~~This course complies with the guidelines of the following mandate(s):
Use of Force | Constitutional & Proper Use of LE Authority~~

~~**Course Description:** Historically, the focus of officer safety has been on the dangers posed by violent criminals, but this has changed with the ever increasing risk of terrorist attacks in America. While officers must still make officer safety a high priority, their primary emphasis must be on taking swift action to stop the killing when dealing with terrorist attacks, which necessitates the taking of greater risks than before. At the same time, they must never lose sight of the importance of effectively controlling violent individuals while carefully guarding against the use of excessive force. This makes it more important than ever for officers to possess the appropriate mindset. Through the extensive use of case studies and classroom participation, this course demonstrates how they can develop the mental tools they need to take appropriate action in the event of a terrorist attack, while also remaining mentally prepared to control violence in a manner that reduces the risk of unnecessary force.~~

~~At the conclusion of the training, the officer will be able to:~~

- ~~1. Explain how winners plan for violent encounters~~
- ~~2. Explain why it is important to train realistically.~~
- ~~3. List at least four ways that mental flexibility can be enhanced.~~
- ~~4. List at least four ways to improve decision making under stress~~
- ~~5. List and explain the five basic principles for close quarters use of the handgun.~~
- ~~6. List at least three means for detecting an ambush.~~
- ~~7. List at least three tactical principles related to responding to terrorist attacks when off duty.~~
- ~~8. Analyze at least one lethal police encounter, and then present at least three learning points that — can be learned from the incident.~~

~~**Instructor:** Brian McKenna is the owner of WINNING EDGE TRAINING and its sole instructor. He recently retired after 30 years with the Hazelwood (MO) Police Department. At the time of his retirement, he was assigned to the patrol division as a shift supervisor (lieutenant), and also served as an in-service trainer and lead firearms instructor. He is a state certified police instructor and former academy instructor, and holds a Master's Degree in human resource development.~~

~~Brian writes extensively on officer safety topics, and authors Law Officer Magazine's Officer Down column, a regular feature that analyzes officer involved shootings for key learning points. This experience gave Brian the opportunity to conduct in-depth research into the dynamics of armed encounters and the most effective ways to control them. WINNING EDGE TRAINING is the culmination of this research, packed into training that uses the power of case studies, proven adult learning principles, and a dynamic presentation style to teach officers how to control violent encounters with the proper level of force.~~
