Course Description: This dynamic 4-hour program has been designed to provide law enforcement officers with a compelling historical analysis of the Holocaust that serves as a framework for further exploration of the ways in which abuses of authority evolve over time and how the rights of individuals must be balanced with the need for societal protection. The Law Enforcement Democracy Initiative is a proven program that impacts how police officers consider empathy, ethics, and morals in their decision-making process.

Through examination of historical and contemporary case studies, students will consider the following issues:

- Moral and ethical decision-making
- Explore issues of racism, bias, and violence through exploration of contemporary case studies
- Discuss the dangers of silence and indifference.
- Challenges inherent to the law enforcement profession
- Responsibilities officers have to society and each other

Currently, a former colleague and I are conducting research that applies a criminological theory to explain the causes of genocide and how to prevent future cases. I have co-presented results of this research to the American Society of Criminology, as well as to the United Nations Office on Drugs and Crime. I am also actively involved with the Illinois Holocaust Museum and Education Center as a docent, facilitator, and member of the Second-Generation Speakers' Bureau (my mother was a survivor of the atomic bomb that was deployed over Nagasaki, and I present her pre-war, war, and post-war experiences to community members).

IDNR Explosives Safety, Recognition and Handling Course

Morris Police Department
200 E. Chapin St., Morris, IL 60450
Tuesday; June 17, 2025
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- Legal Updates 3.5 Hours
- Procedural Justice 2.0 Hours

Course Description: This is a one day 8-hour class being provided by the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. The class will provide hands on education for recognizing the different types of high/low explosives and their requirements at both the State of Illinois level, as well as the BATFE (Federal) level. In addition to general explosive recognition, the specifics and differences of consumer fireworks (1.4) vs. professional grade fireworks (1.3G) and the laws that pertain to them will be discussed in great detail.

This class is being provided by the IDNR to help educate law enforcement and to provide direct assistance, on scene, when dealing with explosive situations. The IDNR regulates / investigates high and low explosives including 1.1, 1.2, 1.3, and 1.5. Too many times law enforcement does not have the education to know how to identify an explosive and/or if a bomb squad needs to be called. Bomb Squads, Explosives Breaching SWAT Teams, and BOMB Dog Handlers already possess the IL Individual Explosives License. The IDNR must be notified immediately upon any recovery of a regulated explosive and/or device to pursue the information necessary for enforcement.

If the Officer and their respective department so desire; after completing the class and passing the exam they can receive an IL IDNR Individual Explosives License, to be used in association with their law enforcement duties. A random monthly bank of test questions will be administered at the end of the class which will consist of 50 questions that will be multiple choice and/or True-False. Each officer receiving the license will fill out an application and must pass the test with an 80% or higher. Officers who do not pass the test will be provided an opportunity to retest in the near future.

- **Licensing is recommended but not required to attend.**

There are eight chapters covered in the presentation and each officer will be provided a packet of information from the IDNR consisting of a copy of the IL Explosives Act, the Admin Codes that Apply to the Act, a general explosives safety packet, a packet for note taking as the presentation is given, and a small 4-page packet for officers to keep available as a quick reference guide for explosive identification purposes, while on duty.

Continued on next page:

Key topical areas to be addressed include the following:

- Illinois Explosives Act
- Explosive Storage Requirements-Law Enforcement and Non-Law Enforcement
- Explosives Safety/Recognition/Handling (m-devices, homemade sticks, etc.)
- Fireworks- 1.3G low explosives (professional fireworks) vs 1.4 low explosives
- Enforcement of 1.3G vs. 1.4 and their requirements

Instructor:

The instructor for this class is Nick Sterling who currently is a Specialist/Inspector/Investigator for the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. Mr. Sterling's current territory includes Cook, Lake, McHenry, DuPage, Kane, Kendall, Grundy, and Will Counties. Sterling has been with the Department for four years and inspects/investigates all explosive storage facilities (Law enforcement and Non-Law Enforcement), explosives accidents, explosives incidents, and performs random checks/investigations on both licensed and unlicensed individuals. Sterling has 18 years of high explosives experience and teaches the IL Individual Explosives License Class on a regular basis. Over the past few years Mr. Sterling has noticed a lack of education when law enforcement agencies are dealing with explosives related issues, and hopes to help prevent these issues in the future through education and assistance.
