The Reid Technique of Interviewing and Interrogation®

New Lenox Police Department

Monday - Wednesday; October 21-23, 2024

8:00 am till 3:00 pm

This course complies with the guidelines of the following mandate(s):

- Civil Rights 1.0 Hour
- Const. Use of LE Authority 1.0 Hour
- Legal Updates 2.0 Hours
- Procedural Justice 12.0 Hours
- Lead Homicide Investigator 18.0 Hours (7.0 Hours Scenario-Based)

Course Description: This is a 3-day, twenty-one hour program on the Reid Technique of Interviewing and Interrogation®. The course includes; interview and interrogation preparation, behavior symptoms, the Reid® Behavior Analysis Interview (B.A.I.) and "The Reid Nine Steps of Interrogation" which include:

Interview and Interrogation Preparation

The style, appearance and approach of the successful interviewer and interrogator will be covered, as will the room settings conducive to these activities.

Behavior Symptoms

Differences in verbal and nonverbal behavior between innocent and deceptive persons often can be observed, and are thus indicative of whether or not a suspect is telling the truth. A guilty suspect makes a conscious decision to resist your effort to get at the truth. In trying to maintain a structure of verbal lies, however, that suspect most often develops internal conflicts and tensions which manifest themselves in nonverbal behavior. Thus, body movements, facial expressions, eye contact, attitudes, posture and grooming gestures can indicate whether the subject is telling the truth or lying. Nonverbal indicators can also be used to determine whether the suspect under interrogation is listening, maintaining a defiant attitude or is ready to confess. You will learn how to observe and assess critical behavior symptoms and use those assessments to determine whether to move on to the next step of the interrogation.

Reid® Behavioral Analysis Interview (B.A.I.)

The information developed through use of the standard investigative questions of "who," "what," "when" and "how" is often not adequate — even in combination with physical evidence — to identify the wrongdoer. The Reid Behavioral Analysis Interview is a technique that uses a structured set of non-accusatory behavior-provoking questions developed as a result of many thousands of interviews. The B.A.I. makes it easier to determine whether the suspect is telling the truth about involvement in the matter under investigation, and is flexible enough to be used in cases ranging from employee theft to homicide.

The Reid Nine Steps of Interrogation®

The nine-step approach to a successful interrogation has been developed by John E. Reid and Associates through extensive research and practical experience over a period of 60 years. Because of the subject's importance, approximately half the classroom time in the seminar is devoted to the interrogation process and detailed examination of each of the nine steps.

John Reid and Associates will provide the instructor for this class.

8:00 am till 3:00 pm

This course complies with the guidelines of the following mandate(s):

- Procedural Justice 3.0 Hours
- Lead Homicide Investigator 6.0 Hours (3.0 Hours Scenario-Based)

Course Description: This course is for individuals who have completed the 3-day seminar on *The Reid Technique of Interviewing and Interrogation*, and builds upon their knowledge of the Reid Technique.

Most unsuccessful interrogations are a result of the investigator's inability to move the guilty suspect from one stage of the interrogation to the other. *Reid* has defined three distinct stages of the interrogation that may give the investigator problems:

1. Defiant stage: seven proven tactics to move suspects out of this stage
2. Neutral stage: four proven techniques to get the suspect to listen to the interrogator's themes
3. Acceptance stage: three specific techniques that will dramatically increase admissions of guilt

People who commit crimes do so to fulfill certain needs. What needs were satisfied is based upon the case facts, evidence and results of the interview — types of needs that will be thoroughly discussed are:

- Real need crimes
- Impulse need crimes
- Esteem need crimes
- Lifestyle need crimes

The Advanced Seminar will also address the following specific problem areas for some but not all interrogations:

- Juvenile interrogations
- Interrogation regarding guilty knowledge
- Playing one suspect against another
- Interrogation on multiple crimes

Course Instructor: This course will be taught by Instructors with John E. Reid and Associates, Inc.

Adaptive Decision Making for Law Enforcement

New Lenox Police Department

200 Veterans Parkway, New Lenox, IL. 60451

Monday, October 28, 2024

8:00 am till 4:00 pm

This course complies with the guidelines of the following mandate(s):

- Civil Rights 1.0 Hour
- Const. Use of LE Authority 1.0 Hour
- Procedural Justice 1.0 Hour
- Use of Force 1.0 Hour

Course Description: The law enforcement environment can often be described as one that is a non-linear, open loop system, that happens at light speed. One where time can be either friend or foe. Operating in this environment creates stress which affects decision-making. Within this time-compressed environment officers often feel they need to act because they are there, rather than allowing the circumstances of the call to determine the urgency to act. The question is how to provide a strategy for officers to effectively control the stress response and to make lawful and ethical decisions. The answer is two-fold; 1) Emotional Intelligence and 2) The Adaptive Decision-Making Model.

The Adaptive Decision-Making Model addresses lawful and ethical decision-making. The model's foundation is the 4th Amendment Search and Seizure law. It asks, "Does the officer have the lawful authority to act or search or arrest?" Then examines the urgency to take an action, or what threshold of "government intrusion" will be acceptable to accomplish the law objective? This engaging workshop provides the attendees with strategies to increase their emotional intelligence competencies and develop their critical thinking and decision-making skills.

Course topics include:

- The 5 Pillars of Emotional Intelligence
- The Law Enforcement Environment
- Decision-making and Thinking Mental Models
- The Adaptive Decision-Making Model
