Crash Investigation 1

Frankfort Police Department

20602 Lincoln-Way Lane, Frankfort, IL 60423

Monday- Friday, January 31 – February 11, 2022

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

PENDING

Course Description: In most jurisdictions, traffic crashes account for more lives lost, more injuries and more property damage than all criminal activity combined. To effectively implement crash prevention programs and improve quality of life, law enforcement agencies need to know the who, what, where, when and why of crash occurrence.

The moments immediately following a traffic crash are crucial, and only a well-trained crash investigator knows how to identify and collect the necessary information at the crash scene and to begin the interpretation of that evidence.

Crash investigators must work quickly and confidently to preserve significant physical results before the crash scene is altered or evidence disappears. They must anticipate what information will be needed for enforcing traffic laws, planning crash prevention programs and possible case litigation. In addition, they must properly document the at-scene information and evidence because once the scene is cleared, the evidence might be impossible to recover.

Crash Investigation 1, based on J. Stannard Baker's world-renowned text, *Traffic Crash Investigation*, is an in-depth study of the skills needed to systematically investigate a traffic crash. Techniques for recognizing and properly recording roadway and vehicle crash evidence are thoroughly presented. Students learn to take measurements and photographs of the crash scene and to create sketches and after-crash diagrams. Crash Investigation 1 also addresses how the collected data are used to reconstruct crashes. Finally, the use of electronic devices to collect and record at-scene data is also introduced.

Course Topics:

- Preparation for traffic crash investigation
- Information from and about people
- Information from vehicles
- Information from roads
- Measuring and mapping the crash scene
- Photographing the crash scene and damaged vehicles
- For this updated program, students will develop a new case study. Photographs and exhibits have been updated, and classroom instruction now includes how the latest generation of vehicle electronics - including data recorders, traction and stability controls, multiple airbags, etc. - affect both the crash and the crash investigation

Continued on next page:

Course Materials: All students need to bring a laptop computer or other device with a USB port to the class. Student reference materials will be distributed in USB flash drives (files will accept electronic comments and highlighting and can be saved).

In all cases, please bring the following additional items to class:

- Comfortable outdoor clothing (likely to get dirty) for Week 2 outdoor projects
- Simple calculator with square root key
- Mechanical Pencils
- Staedtler Geometry Compass
- Laptop computer (or other device) with USB port(s) and Adobe Reader installed.
- Students may use calculators and electronic communication devices in class; however, possession/use of electronic communication devices during closed-book quizzes and exams is prohibited.

Course Outcomes: Officers/investigators who successfully complete Crash Investigation 1 significantly improve their ability to handle all aspects of the majority of traffic crash investigations occurring within their jurisdictions.

Participants who successfully complete Crash Investigation 1 or its equivalent are eligible to enroll in Tri-River's and NUCPS's next crash investigation course, Crash Investigation 2.

Instructor (s): Course instructor(s) are provided by *NUCPS*.

This course complies with the guidelines of the following mandate(s):
PENDING

Course Description:

This *two-day* course will provide the investigator with strategies to vigorously target, investigate, interview/interrogate, prosecute and prevent resurgence of criminal street gangs. The program will equip the investigator with the knowledge and tools to “attack” organized gangs by using a multi-agency, multi-jurisdictional approach. The concepts taught in this course have been used to effectively dismantle gangs and take back communities.

Topics Include:

- Understanding today's gang alliances and their growing social network
- Gangs in schools
- Effective street interviewing
- Conducting gang investigations-graffiti to homicide
- Being successful in the interview-getting confessions
- Strategize your follow up *attack-eradication* strategies

Instructor: Domenic Cappelluti CFI was a veteran street cop with the Waukegan (Illinois) Police Department and former Group Supervisor of the elite Lake County Major Crime Task Force (Illinois). With over 25 years of experience Domenic has specialized in high profile violent street crimes, to include homicides, murder for hire cases on gang and drug officers, and officer involved shootings. During his career, Domenic has worked in patrol, and avidly supervised the Criminal Investigations Division and the Gang Suppression Unit. Domenic has proudly conducted and directed hundreds of gang and drug related operations throughout his County and the Chicago metropolitan area targeting Chicago based street gangs

Monday – Wednesday; February 14-16, 2022

8:00 am till 5:00 pm

This course complies with the guidelines of the following mandate(s): PENDING

Course Description: This 3-day seminar is designed to teach and reinforce a broad range of cutting-edge methods and proprietary tools to conduct more effective interviews and interrogations, resulting in quicker admissions and better statements. This course is especially appropriate for those investigators tasked with the investigation of domestic or foreign terrorism and terrorist-related activities. Criminal activities traditionally investigated by law enforcement may have provided cover and funding for terrorist organizations in the United States and abroad. Investigators conducting these inquiries will learn to apply interview and interrogation techniques which most often will bring these cases to a successful conclusion.

Course Topics, Discussions, and Objectives:

- Establishing and Maintaining Rapport
- False Confessions
- Interpretation of Behavior and Misclassification
- Elements of an Investigative Interview
- Introduction to P.E.A.C.E. Framework
- Environmental Factors
- Cognitive Interview
- Participatory Method
- WZ Non-Confrontational Method
- Showing Empathy
- Understanding Resistance
- Developing the Admission
- Obtain the Statement

Instructor: Lou Tessman, CFI® retired as Deputy Chief of Waukegan, IL. Police Department. Lou is a 26-year veteran of the U.S. Marines, retiring as a CWO-4. In addition to his service in Vietnam, he was activated for Desert Storm and Desert Shield and has received numerous awards including the Naval Commendation Medal. While with Waukegan, he worked in the detective bureau for nine years and as a juvenile officer for one year. Lou also served as Commander of the elite Lake County Major Task Force. During his career, he has conducted thousands of interviews and interrogations. Most noteworthy, Lou has obtained over 80 homicide confessions during his career with only three instances where he was unable to obtain a confession from the homicide suspect. Lou has been a guest speaker on the Discovery Channel, Real detective, and America's Most Wanted. Lou's work was most recently featured in a Dateline NBC story about convicted child molester Arthur Ream.

Wicklender-Zulawski Advanced Criminal Interview and Interrogation Techniques

Frankfort Police Department

20602 Lincoln-Way Lane, Frankfort, IL 60423

Thursday – Friday; February 17-18, 2022

8:00 am till 5:00 pm

This course complies with the guidelines of the following mandate(s): PENDING

Course Description: This 2-day Seminar on Advanced Criminal Interview & Interrogation Techniques is designed to enhance the interviewing process for law enforcement personnel tasked with the investigation of domestic or foreign terrorism and terrorist-related activities. Criminal activities traditionally investigated by law enforcement may have provided cover and funding for terrorist organizations in the United States and abroad. Participants will obtain training in the latest, cutting-edge methods and tools to conduct more effective interviews and interrogations in their terrorism-related investigations resulting in more actionable intelligence, quicker admissions and better statements. This workshop utilizes practical exercise, using underlying psychological principals to improve communication and interviewing skills for a more focused and successful investigation of terrorist activities.

A non-confrontational approach to interviewing has been recognized for the way it produces faster and more accurate results. In many cases, admissions are achieved without the suspect ever making a denial or protesting their innocence.

Course Topics, Discussions and Objectives:

- Causes Of Denials
- Causes of False Confessions
- Dealing with Difficult Subjects
- Selecting Non-Confrontational Methods
- Development of the Admission
