# **FULL ~~Advanced Roadside Impaired Driving~~ FULL** **Enforcement (A.R.I.D.E.)**

Crest Hill Police Department

20590 City Center Boulevard, Crest Hill, IL. 60403

Monday & Tuesday; March 18-19, 2024

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- |  |                                       |
|--|---------------------------------------|
| • Civil Rights   | 10.0 Hours (3.0 Hours Scenario-Based) |
| • Const. Use of L.E. Authority                           | 2.0 Hours                             |
| • Legal Updates  | 4.0 Hours                             |
| • Advanced Roadside Impaired Driving Enforcement (ARIDE) | 16.0 Hours (3.0 Hours Scenario-Based) |

**Course Description:** The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police (IACP) Technical Advisory Panel (TAP) and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers that have not received advanced or in-service training regarding drug impairment tend to not be able to identify these characteristics; therefore, they will release an impaired driver. Once an officer completes the training he/she will be more proficient with the 3 battery of tests (HGN, WAT, OLS), as well as a broader knowledge of drug impairment indicators. The law enforcement officer will also be more familiar with the DRE program and its function. This will facilitate better communication and transfer of critical roadside indicators of impairment to the evaluating DRE officer for a more complete and accurate assessment of the impairment. ARIDE is a 16-hour training course taught by DRE instructors or SFST instructors who are also DREs. The training will be conducted under the control and approval of the DEC Program state coordinator. This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem.

The following topics are discussed and/or delivered in detail throughout the entire curriculum:

- Update of Standardized Field Sobriety Testing Battery
- How drug impaired driving affects our community
- SFST Proficiency Examination
- Drugs in the human body and the impairing effects they may have
- Seven categories of drugs identified by the DEC Program
- Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement
- Provide an expanded knowledge of prosecuting drug impaired drivers to prosecutors and courts

Much of the classroom training is devoted to hands-on practice.

**Instructors:** Dave Christiansen (lead instructor), of the Dekalb County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash investigator. Ari Briskman (co-instructor), of the Lake County Sheriff's Office, is a Drug Recognition Expert Instructor as well as a Standardized Field Sobriety Testing Instructor and crash reconstructionist.

| • Lead Homicide Investigator | 18.0 Hours (7.0 Hours Scenario-Based) |

**Course Description:** This is a 3-day, twenty-one hour program on the Reid Technique of Interviewing and Interrogation®. The course includes; interview and interrogation preparation, behavior symptoms, the Reid® Behavior Analysis Interview (B.A.I.) and "The Reid Nine Steps of Interrogation" which include:

## **Interview and Interrogation Preparation**

The style, appearance and approach of the successful interviewer and interrogator will be covered, as will the room settings conducive to these activities.

## **Behavior Symptoms**

Differences in verbal and nonverbal behavior between innocent and deceptive persons often can be observed, and are thus indicative of whether or not a suspect is telling the truth. A guilty suspect makes a conscious decision to resist your effort to get at the truth. In trying to maintain a structure of verbal lies, however, that suspect most often develops internal conflicts and tensions which manifest themselves in nonverbal behavior. Thus, body movements, facial expressions, eye contact, attitudes, posture and grooming gestures can indicate whether the subject is telling the truth or lying. Nonverbal indicators can also be used to determine whether the suspect under interrogation is listening, maintaining a defiant attitude or is ready to confess. You will learn how to observe and assess critical behavior symptoms and use those assessments to determine whether to move on to the next step of the interrogation.

## **Reid® Behavioral Analysis Interview (B.A.I.)**

The information developed through use of the standard investigative questions of "who," "what," "when" and "how" is often not adequate — even in combination with physical evidence — to identify the wrongdoer. The Reid Behavioral Analysis Interview is a technique that uses a structured set of non-accusatory behavior-provoking questions developed as a result of many thousands of interviews. The B.A.I. makes it easier to determine whether the suspect is telling the truth about involvement in the matter under investigation, and is flexible enough to be used in cases ranging from employee theft to homicide.

## **The Reid Nine Steps of Interrogation®**

The nine-step approach to a successful interrogation has been developed by John E. Reid and Associates through extensive research and practical experience over a period of 60 years. Because of the subject's importance, approximately half the classroom time in the seminar is devoted to the interrogation process and detailed examination of each of the nine steps.

John Reid and Associates will provide the instructor for this class.

**Course Description:** This course is for individuals who have completed the 3-day seminar on *The Reid Technique of Interviewing and Interrogation*, and builds upon their knowledge of the Reid Technique.

1. Defiant stage: seven proven tactics to move suspects out of this stage
2. Neutral stage: four proven techniques to get the suspect to listen to the interrogator's themes
3. Acceptance stage: three specific techniques that will dramatically increase admissions of guilt

People who commit crimes do so to fulfill certain needs. What needs were satisfied is based upon the case facts, evidence and results of the interview — types of needs that will be thoroughly discussed are:

- Real need crimes
- Impulse need crimes
- Esteem need crimes
- Lifestyle need crimes

The Advanced Seminar will also address the following specific problem areas for some but not all interrogations:

- Juvenile interrogations
- Interrogation regarding guilty knowledge

## Course Description:

“The Winning Mind for Women” is one of the most unique and popular courses offered by the “Winning Mind Seminars” team. Sgt. Betsy Smith guides students through 8 hours of intensive, interactive training that will provide attendees with updates and information they can employ to improve and enhance both their professional and personal lives.

We begin each session by honoring the sacrifices of our fallen, celebrating the law enforcement profession and asking each attendee to inwardly assess their own career. We define true “Warrior Ethos” as well as the “Guardian Mindset” as we talk about the history of women in policing and celebrate our winners and role models. We then introduce gender-specific science and leadership principles that anyone can use to enhance their career and improve their life on and off the job. The multi-media format keeps students engaged and entertained while we provide officers, agents, dispatchers, trainers, supervisors, managers and all other personnel with a realistic view of gender differences and how these can be harnessed in both men and women to improve performance, morale, communication, relationships, and especially officer safety.

This training is like no other in that it encourages women, and those who train and supervise them, to look beyond the anecdotal, “that’s-the-way-we’ve-always-done-it” world of learning and utilize science, physiology and proven methods and information that will help anyone in law enforcement improve their career and their survival. Sgt. Smith’s philosophy of “teaching by storytelling” cites real-world, inspirational examples of courageous men and women whose stories stay with the attendees long after the class has concluded. The atmosphere created in the classroom encourages students to network and gain strength and information from each other, making this session a powerful day for all involved. This course will inspire, motivate, and encourage women to excel and to win, regardless of assignment!

**(CONTINUED)**

**Topics will include:**

- The “Not Today” mindset, on every call, on every shift
- Why “survival” is minimalistic, and we must train to WIN!
- Embracing your responsibility for your own tactics, training, safety, and career
- What “Guardianship” really means to you, your career, and your community

- Recognizing and taking advantage of the differences between men and women
- Learning to communicate effectively with everyone in your agency and beyond
- How to bring your family into your world to enhance off duty safety and your relationships
- Finding and using the best female-specific equipment available

# IDNR Explosives Safety, Recognition and Handling Course

Morris Police Department  
200 E. Chapin St., Morris, IL 60450  
Tuesday; June 11, 2024  
8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- |                      |           |
|----------------------|-----------|
| • Legal Updates      | 3.5 Hours |
| • Procedural Justice | 2.0 Hours |

**Course Description:** This is a one day 8-hour class being provided by the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. The class will provide hands on education for recognizing the different types of high/low explosives and their requirements at both the State of Illinois level, as well as the BATFE (Federal) level. In addition to general explosive recognition, the specifics and differences of consumer fireworks (1.4) vs. professional grade fireworks (1.3G) and the laws that pertain to them will be discussed in great detail.

This class is being provided by the IDNR to help educate law enforcement and to provide direct assistance, on scene, when dealing with explosive situations. The IDNR regulates / investigates high and low explosives including 1.1, 1.2, 1.3, and 1.5. Too many times law enforcement does not have the education to know how to identify an explosive and/or if a bomb squad needs to be called. Bomb Squads, Explosives Breaching SWAT Teams, and BOMB Dog Handlers already possess the IL Individual Explosives License. The IDNR must be notified immediately upon any recovery of a regulated explosive and/or device to pursue the information necessary for enforcement.

If the Officer and their respective department so desire; after completing the class and passing the exam they can receive an IL IDNR Individual Explosives License, to be used in association with their law enforcement duties. A random monthly bank of test questions will be administered at the end of the class which will consist of 50 questions that will be multiple choice and/or True-False. Each officer receiving the license will fill out an application and must pass the test with an 80% or higher. Officers who do not pass the test will be provided an opportunity to retest in the near future.

- **Licensing is recommended but not required to attend.**

There are eight chapters covered in the presentation and each officer will be provided a packet of information from the IDNR consisting of a copy of the IL Explosives Act, the Admin Codes that Apply to the Act, a general explosives safety packet, a packet for note taking as the presentation is given, and a small 4-page packet for officers to keep available as a quick reference guide for explosive identification purposes, while on duty.

**Continued on next page:**

**Key topical areas to be addressed include the following:**

- Illinois Explosives Act
- Explosive Storage Requirements-Law Enforcement and Non-Law Enforcement
- Explosives Safety/Recognition/Handling (m-devices, homemade sticks, etc.)
- Fireworks- 1.3G low explosives (professional fireworks) vs 1.4 low explosives
- Enforcement of 1.3G vs. 1.4 and their requirements

**Instructor:**

The instructor for this class is Nick Sterling who currently is a Specialist/Inspector/Investigator for the Illinois Department of Natural Resources, OMM-Explosives and Agg. Division. Mr. Sterling's current territory includes Cook, Lake, McHenry, DuPage, Kane, Kendall, Grundy, and Will Counties. Sterling has been with the Department for four years and inspects/investigates all explosive storage facilities (Law enforcement and Non-Law Enforcement), explosives accidents, explosives incidents, and performs random checks/investigations on both licensed and unlicensed individuals. Sterling has 18 years of high explosives experience and teaches the IL Individual Explosives License Class on a regular basis. Over the past few years Mr. Sterling has noticed a lack of education when law enforcement agencies are dealing with explosives related issues, and hopes to help prevent these issues in the future through education and assistance.

# Brill Law Enforcement Action in Democracy (LEAD) – 4 Hour

Plainfield Police Department  
14300 Coil Plus Dr., Plainfield, IL. 60544  
Wednesday; June 12, 2024  
8:00 am till 12:00 pm (4 hours)

This course complies with the guidelines of the following mandate(s):

- Cultural Competency 1.0 Hour
- Human Rights 2.0 Hours
- Procedural Justice 1.0 Hour

**Course Description:** This dynamic 4-hour program has been designed to provide law enforcement officers with a compelling historical analysis of the Holocaust that serves as a framework for further exploration of the ways in which abuses of authority evolve over time and how the rights of individuals must be balanced with the need for societal protection. The Law Enforcement Democracy Initiative is a proven program that impacts how police officers consider empathy, ethics, and morals in their decision-making process.

Participants will examine how changes in government policy and law shifted traditional functions of policing in German society to the implementation of human rights abuses and genocidal programs represented as national security and defense priorities. They will consider the effects these incremental policy shifts had on societal, occupational, and personal life, as well as the decision making of individual police officers during the Nazi era. Through examination of historical and contemporary case studies, students will consider the following issues:

- Moral and ethical decision-making
- Explore issues of racism, bias, and violence through exploration of contemporary case studies
- Discuss the dangers of silence and indifference
- Challenges inherent to the law enforcement profession
- Responsibilities officers have to society and each other
- Stereotyping and the abuse of authority
- Empathizing and connecting with individuals
