John Reid Advanced Interviews & Interrogations

Will County Sheriff's Office
16911 West Laraway Rd., Joliet, IL 60433
Thursday; March 1, 2021
8:00 am till 3:00 pm

This course complies with the guidelines of the following mandate(s):
Lead Homicide Investigator

Course Description: This course is for individuals who have completed the 3-day seminar on *The Reid Technique of Interviewing and Interrogation*, and builds upon their knowledge of the Reid Technique.

Most unsuccessful interrogations are a result of the investigator's inability to move the guilty suspect from one stage of the interrogation to the other. *Reid* has defined three distinct stages of the interrogation that may give the investigator problems:

1. Defiant stage: seven proven tactics to move suspects out of this stage
2. Neutral stage: four proven techniques to get the suspect to listen to the interrogator's themes
3. Acceptance stage: three specific techniques that will dramatically increase admissions of guilt

People who commit crimes do so to fulfill certain needs. What needs were satisfied is based upon the case facts, evidence and results of the interview — types of needs that will be thoroughly discussed are:

- Real need crimes
- Impulse need crimes
- Esteem need crimes
- Lifestyle need crimes

The Advanced Seminar will also address the following specific problem areas for some but not all interrogations:

- Juvenile interrogations
- Interrogation regarding guilty knowledge
- Playing one suspect against another
- Interrogation on multiple crimes

Course Instructor: This course will be taught by Instructors with John E. Reid and Associates, Inc.

Advanced Roadside Impaired Driving Enforcement

New Lenox Police Department

200 Veterans Parkway, New Lenox, IL. 60451

Monday & Tuesday; April 5 & 6, 2021

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Constitutional & Proper Use of LE Authority | Human Rights | Legal Updates

Course Description: The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police (IACP) Technical Advisory Panel (TAP) and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers that have not received advanced or in-service training regarding drug impairment tend to not be able to identify these characteristics; therefore, they will release an impaired driver. Once an officer completes the training he/she will be more proficient with the 3 battery of tests (HGN, WAT, OLS), as well as a broader knowledge of drug impairment indicators. The law enforcement officer will also be more familiar with the DRE program and its function. This will facilitate better communication and transfer of critical roadside indicators of impairment to the evaluating DRE officer for a more complete and accurate assessment of the impairment.

ARIDE is a 16-hour training course taught by DRE instructors or SFST instructors who are also DREs. The training will be conducted under the control and approval of the DEC Program state coordinator. This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem. The following topics are discussed and/or delivered in detail throughout the entire curriculum:

- Update of Standardized Field Sobriety Testing Battery
- How drug impaired driving affects our community
- SFST Proficiency Examination
- Drugs in the human body and the impairing effects they may have
- Seven categories of drugs identified by the DEC Program
- Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement
- Provide an expanded knowledge of prosecuting drug impaired drivers to prosecutors and courts

Much of the classroom training is devoted to hands-on practice.

Instructors: Dave Christiansen (lead instructor), of the Dekalb County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash investigator. Ari Briskman (co-instructor), of the Lake County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash reconstructionist.

Romeoville Police Department

1050 West Romeo Road (at Sunset Pointe Drive), Romeoville, IL 60446

Monday; April 5, 2021

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Legal Update | Mental Health Awareness | Human Rights | Procedural Justice | Use of Force | Officer Wellness

Course Description: Law enforcement officers have an important role to play in their interactions with community members. This means responding to incidents with individuals who have mental health issues, including diagnosed mental illness.

This 8-hour course, developed by the Illinois Law Enforcement Training & Standards Board, is meant to provide law enforcement officers with an awareness of mental health issues including a history of mental health systems, types of mental illness, signs and symptoms, common treatments & medications, and potential interactions law enforcement may have, on a regular basis, with these individuals, their families and service providers.

Topics covered will include:

- Prevalence of mental illness
- History & impact on law enforcement
- Common forms of mental illness likely to be encountered
- Signs & symptoms of mental illness
- Treatments & medications
- Suicide warning signs
- Police interaction models
- De-escalation strategies
- Involuntary admission process
- HIPPA & FERPA

Instructor: Lt. Troy Siewert has been with the Orland Park Police Department (OPPD) for over 28 years and holds a master's degree in criminal social justice from Lewis University. He is a certified CIT coordinator, CIT officer, crisis negotiator and Mental Health First Aid instructor as well as a CIT role play evaluator for the Illinois Law Enforcement Training and Standards Board. Troy started the OPPD Crisis Intervention Team (CIT) in 2015 and has developed the program into what is now recognized as a standard for best practice. He has been a guest speaker at multiple conferences and various local professional groups promoting CIT and the One Mind Campaign. Troy recently worked on a committee to update the International Chiefs of Police model policy for "Responding to Persons Experiencing a Mental Health Crisis."

Mental Preparation for Terrorist Attacks and Other Violent Encounters

Grundy County Administration Center (EOC)

1320 Union St., Morris, IL 60450

Tuesday; April 6, 2021

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Const. Use of LE Authority | Use of Force

Course Description: Historically, the focus of officer safety has been on the dangers posed by violent criminals, but this has changed with the ever-increasing risk of terrorist attacks in America. While officers must still make officer safety a high priority, their primary emphasis must be on taking swift action to stop the killing when dealing with terrorist attacks, which necessitates the taking of greater risks than before. At the same time, they must never lose sight of the importance of effectively controlling violent individuals while carefully guarding against the use of excessive force. This makes it more important than ever for officers to possess the appropriate mindset. Through the extensive use of case studies and classroom participation, this course demonstrates how they can develop the mental tools they need to take appropriate action in the event of a terrorist attack, while also remaining mentally prepared to control violence in a manner that reduces the risk of unnecessary force.

At the conclusion of the training, the officer will be able to:

1. Explain how winners plan for violent encounters
2. Explain why it is important to train realistically.
3. List at least four ways that mental flexibility can be enhanced.
4. List at least four ways to improve decision making under stress
5. List and explain the five basic principles for close-quarters use of the handgun.
6. List at least three means for detecting an ambush.
7. List at least three tactical principles related to responding to terrorist attacks when off duty.
8. Analyze at least one lethal police encounter, and then present at least three learning points that can be learned from the incident.

Instructor: Brian McKenna is the owner of WINNING EDGE TRAINING and its sole instructor. He recently retired after 30 years with the Hazelwood (MO) Police Department. At the time of his retirement, he was assigned to the patrol division as a shift supervisor (lieutenant), and also served as an in-service trainer and lead firearms instructor. He is a state certified police instructor and former academy instructor, and holds a Master's Degree in human resource development. Brian writes extensively on officer safety topics, and authors Law Officer Magazine's Officer Down column, a regular feature that analyzes officer-involved shootings for key learning points. This experience gave Brian the opportunity to conduct in-depth research into the dynamics of armed encounters and the most effective ways to control them. WINNING EDGE TRAINING is the culmination of this research, packed into training that uses the power of case studies, proven adult learning principles, and a dynamic presentation style to teach officers how to control violent encounters with the proper level of force.

Illinois General Explosives Recognition and Requirements

Will County Sheriff's Office
16911 W. Laraway Rd, Joliet, IL 60433
Wednesday; April 7, 2021
8:00 am till 4:00 pm

GPS alert: use 1151 East Laraway Road 60433, neighbor of Ag. Center

This course complies with the guidelines of the following mandate(s): Law Updates

Course Description: This is a one day 8-hour class being provided by the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. The class will provide hands on education for recognizing the different types of high/low explosives and their requirements at both the State of Illinois level, as well as the BATFE (Federal) level. In addition to general explosive recognition, the specifics and differences of consumer fireworks (1.4) vs. professional grade fireworks (1.3G) and the laws that pertain to them will be discussed in great detail.

This class is being provided by the IDNR to help educate law enforcement and to provide direct assistance, on scene, when dealing with explosive situations. The IDNR regulates / investigates high and low explosives including 1.1, 1.2, 1.3, and 1.5. Too many times law enforcement does not have the education to know how to identify an explosive and/or if a bomb squad needs to be called. Bomb Squads, Explosives Breaching SWAT Teams, and BOMB Dog Handlers already possess the IL Individual Explosives License. The IDNR must be notified immediately upon any recovery of a regulated explosive and/or device to pursue the information necessary for enforcement.

If the Officer and their respective department so desire; after completing the class and passing the exam they can receive an IL IDNR Individual Explosives License, to be used in association with their law enforcement duties. A random monthly bank of test questions will be administered at the end of the class which will consist of 50 questions that will be multiple choice and/or True-False. Each officer receiving the license will fill out an application and must pass the test with an 80% or higher. Officers who do not pass the test will be provided an opportunity to retest in the near future.

➤ **Licensing is recommended but not required to attend.**

There are eight chapters covered in the presentation and each officer will be provided a packet of information from the IDNR consisting of a copy of the IL Explosives Act, the Admin Codes that Apply to the Act, a general explosives safety packet, a packet for note taking as the presentation is given, and a small 4-page packet for officers to keep available as a quick reference guide for explosive identification purposes, while on duty.

Continued on next page:

Key topical areas to be addressed include the following:

- Illinois Explosives Act
- Explosive Storage Requirements-Law Enforcement and Non-Law Enforcement
- Explosives Safety/Recognition/Handling (m-devices, homemade sticks, etc.)
- Fireworks- 1.3G low explosives (professional fireworks) vs 1.4 low explosives
- Enforcement of 1.3G vs. 1.4 and their requirements

Instructor:

The instructor for this class is Nick Sterling who currently is a Specialist/Inspector/Investigator for the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. Mr. Sterling's current territory includes Cook, Lake, McHenry, DuPage, Kane, Kendall, Gundy, and Will Counties. Sterling has been with the Department for four years and inspects/investigates all explosive storage facilities (Law enforcement and Non-Law Enforcement), explosives accidents, explosives incidents, and performs random checks/investigations on both licensed and unlicensed individuals. Sterling has 18 years of high explosives experience and teaches the IL Individual Explosives License Class on a regular basis. Over the past few years Mr. Sterling has noticed a lack of education when law enforcement agencies are dealing with explosives related issues, and hopes to help prevent these issues in the future through education and assistance.

Solo Officer Response Rapid Deployment

Lincoln-Way North High School

19900 S. Harlem Ave, Frankfort, IL 60423 (Park in the rear, near the loading dock)

Friday; April 9, 2021

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s): Use of Force

Course Description:

Rapid deployment/immediate action is the swift and immediate deployment of law enforcement resources to a life-threatening active threat situation. These situations require immediate action and the rapid deployment of law enforcement. Failure to act has catastrophic consequences resulting in death and/or great bodily harm to innocent people. These incidents may also necessitate the immediate and rapid deployment of personnel to contain and prevent the escape of an armed and dangerous offender or rescue a downed officer and/or civilian.

Course Objectives:

This course has been designed to train SRO's and patrol officers in the basic fundamentals and tactical skill sets of Solo Officer Active Threat response protocols. The focus of this program will be to provide officers with the knowledge, specialized tactical skill sets and strategic understanding when it is necessary to respond alone to an active threat situation. Officers will attend a short classroom presentation and then spend most of the class engaged in active threat scenario training. The class will culminate in several realistic force-on-force scenarios with live role players.

Topics to be addressed:

Individual movement • Individual room clearing tactics • Use-of-force and safety priorities • Equipment and identification requirements • Linking up with other first responders and integration of other personnel and agencies • Verbal skills • Deployment and firearms handling

COURSE PREREQUISITES:

- This course is open to all sworn police officers; ****priority will be given to SRO's****.
- This is not a beginner's course. Participants must have a working knowledge of basic conventional rapid deployment techniques and tactics.
- Course participants should be physically capable of operating in challenging crisis situations.
- Course participants will be required to jog, kneel and perform police tactical skills. If an officer is physically incapable of performing these basic tasks, please do not register them to attend.

THE COURSE REQUIRES EVERY ATTENDEE TO BE EQUIPPED WITH THE FOLLOWING:

- **Converted patrol rifle and pistol that shoot marking cartridges (converted pistols and AR15 drop in bolts are available for those that do not have their own).**
- **Officers must bring their own converted weapons, but they must be Simunition, Force-on-Force, or UTM ammunition capable.**
- **Air-Soft training pistols and rifles are also acceptable.**
- **Officers must have a minimum of 100 marking rounds (50 pistol / 50 rifle).**
- **Officers should also bring protective mask and neck protection if available.**
- **All participants must bring their own rifles.**
- **Food and drink in a cooler for breaks and lunches - students will eat on site.**

Enforcing Illinois Cannabis Laws 2021

Morris Police Department

200 E. Chapin St. Morris, IL 60450

Monday; April 12, 2021

8:00 am to 4:00 pm

This course complies with the guidelines of the following mandate(s):
Civil Rights | Const. Use of LE Authority | Legal Updates

Course Description: The "Cannabis Regulation and Tax Act" as described in "Amendment to HB 1438", was signed into law by Governor Pritzker on June 25th, 2019. This legislation permits the cultivation, selling, and the adult use of cannabis, beginning January 1, 2020. The implementation of this legislation will have a tremendous effect on all aspects of law enforcement. The most profound impact will be on traffic safety. Illinois officers need to be trained to understand the legislation and to take appropriate action when required. This training will provide officers with a comprehensive review of laws concerning the enforcement of the Cannabis Regulation and Tax Act. Included in the training is an introduction into types of cannabis, possession, use, and cultivation. Training will include recognizing sign/symptoms of impaired drivers, and proficiency testing utilizing Non-standardized Field Sobriety Tests. The training will conclude with procedures for making a DUI cannabis arrest.

Upon Completion of this training officers will be able to:

- Describe the business organizations associated with the cannabis industry
- Describe categories, strains, extracts, and delivery systems of cannabis
- Describe possession and cultivation limits
- Describe the restriction and limitations for possession of adult use cannabis
- Recognize appropriate cannabis identification and cannabis containers
- Distinguish the three types of medical cannabis patients
- Describe the restriction and limitations for medical cannabis
- Summarize scientific research related to driving and cannabis usage
- Define executive functions and their relation to field sobriety tests
- Recognize the signs and symptoms of cannabis usage
- Summarize the effectiveness of Field Sobriety Testing
- Complete a proficiency exam on non-standardized field sobriety tests
- Recognize signs and symptoms associated with cannabis usage
- Describe the two Implied Consent provision associated DUI cannabis
- Describe the limitations of chemical testing

Course Goals: At the end of this eight-hour block of instruction officers will be able to:

1. Enforce laws concerning possession, use and cultivating cannabis.
2. Conduct non-standardized field sobriety testing and document sign/symptoms.
3. Make a DUI cannabis arrest and utilize the appropriate warnings.
4. Secure an appropriate biological sample for chemical testing.

Instructor: Tony Lebron (Retired M/Sgt; ISP) will be the lead instructor.

Const. Use of LE Authority | Legal Updates

Course Description: This National Highway Traffic Safety Administration (NHTSA) approved course offers the latest information regarding training instructors to use LASER technology and provides the background and materials needed to teach the RADAR and LIDAR operator course at the local level.

Students learn how to develop and implement the operator course, become proficient in instructional methodologies, become familiar with the technical aspects and legal issues of RADAR and LIDAR operation and much more.

Practical exercises using the latest equipment are utilized. All instructional material is provided in PowerPoint on CD, including the course administrator manual, teaching outlines, the student operator manual and illustrations. Commuters are encouraged to bring the equipment used in their department for greater familiarity and practice.

Topics Include:

- Speed and enforcement
- History and theory of RADAR and LIDAR
- Stationary radar operation
- Moving RADAR and LIDAR operation
- Effects of RADAR and LIDAR
- Visual speed and range determination
- Practical field demonstration and exercise
- Legal aspects of speed measurement
- Administrative guides for speed enforcement
- Field training and operator certification
- LIDAR vs. RADAR technology
- RADAR vs. cancer scare

Officers are asked to bring the following item to class:

- Calculator that displays the sine function
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed
- Though not required, students are encouraged to bring RADAR/LIDAR equipment to class.

Instructor: Course instructors are police managers (active or retired) who combine extensive experience with solid academic credentials, provided by NUCPS.

Monday – Friday; April 19-23, 2021

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

Civil Rights | Const. Use of LE Authority | Legal Updates

Course Description: The purpose of this course is to prepare law enforcement professionals to effectively instruct the SFST training program using the concepts and principles provided by the National Highway Traffic Safety Administration and the International Association of Chiefs of Police. The curriculum addresses the application of basic adult learning theory and the instruction skills needed to deliver this training.

In the SFST instructor-development training program, the principal participants are law enforcement officers who have demonstrated proficiency in the administration of the standardized field sobriety tests (SFSTs), and are actively involved in detecting and apprehending impaired drivers. Participants should be well versed and comfortable with the SFSTs, including the HGN test.

Primary reasons for attending this training are:

- a desire to develop or strengthen effective presentation skills.
- a desire to develop or strengthen skills as an SFST instructor.
- a desire to learn how to conduct interactive participant-centered training.
- a desire to become more familiar with the SFST curriculum available through NHTSA and the International Association of Chiefs of Police.

The most significant learning activities are the presentations made by the participants. The participants will use NHTSA course materials to prepare their practice teaching presentations. Participants are expected to become thoroughly familiar with content, learning activities, training aids, etc. related to delivery of the SFST course.

Instructors: Lead instructor will be Tony Lebron (Retired M/Sgt; Illinois State Police). He will be assisted by various Law Enforcement Officers (active and retired) approved by the Illinois Law Enforcement Training and Standards Board.

Most noteworthy, Lou has obtained over 80 homicide confessions during his career with only three instances where he was unable to obtain a confession from the homicide suspect. Lou has been a guest speaker on the Discovery Channel, Real detective, and America's Most Wanted. Lou's work was most recently featured in a Dateline NBC story about convicted child molester Arthur Ream. Continued on next page

Jeffrey J. Pavletic is an award-winning trial attorney who has built a reputation of integrity and exceptional skill in the courtroom. As a prosecutor for the past two decades, he has tried countless cases to victory (including approximately 150 jury trials with a concentration in homicide and violent crime). In addition to trying some of the highest profile and complex cases that have occurred in the history of Northern Illinois, Jeff was Chief of the Felony Review Division, and is currently the First Assistant State's Attorney for the Lake County (Illinois) State's Attorney's Office. Jeff served as Special Counsel to the U.S. House of Representatives Judiciary Committee in the impeachment of President Clinton. His duties included all aspects of independent counsel review, the impeachment inquiry, presentation of articles of impeachment to the U.S. House of Representatives, all witness interviews and depositions of trial witnesses, and the actual impeachment trial before the U.S. Senate. Jeff has received numerous federal, state, and local awards. These include Illinois State Crime Commission's State's Attorney of the Year, Felony Trial Attorney of the Year, The Fred L. Foreman Criminal Justice Award, The Ruth Rosengarden Victim Service provider Award, and a special U.S. House of Representatives Award presented by Congressman Henry Hyde. Jeff has been featured on 20/20, The Today Show, Good Morning America, Court TV, and the Discovery Channel. Jeff is a published author and a well-respected legal instructor who holds undergraduate and graduate faculty positions and has received accolades as a nationally renowned lecturer, training thousands of police officers, lawyers, prosecutors, and judges.

Carol Gudbrandsen is currently a Cyber Crimes Analyst with the Lake County Assistant State's Attorney's Office in their Cyber/White Collar Crimes Division. Carol has specialized training in digital evidence forensics of computers, mobile devices, and computer networks. Carol has performed thousands of forensic examinations on various types of digital evidence and has been the forensic point of contact and resource in homicide cases investigated by the Lake County Major Crimes Task Force. Carol's forensic examination abilities have made her an integral part of criminal investigations including homicides, crimes against children, sexual assault/abuse, drug investigations, theft, burglary, and white-collar crimes. Carol's forensic examinations on computers and mobile devices have been crucial to many criminal cases, due to her unique abilities in bypassing, or locating security barriers that otherwise would not have been discovered by traditional forensic methods. Carol provides investigation and analysis services in the area of digital evidence forensics for all of the Lake County, Illinois police departments. She has also worked criminal forensic cases with Homeland Security, FBI, DEA, Illinois Attorney General's Office, and the U.S. Marshals. Carol has actively participated in executing search warrants with local law enforcement agencies, Homeland Security, and the Illinois Attorney General's Office. She has been qualified as an expert witness in the area of digital forensics for Lake County, Illinois criminal cases.
