8:00 am till 4:00 pm

Will County Sheriff's Office

16911 W. Laraway Rd., Joliet, IL.60433

Monday, December 18, 2023

This course complies with the guidelines of the following mandate(s):

- Procedural Justice 4.0 Hour

Course Description: (Morning Session); Over the course of the last ten years, more than 150 law enforcement officers, on average, have died each year in the line-of-duty. Law enforcement is a dangerous profession and there will always be line-of-duty deaths at the hands of evil people. Unfortunately, too many officer deaths are due to "accidents" attributable to otherwise preventable circumstances. In fact, the number of deaths due to accidents has actually been higher in some years than the number of deaths due to felonious assault. The Below 100 initiative was started in 2011, with the mission of reducing line-of-duty police officer deaths to less than 100 per year through the targeting of common behaviors, practices, and mindsets that often lead to such tragedies.

Issues to be addressed in this program include:

- Wearing seat belts and maintaining safe vehicle speeds
- Wearing body armor
- The power of What's Important Now (W.I.N.)
- The threat of complacency

Officers of all ranks are encouraged to attend this highly intensive 4-hour class.

***Train the Trainer Afternoon Session: (Morning and Afternoon)**

This 8-hour presentation includes the High-Level Overview program (4 hours) and an afternoon Train-the-Trainer portion which will equip trainers to conduct risk assessments, examine policy and make changes if necessary, and present the Below 100 program within their own agencies.

Topics to be addressed include the following:

- Challenges inherent to police culture and effecting organizational change.
- Wearing seat belts and maintaining safe vehicle speeds
- Wearing body armor
- The power of What's Important Now (W.I.N.)
- The threat of complacency
- Basics of the Below 100 PowerPoint presentation

Students will be provided with all related materials, including the High-Level Overview and supporting items such as sample policies, posters, videos, and relevant supporting articles. Typically, an outline and electronic access to all relevant files will be provided.

***PLEASE NOTE: Officers wishing to attend this Train-the-Trainer program MUST attend the Below 100 High Level Overview program conducted during the morning session.**

Advanced Roadside Impaired Driving Enforcement (A.R.I.D.E.)

Romeoville Police Department

1050 West Romeo Road, Romeoville, IL. 60446

Wednesday & Thursday; December 20-21, 2023

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- | | |
|--|---------------------------------------|
| • Civil Rights | 10.0 Hours (3.0 Hours Scenario-Based) |
| • Const. Use of L.E. Authority | 2.0 Hours |
| • Legal Updates | 4.0 Hours |
| • Advanced Roadside Impaired Driving Enforcement (ARIDE) | 16.0 Hours (3.0 Hours Scenario-Based) |

Course Description: The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police (IACP) Technical Advisory Panel (TAP) and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers that have not received advanced or in-service training regarding drug impairment tend to not be able to identify these characteristics; therefore, they will release an impaired driver. Once an officer completes the training, he/she will be more proficient with the 3 battery of tests (HGN, WAT, OLS), as well as a broader knowledge of drug impairment indicators. The law enforcement officer will also be more familiar with the DRE program and its function. This will facilitate better communication and transfer of critical roadside indicators of impairment to the evaluating DRE officer for a more complete and accurate assessment of the impairment. ARIDE is a 16-hour training course taught by DRE instructors or SFST instructors who are also DREs. The training will be conducted under the control and approval of the DEC Program state coordinator. This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem.

The following topics are discussed and/or delivered in detail throughout the entire curriculum:

- Update of Standardized Field Sobriety Testing Battery
- How drug impaired driving affects our community.
- SFST Proficiency Examination
- Drugs in the human body and the impairing effects they may have.
- Seven categories of drugs identified by the DEC Program
- Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement.
- Provide an expanded knowledge of prosecuting drug impaired drivers to prosecutors and courts.

Much of the classroom training is devoted to hands-on practice.

Instructors: Dave Christiansen (lead instructor), of the Dekalb County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash investigator. Ari Briskman (co-instructor), of the Lake County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash reconstructionist.
