Standard Field Sobriety Testing Instructor School

Plainfield Police Department

14300 Coil Plus Drive, Plainfield, IL. 60544

Monday – Friday; June 1 – 5, 2020

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Const. Use of LE Authority | Legal Updates

Course Description: The purpose of this course is to prepare law enforcement professionals to effectively instruct the SFST training program using the concepts and principles provided by the National Highway Traffic Safety Administration and the International Association of Chiefs of Police. The curriculum addresses the application of basic adult learning theory and the instruction skills needed to deliver this training.

In the SFST instructor-development training program, the principal participants are law enforcement officers who have demonstrated proficiency in the administration of the standardized field sobriety tests (SFSTs), and are actively involved in detecting and apprehending impaired drivers. Participants should be well versed and comfortable with the SFSTs, including the HGN test.

Primary reasons for attending this training are:

- a desire to develop or strengthen effective presentation skills.
- a desire to develop or strengthen skills as an SFST instructor.
- a desire to learn how to conduct interactive participant-centered training.
- a desire to become more familiar with the SFST curriculum available through NHTSA and the International Association of Chiefs of Police.

The most significant learning activities are the presentations made by the participants. The participants will use NHTSA course materials to prepare their practice teaching presentations. Participants are expected to become thoroughly familiar with content, learning activities, training aids, etc. related to delivery of the SFST course.

Instructors: Lead instructor will be Tony Lebron (Retired M/Sgt; Illinois State Police). He will be assisted by various Law Enforcement Officers (active and retired) approved by the Illinois Law Enforcement Training and Standards Board.

Mental Preparation for Terrorist Attacks and Other Violent Encounters

Plainfield Police Department,
14300 S. Coil Plus Dr., Plainfield, IL. 60544

Tuesday; June 16, 2020
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):
Constitutional and Proper Use of Law Enforcement Authority | Use of Force

Course Description: Historically, the focus of officer safety has been on the dangers posed by violent criminals, but this has changed with the ever-increasing risk of terrorist attacks in America. While officers must still make officer safety a high priority, their primary emphasis must be on taking swift action to stop the killing when dealing with terrorist attacks, which necessitates the taking of greater risks than before. At the same time, they must never lose sight of the importance of effectively controlling violent individuals while carefully guarding against the use of excessive force. This makes it more important than ever for officers to possess the appropriate mindset. Through the extensive use of case studies and classroom participation, this course demonstrates how they can develop the mental tools they need to take appropriate action in the event of a terrorist attack, while also remaining mentally prepared to control violence in a manner that reduces the risk of unnecessary force.

At the conclusion of the training, the officer will be able to:

1. Explain how winners plan for violent encounters
2. Explain why it is important to train realistically.
3. List at least four ways that mental flexibility can be enhanced.
4. List at least four ways to improve decision making under stress
5. List and explain the five basic principles for close-quarters use of the handgun.
6. List at least three means for detecting an ambush.
7. List at least three tactical principles related to responding to terrorist attacks when off duty.
8. Analyze at least one lethal police encounter, and then present at least three learning points that can be learned from the incident.

Instructor: Brian McKenna is the owner of WINNING EDGE TRAINING and its sole instructor. He recently retired after 30 years with the Hazelwood (MO) Police Department. At the time of his retirement, he was assigned to the patrol division as a shift supervisor (lieutenant), and also served as an in-service trainer and lead firearms instructor. He is a state certified police instructor and former academy instructor, and holds a Master's Degree in human resource development.

Brian writes extensively on officer safety topics, and authors Law Officer Magazine's Officer Down column, a regular feature that analyzes officer-involved shootings for key learning points. This experience gave Brian the opportunity to conduct in-depth research into the dynamics of armed encounters and the most effective ways to control them. WINNING EDGE TRAINING is the culmination of this research, packed into training that uses the power of case studies, proven adult learning principles, and a dynamic presentation style to teach officers how to control violent encounters with the proper level of force.

CANCELLED ~~Peer Support for Public Safety Agencies~~

New Lenox Police Department
200 Veterans Parkway, New Lenox, IL 60451

Monday – Friday; June 29 – July 3, 2020

8:00am – 4:00pm

Please note this course is intended for department members whose respective agencies currently have or are in the process of developing a Peer Support Team.

This course complies with the guidelines of the following mandate(s):
Human Rights | Procedural Justice | Officer Wellness

Course Description: This 5 day, 40-hour program has been developed for entry-level participants who have been chosen as peer support team members and is consistent with accepted industry standards, guidelines for peer support as proffered by the International Association of Chiefs of Police, and reviews of other law enforcement programs and peer support as a discipline. Content is heavily influenced by previous experiences in peer support, crisis hotline training, and related behavioral sciences. The overall philosophy is that peer support comes from within the peer support team member, from his or her own experiences, and from the recognition of one's own feelings. This provides the starting point for understanding crisis, stress, suicide, bereavement, crisis communication skills, the model known as Critical Incident Stress Debriefing, boundaries, confidentiality, and other pertinent information to prepare the team member to intervene in a personal crisis and/or critical incident. Lecture, discussion, personal introspection, sharing and intense role-playing exercises are the methods generally utilized in this training. Critiques from over 500 past participants have supported this training as the definitive starting point for a peer support team member.

Topics to be addressed include:

- What is peer support?
- The Peer Intervention Model
- The Nature of Crisis
- Crisis Communication Skills
- DSM IV & the Relationship with Trauma
- Understanding Suicide
- Cynicism
- Resiliency
- Setting Limits
- Retirement Issues
- Death & Dying

Lead Instructor: William Hogewood is a veteran of 49 years in law enforcement with Prince George's County, Maryland, joining in 1969, and the Bureau of Alcohol, Tobacco, and Firearms for 10 years. His company, Crisis Associates LLC, presents peer support and other behavior sciences programs tailored to the needs of clients. He is also involved in Crisis Negotiation Training stateside and in other countries. Mr. Hogewood has been involved in training others since 1980 with his department, the local Community Crisis Center, private corporations, and the U.S. State Department Anti-Terrorism Assistance Program. He has a Master of Human Services degree from Lincoln University in Oxford, Pennsylvania.
