Crash Investigation 2

Frankfort Police Department

20602 Lincoln-Way Lane, Frankfort, IL 60423

Monday- Friday, February 1 – 12, 2021

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):
Civil Rights | Legal Updates | Const. Use of LE Authority | Lead Homicide Investigator

Course Description:

At scene traffic crash data collection is useful only if all appropriate information is collected and properly interpreted and analyzed. Participation in Crash Investigation 2 enhances the capability and credibility of the at-scene investigator.

Crash Investigation 2, based on the 2014 edition of J. Stannard Baker's world-renowned textbook Traffic Crash Investigation, emphasizes vehicle behavior in crashes, vehicle damage analysis and more advanced mapping and evidence location skills.

Crash Investigation 2 builds upon topics examined in Crash Investigation 1 and provides the student/investigator with greater knowledge of the information available at the crash scene and how to properly collect and initiate interpretation of that information.

The course also provides instruction in the use of laser-based measurement devices to measure crash scenes and the evidence found there. Laser Technology, Inc. units are used for these demonstrations. Downloading the electronic information into mapping programs is also covered.

Course Topics:

- Vehicle damage analysis - description, reporting and determination of direction of forces
- Vehicle behavior in crashes
- Results of the crash on the road - identifying and interpreting tire marks and road scars
- Lamp filament analysis - determining whether headlamps, tail lights and turn signals were on or off at moment of impact
- Tire damage analysis - role of tire failure
- Measurement methods - perspective grid, photogrammetry, measurement techniques, diagram drawing and systematic methods for organizing and illustrating data
- Interpretation of data - use of all information obtained through investigation
- Specialized data gathering - measuring devices and other testing
- Laser-based measurement and use of mapping software
- In addition to addressing how the latest generation of vehicle electronics - including data recorders, traction and stability controls, multiple airbags - affect both the crash and the crash investigation, specific new topics include:
 - hit-and-run investigations,
 - dealing with event data recorders
 - technical report writing and other emerging technologies

Continued on next page:

Course Materials: All students need to bring a laptop computer or other device with a USB port to the class. Student reference materials will be distributed in USB flash drives (files will accept electronic comments and highlighting and can be saved).

In all cases, please bring the following additional items to class:

- Comfortable outdoor clothing (likely to get dirty) for Week 2 outdoor projects
- Small pair of scissors
- Simple calculator with square root key
- Staedtler Geometry Compass
- Mechanical Pencils
- Triangles 45-45-90 and 30-60-90
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed
- **Traffic Crash Investigation, 11th Edition – All Crash Investigation 1 students receive a copy of the text. If necessary, a copy may be purchased online at nucps.northwestern.edu/crashbooks.**
- Students may use calculators and electronic communication devices in class; however, possession/use of electronic communication devices during closed-book quizzes and exams is prohibited.

Who Should Attend:

- Crash Investigation 2 is designed for those who analyze data collected by other crash investigators and who gather and analyze supplementary data.
- Crash Investigation 2 participants must have successfully completed NUCPS's Crash Investigation 1 or its equivalent

Course Outcomes: Officers/investigators who successfully complete Crash Investigation 2 develop skills in technically preparing crash investigation data and collecting follow-up data required by prosecutors, defense attorneys, claim adjusters, fleet supervisors, reconstructionists and highway safety engineers.

Instructor (s): Course instructor(s) are provided by *NUCPS*.

Member Tuition: None*

Non-Member Tuition: None*

*Initial registration will be limited to Tri-River member agencies; a waiting list will be established for non-members. A limited number of seats are available. All agencies may be limited as to the number of attendees allowed to initially register and attend.

This class is funded by the Illinois Department of Transportation through the Police Traffic Services Training Project and administered by the Illinois Law Enforcement Training & Standards Board.

Police & Minority Relations Webinar

Your Department
Tuesday; February 2, 2021
8:00 am till 12:00 pm

This course complies with the guidelines of the following mandate(s): Cultural Competency | Procedural Justice.

Course Description: Police and community relations will only improve with up-to-date training dealing with issues head-on. This live webinar will help officers identify and understand the problem, communicate more effectively with citizens, ensure compliance with federal & state laws, prepare for hostile encounters, and continue to engage in proactive policing without jeopardizing their safety. Information presented during this course is not designed to create an atmosphere of passive or reactive policing. When that approach is taken, the criminals win and wreak havoc in the community. In addition, it creates a more dangerous environment for police officers.

One of the most impactful steps to influencing change and promoting positive relations in a community is hiring the right officers, and diversity is the key. It's no secret that law enforcement is facing significant problems nationwide with interest in the profession. This block of instruction will include strategies to initiate recruitment from a more diversity-seeking approach, and citizen programs that help promote positive relations within the community.

Proven strategies to improve police and community relations across the country will be presented. The primary focus of this training is bridging the gap between law enforcement and the communities they serve while maintaining smart, aggressive strategies to deal with those that choose to violate the law.

Topics Covered:

- Effective Communication Techniques
- Principles for Promoting Police Integrity
- Diversity Recruitment Strategies to Bridge the Gap
- Initiating Citizen Programs
- Building Community Trust
- Identifying & Understanding the Problem
- Dealing with Critical Incidents

THIS IS A LIVE WEBINAR AND PUNCTUALITY IS IMPERATIVE.

Links to join the live webinar will be provided once your registration is confirmed.

Instructor: Byron Boston served twenty (20) years with Dallas Police Department before retiring in May 2017. He spent over fourteen (14) years in the Narcotics Division as an undercover officer. For five (5) years, Byron was assigned to the Federal Bureau of Investigation (FBI) as a Task Force Officer (TFO) to investigate transnational criminal organizations impacting the Southwest Border of the United States. These investigations involved drug trafficking, extortions, kidnappings, and homicides.

(Continued on next page)

Byron spent seven (7) years assigned to a Mid-level Undercover Enforcement Unit and was tasked with infiltrating violent drug trafficking organizations, posing as a large-scale drug trafficker. During those assignments, he rented undercover apartments and spent months gaining the trust and confidence of the targeted criminals. As a result of those investigations, over 200 gang members were arrested and convicted of various narcotic and firearm-related crimes. Byron's last undercover assignment involved investigating several drug-related overdose deaths involving North Texas teens. Byron and his partner were tasked with conducting an undercover operation to target the sources of those narcotics. Using unconventional undercover techniques, they were able to solve several overdose death cases and were ultimately nominated for the Dallas Police Officers of the year. During his fourteen (14) years in the Narcotic Division, Byron was also assigned to Tactical Narcotic Teams which were responsible for executing dynamic entry search warrants, vehicle assaults, and undercover officer extractions. Byron is currently a Reserve Dallas Police assigned to the Criminal Intelligence Unit and actively assisted Detectives with cell phone analysis, open source intelligence, digital search warrant preparation, and other investigative needs. He also continues to serve as a training officer within the Narcotic Division. Byron has been a national training instructor for over (10) years. During that time period he has trained thousands of military, federal, state, local, and tribal law enforcement officers from across the United States and Canada with exceptional reviews. Byron possesses a Master of Arts in Emergency Management and Homeland Security from Arizona State University.

Tactical De-escalation Techniques Webinar

Your Department

Wednesday; February 3, 2021

8:00 am till 12:00 pm

This course complies with the guidelines of the following mandate(s):

Cultural Competency | Procedural Justice | Use of Force

Course Description: Across the United States, police departments spend countless hours training officers on the use of force involving simple wrist locks and pressure points; chemical agents and physical strikes; and progressing to impact weapons and firearms. While this type of training is critical for all law enforcement officers, agencies must provide proper "Tactical De-escalation Techniques" to officers as well.

Regardless of an agency or officer's individual views of de-escalation tactics, it MUST be implemented into every police department's training program. Many officers believe that the use of de-escalation techniques will jeopardize their safety and place them at a tactical disadvantage. The proper use of de-escalation has the complete opposite effect. Statistics and studies will show that it increases officers' safety and places the officer in a more advantageous tactical position.

This live webinar will provide officers with the necessary tools to properly de-escalate a situation while maintaining a tactical mindset. Officers will learn effective techniques for communicating under stress without escalating a situation.

Practical, classroom-based scenarios will be presented to demonstrate these concepts. Information will also be presented on the development of reality-based, simulation training involving de-escalation techniques. This information will give officers a jump start on implementing de-escalation training within their own police departments.

Topics Covered:

- Understanding De-escalation
- Review of DOJ Mandates
- Communicating Under Stress
- Showing Empathy to Others
- Minimize Force Encounters
- Increase Officer Safety
- Reduction of Excessive Force Complaints
- Improving Public Perception
- Case Studies

THIS IS A LIVE WEBINAR AND PUNCTUALITY IS IMPERATIVE.

8-hour SFST Refresher

(Standardized Field Sobriety Testing)

JJC, Weitendorf Agricultural Education Center

17840 W. Laraway Rd, Joliet, IL 60433

Wednesday; February 10, 2021

8:00 am to 4:00 pm

GPS alert: use 1151 East Laraway Road 60433, neighbor of Ag. Center

This course complies with the guidelines of the following mandate(s):
Use of Force | Civil Rights | Const. Use of LE Authority | Legal Updates

Course Description: The purpose of this course is to increase deterrence of DWI violations, and thereby reduce the number of crashes, deaths and injuries caused by impaired drivers. As a result of this training, participants will become significantly better able to:

- Understand enforcement's role in general DWI deterrence.
- Understand detection phases, clues and techniques.
- Understand requirements for organizing and presenting testimonial and documentary evidence in DWI cases.
- Recognize and interpret evidence of DWI violations.
- Administer and interpret Standardized Field Sobriety Tests.
- Describe DWI evidence clearly and convincingly in written reports and verbal testimony.
- Understand the tasks and decisions of DWI detection.
- Know and recognize typical vehicle maneuvers and human indicators symptomatic of DWI associated with initial observations.
- Know and recognize typical reinforcing maneuvers and indicators that come to light during the stopping sequence.
- Know and recognize typical sensory and other clues of alcohol and/or other drug impairment that may be seen during face-to-face contact with DWI suspects.
- Know and recognize typical behavioral clues of alcohol and/or other drug impairment that may be seen during the suspect's exit from the vehicle.
- Understand the role and relevance of psychophysical testing in pre-arrest screening of DWI suspects.
- Know and carry out appropriate administrative procedures for validated divided attention psychophysical tests.
- Know and carry out appropriate administrative procedures for the Horizontal Gaze Nystagmus test.
- Know and recognize typical clues of alcohol and/or other drug impairment that may be seen during administration of the Standardized Field Sobriety Tests.

Instructors: Dave Schurr; Lieutenant (Ret.) with the Bolingbrook Police Department and Steven Sigler; Sergeant with the Illinois State Police.

***Postponed* D.A.R.E. Officer Training**

Plainfield Police Department

14300 Coil Plus Drive; Plainfield, IL 60544

Monday- Friday, February 15 – February 26, 2021

8:00 am till 5:00 pm

This course complies with the guidelines of the following mandate(s): Procedural Justice

Course Description: This 80+ hrs. training is required by D.A.R.E. America for certification of all new D.A.R.E. Instructors and provides successful graduates with authorization to deliver copyrighted D.A.R.E. curricula for elementary and middle school programs, parent and community programs, as well as several enhancement lessons. The focus of the training is to provide instructors with the skills necessary for successful classroom instruction and student learning.

The course is very intense and requires after training assignments to be completed each evening.

This two-week certification course is for candidates representing current D.A.R.E. participating agencies or agencies who will be implementing D.A.R.E. programs in their local communities for the 2020-21 school year. The fee is \$750 per candidate which includes registration fee, a light breakfast and lunch (M-F), instruction, and course materials.

All candidates will be responsible for their own dinner meal each day (and all meals over the weekend if necessary) as well as hotel and travel arrangements. Lodging is available at the Hampton Inn I-55, (Joliet North) call the hotel directly at 815-439-9500 or Home2 Suites 855-680-3239.

Participation in all sessions of the course, completion of all training objectives, and satisfactory skills performance is required for certification. There is no other entry-level D.A.R.E. Officer Training proposed for the remainder of the 2020 fiscal year in Illinois, so carefully project your needs. It is required that participants be certified law enforcement officers with two years of experience. Waivers to this requirement are possible and granted on a case by case basis upon request.

Upon official registration, an application package will be sent to the candidate. Applications and waivers must be completed and returned to Tri-River Police Training at training@tri-river.org or mailed to: Tri-River Police Training, 14300 Coil Plus Drive Plainfield, Il. 60544. Applications must be authorized by the requesting agency.

Final acceptance in the program is pending upon review of application, an acceptance letter will be sent with further instructions.

For more information contact Kim Giugler with DARE related questions at (815) 641-1525.

Instructors and Mentors: Will be supplied by the Illinois D.A.R.E. Officer's Association and D.A.R.E. America.

Member Tuition: \$750.00

Non-Member Tuition: \$750.00

Mental Health Awareness an Intro. to CIT Training

Morris Police Department

200 E. Chapin St., Morris, IL 60450

Tuesday; February 16, 2021

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s): Legal Update | Mental Health Awareness |

Human Rights | Procedural Justice | Use of Force | Officer Wellness

Course Description: Law enforcement officers have an important role to play in their interactions with community members. This means responding to incidents with individuals who have mental health issues, including diagnosed mental illness.

This 8-hour course, developed by the Illinois Law Enforcement Training & Standards Board, is meant to provide law enforcement officers with an awareness of mental health issues including a history of mental health systems, types of mental illness, signs and symptoms, common treatments & medications, and potential interactions law enforcement may have, on a regular basis, with these individuals, their families and service providers.

Topics covered will include:

- Prevalence of mental illness
- History & impact on law enforcement
- Common forms of mental illness likely to be encountered
- Signs & symptoms of mental illness
- Treatments & medications
- Suicide warning signs
- Police interaction models
- De-escalation strategies
- Involuntary admission process
- HIPPA & FERPA

Instructor: Lt. Troy Siewert has been with the Orland Park Police Department (OPPD) for over 28 years and holds a master's degree in criminal social justice from Lewis University. He is a certified CIT coordinator, CIT officer, crisis negotiator and Mental Health First Aid instructor as well as a CIT role play evaluator for the Illinois Law Enforcement Training and Standards Board. Troy started the OPPD Crisis Intervention Team (CIT) in 2015 and has developed the program into what is now recognized as a standard for best practice. He has been a guest speaker at multiple conferences and various local professional groups promoting CIT and the One Mind Campaign. Troy recently worked on a committee to update the International Chiefs of Police model policy for "Responding to Persons Experiencing a Mental Health Crisis."

Illinois DUI and IVC Legal Update

Will County Sheriff's Office

16911 W. Laraway Rd., Joliet, IL. 60433

Thursday; February 18, 2021

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):
Const. Use of LE Authority | Legal Updates

Course Description:

This course is design and instructed by an experienced and practicing assistant state's attorney to give police officers, first line supervisors and command level personnel a review and update in the area of DUI and many of the associated issues. In addition to the DUI update, recent legislation and case law involving other aspects of the Illinois Vehicle Code will also be examined.

Topics to be covered include:

- Updates on DUI/Traffic laws (both statutory and case law)
- Legal issues associated with fatal/life threatening crashes with and without evidence of impairment
- Summary suspension issues
- Trial and courtroom issues
- Chemical testing
- Updates on other issue pertaining to the Illinois Vehicle Code

Instructor: Deborah Mills had been a prosecutor for 19 years, 5 years with the Milwaukee District Attorney's Office and the remaining 13 years with the Will County State's Attorney's Office. Deborah served as the supervisor of the DUI/Traffic Unit in the Will County State's Attorney's Office since 2004 and has primarily prosecuted DUI/Traffic cases since 2004. She currently serves as a felony prosecutor. Additionally, Deborah has trained officers and prosecutors in both Illinois and Wisconsin on various DUI and traffic issues.

Enforcing Illinois Cannabis Laws 2021

Bourbonnais Police Department

700 Main St. NW, Bourbonnais, IL 60914

Tuesday; February 23, 2021

8:00 am to 4:00 pm

This course complies with the guidelines of the following mandate(s):
Civil Rights | Const. Use of LE Authority | Legal Updates

Course Description: The "Cannabis Regulation and Tax Act" as described in "Amendment to HB 1438", was signed into law by Governor Pritzker on June 25th, 2019. This legislation permits the cultivation, selling, and the adult use of cannabis, beginning January 1, 2020. The implementation of this legislation will have a tremendous effect on all aspects of law enforcement. The most profound impact will be on traffic safety. Illinois officers need to be trained to understand the legislation and to take appropriate action when required. This training will provide officers with a comprehensive review of laws concerning the enforcement of the Cannabis Regulation and Tax Act. Included in the training is an introduction into types of cannabis, possession, use, and cultivation. Training will include recognizing sign/symptoms of impaired drivers, and proficiency testing utilizing Non-standardized Field Sobriety Tests. The training will conclude with procedures for making a DUI cannabis arrest.

Upon Completion of this training officers will be able to:

- Describe the business organizations associated with the cannabis industry
- Describe categories, strains, extracts, and delivery systems of cannabis
- Describe possession and cultivation limits
- Describe the restriction and limitations for possession of adult use cannabis
- Recognize appropriate cannabis identification and cannabis containers
- Distinguish the three types of medical cannabis patients
- Describe the restriction and limitations for medical cannabis
- Summarize scientific research related to driving and cannabis usage
- Define executive functions and their relation to field sobriety tests
- Recognize the signs and symptoms of cannabis usage
- Summarize the effectiveness of Field Sobriety Testing
- Complete a proficiency exam on non-standardized field sobriety tests
- Recognize signs and symptoms associated with cannabis usage
- Describe the two Implied Consent provision associated DUI cannabis
- Describe the limitations of chemical testing

Course Goals: At the end of this eight-hour block of instruction officers will be able to:

1. Enforce laws concerning possession, use and cultivating cannabis.
2. Conduct non-standardized field sobriety testing and document sign/symptoms.
3. Make a DUI cannabis arrest and utilize the appropriate warnings.
4. Secure an appropriate biological sample for chemical testing.

Instructor: Tony Lebron (Retired M/Sgt; ISP) will be the lead instructor.

***FULL* DWI Detection & Standard Field Sobriety Testing**

(24-hour course)

Frankfort Police Department

20602 Lincoln-Way Lane, Frankfort, IL 60423

Wednesday – Friday; February 24 – 26, 2021

8:00 am till 4:30 pm

This course complies with the guidelines of the following mandate(s):
Constitutional & Proper Use of LE Authority | Civil Rights | Law Updates

This three-day, 24-hour course is a State Certified program on the standardization of sobriety testing procedures. The latest testing methods will be demonstrated. Horizontal Gaze Nystagmus (HGN) techniques for improved probable cause standard for DUI arrests will be taught. This course will also cover the pharmacological differences between drug effects and alcohol effects on the body.

➤ ***This course utilizes live dosed individuals as opposed to videos, which greatly enhances the training.***

Course Description: The purpose of this course is to increase deterrence of DWI violations, and thereby reduce the number of crashes, deaths and injuries caused by impaired drivers. As a result of this training, participants will become significantly better able to:

- Understand enforcement's role in general DWI deterrence.
- Understand detection phases, clues and techniques.
- Understand requirements for organizing and presenting testimonial and documentary evidence in DWI cases.
- Recognize and interpret evidence of DWI violations.
- Administer and interpret Standardized Field Sobriety Tests.
- Describe DWI evidence clearly and convincingly in written reports and verbal testimony.
- Understand the tasks and decisions of DWI detection.
- Know and recognize typical vehicle maneuvers and human indicators symptomatic of DWI associated with initial observations.
- Know and recognize typical reinforcing maneuvers and indicators that come to light during the stopping sequence.
- Know and recognize typical sensory and other clues of alcohol and/or other drug impairment that may be seen during face-to-face contact with DWI suspects.
- Know and recognize typical behavioral clues of alcohol and/or other drug impairment that may be seen during the suspect's exit from the vehicle.
- Understand the role and relevance of psychophysical testing in pre-arrest screening of DWI suspects.
- Know and carry out appropriate administrative procedures for validated divided attention psychophysical tests.
- Know and carry out appropriate administrative procedures for the Horizontal Gaze Nystagmus test.
- Know and recognize typical clues of alcohol and/or other drug impairment that may be seen during administration of the Standardized Field Sobriety Tests.

Instructors: The instructors for this class will be Lt. Dave Schurr (Ret.) of the Bolingbrook Police Department and Sgt. Steve Sigler of the Illinois State Police.
