# Peer Support for Public Safety Agencies

New Lenox Police Department

8:00am – 4:00pm

**Please note this course is intended for department members whose respective agencies currently have or are in the process of developing a Peer Support Team.**

This course complies with the guidelines of the following mandate(s):  
Human Rights | Procedural Justice | Officer Wellness

**Course Description:** This 5 day, 40-hour program has been developed for entry-level participants who have been chosen as peer support team members and is consistent with accepted industry standards, guidelines for peer support as proffered by the International Association of Chiefs of Police, and reviews of other law enforcement programs and peer support as a discipline. Content is heavily influenced by previous experiences in peer support, crisis hotline training, and related behavioral sciences. The overall philosophy is that peer support comes from within the peer support team member, from his or her own experiences, and from the recognition of one's own feelings. This provides the starting point for understanding crisis, stress, suicide, bereavement, crisis communication skills, the model known as Critical Incident Stress Debriefing, boundaries, confidentiality, and other pertinent information to prepare the team member to intervene in a personal crisis and/or critical incident. Lecture, discussion, personal introspection, sharing and intense role-playing exercises are the methods generally utilized in this training. Critiques from over 500 past participants have supported this training as the definitive starting point for a peer support team member.

## Topics to be addressed include:

- What is peer support?
- The Peer Intervention Model
- The Nature of Crisis
- Crisis Communication Skills
- DSM IV & the Relationship with Trauma
- Understanding Suicide
- Cynicism
- Resiliency
- Setting Limits
- Retirement Issues
- Death & Dying

**Lead Instructor:** William Hogewood is a veteran of 49 years in law enforcement with Prince George's County, Maryland, joining in 1969, and the Bureau of Alcohol, Tobacco, and Firearms for 10 years. His company, Crisis Associates LLC, presents peer support and other behavior sciences programs tailored to the needs of clients. He is also involved in Crisis Negotiation Training stateside and in other countries. Mr. Hogewood has been involved in training others since 1980 with his department, the local Community Crisis Center, private corporations, and the U.S. State Department Anti-Terrorism Assistance Program. ### **~~Advanced Roadside Impaired Driving Enforcement~~**

Will County Sheriff's Office  
16911 W. Laraway Rd., Joliet, IL 60433  
Monday & Tuesday; June 28 & 29, 2021  
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):  
Civil Rights | Const. Use of LE Authority | Human Rights | Legal Updates

**~~Course Description:~~** The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police (IACP) Technical Advisory Panel (TAP) and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers that have not received advanced or in-service training regarding drug impairment tend to not be able to identify these characteristics; therefore, they will release an impaired driver. Once an officer completes the training he/she will be more proficient with the 3-battery of tests (HGN, WAT, OLS), as well as a broader knowledge of drug impairment indicators. The law enforcement officer will also be more familiar with the DRE program and its function. This will facilitate better communication and transfer of critical roadside indicators of impairment to the evaluating DRE-officer for a more complete and accurate assessment of the impairment.

ARIDE is a 16-hour training course taught by DRE instructors or SFST instructors who are also DREs. The training will be conducted under the control and approval of the DEC Program state coordinator. This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem. The following topics are discussed and/or delivered in detail throughout the entire curriculum:

- ~~Update of Standardized Field Sobriety Testing Battery~~
- ~~How drug impaired driving affects our community~~
- ~~SFST Proficiency Examination~~
- ~~Drugs in the human body and the impairing effects they may have~~
- ~~Seven categories of drugs identified by the DEC Program~~
- ~~Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement~~
- ~~Provide an expanded knowledge of prosecuting drug impaired drivers to prosecutors and courts~~

Much of the classroom training is devoted to hands-on practice.

**~~Instructors:~~** Dave Christiansen (lead instructor), of the Dekalb County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash investigator. Anthony Ikis, of the River Grove Police Department, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor.

# Illinois General Explosives Recognition and Requirements

Grundy County Administration Center (EOC)

1320 Union St., Morris, IL

Tuesday; June 22, 2021

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s): Law Updates

**Course Description:** This is a one day 8-hour class being provided by the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. The class will provide hands on education for recognizing the different types of high/low explosives and their requirements at both the State of Illinois level, as well as the BATFE (Federal) level. In addition to general explosive recognition, the specifics and differences of consumer fireworks (1.4) vs. professional grade fireworks (1.3G) and the laws that pertain to them will be discussed in great detail.

This class is being provided by the IDNR to help educate law enforcement and to provide direct assistance, on scene, when dealing with explosive situations. The IDNR regulates / investigates high and low explosives including 1.1, 1.2, 1.3, and 1.5. Too many times law enforcement does not have the education to know how to identify an explosive and/or if a bomb squad needs to be called. Bomb Squads, Explosives Breaching SWAT Teams, and BOMB Dog Handlers already possess the IL Individual Explosives License. The IDNR must be notified immediately upon any recovery of a regulated explosive and/or device to pursue the information necessary for enforcement.

If the Officer and their respective department so desire; after completing the class and passing the exam they can receive an IL IDNR Individual Explosives License, to be used in association with their law enforcement duties. A random monthly bank of test questions will be administered at the end of the class which will consist of 50 questions that will be multiple choice and/or True-False. Each officer receiving the license will fill out an application and must pass the test with an 80% or higher. Officers who do not pass the test will be provided an opportunity to retest in the near future.

➤ **Licensing is recommended but not required to attend.**

There are eight chapters covered in the presentation and each officer will be provided a packet of information from the IDNR consisting of a copy of the IL Explosives Act, the Admin Codes that Apply to the Act, a general explosives safety packet, a packet for note taking as the presentation is given, and a small 4-page packet for officers to keep available as a quick reference guide for explosive identification purposes, while on duty.

Continued on next page:

**Key topical areas to be addressed include the following:**

- Illinois Explosives Act
- Explosive Storage Requirements-Law Enforcement and Non-Law Enforcement
- Explosives Safety/Recognition/Handling (m-devices, homemade sticks, etc.)
- Fireworks- 1.3G low explosives (professional fireworks) vs 1.4 low explosives
- Enforcement of 1.3G vs. 1.4 and their requirements

**Instructor:**

The instructor for this class is Nick Sterling who currently is a Specialist/Inspector/Investigator for the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. Mr. Sterling's current territory includes Cook, Lake, McHenry, DuPage, Kane, Kendall, Gundy, and Will Counties. Sterling has been with the Department for four years and inspects/investigates all explosive storage facilities (Law enforcement and Non-Law Enforcement), explosives accidents, explosives incidents, and performs random checks/investigations on both licensed and unlicensed individuals. Sterling has 18 years of high explosives experience and teaches the IL Individual Explosives License Class on a regular basis. Over the past few years Mr. Sterling has noticed a lack of education when law enforcement agencies are dealing with explosives related issues, and hopes to help prevent these issues in the future through education and assistance.

## **Course Description:**

Recent events have placed police officers and the public they serve in the national spotlight in the news, on the internet, and in Federal and local court. These events usually start as encounters for minor traffic stops, petty ordinance violations, or disorderly conduct-based confrontations. Many of these non-arrest situations quickly escalate to physical, violent, and sometimes deadly force encounters. While the officers involved are acting properly and legally enforcing the laws they are sworn to uphold, day after judgments quickly become the focus.

This one-day seminar will help departments reduce citizen complaints based on perceived improper use of force incidents. Attendees will improve their verbal communication skills and recognize when an emotion-based rather than emotionally disability escalation is occurring. Officers will learn to explore alternative methods of safely and peacefully bringing a resolution to both the issue at hand and the reason for the encounter. This seminar will focus on everyday encounters with non-mentally impaired or disturbed individuals who are upset or agitated and may escalate the encounter based on anger issues and behavior. Officers will examine how to maintain scene and individual safety, and follow accepted personnel safety protocols. Participants will actively participate as both officers **and** subjects/offenders in some of the scenarios. This class is appropriate for CIT trained Officers, Patrol Officers, and Supervisors.

## **ATTENDEE COURSE GOALS:**

- Learn the difference between confrontation and response/conversation.
- Learn how to use disarming and de-escalation phraseology with subjects.
- Learn what inflammatory phraseology is and how to avoid it.
- Understand the difference between deflecting and accusing during encounters.
- Identify how and when perception from a distance can be interpreted.
- Learn to identify physiological cues and tells of subjects escalating to a physical response.
- Understand how body chemistry works (endorphins, adrenalin and dopamine, etc.).
- Review how to reduce negative public perception during encounters.
- Learn how to secure a scene for responder and public safety during encounters.
- Learn how to avoid purposeful escalation and negative public perception.
- Recognize physical tells of cluster behavior in incident escalation.
- Identify situations which may relate to domestic terrorism activities.

**Continued next page:**

This class will may employ air soft and non-lethal weapons. Officers will need to bring their duty belts and are encouraged to have either sweatshirts or long sleeve shirts available to wear.
