructor with the regional police academy both at their basic Law Enforcement Academy and for the In-Service Program required for LEO continuing certification. Harvey holds an instructor certificate from the National Rifle Association for 3 curriculums.
