Course Description:

Recent events have placed police officers and the public they serve in the national spotlight in the news, on the internet, and in Federal and local court. These events usually start as encounters for minor traffic stops, petty ordinance violations, or disorderly conduct-based confrontations. Many of these non-arrest situations quickly escalate to physical, violent, and sometimes deadly force encounters. While the officers involved are acting properly and legally enforcing the laws they are sworn to uphold, day after judgments quickly become the focus.

This one-day seminar will help departments reduce citizen complaints based on perceived improper use of force incidents. Attendees will improve their verbal communication skills and recognize when an emotion-based rather than emotionally disability escalation is occurring. Officers will learn to explore alternative methods of safely and peacefully bringing a resolution to both the issue at hand and the reason for the encounter. This seminar will focus on everyday encounters with non-mentally impaired or disturbed individuals who are upset or agitated and may escalate the encounter based on anger issues and behavior. Officers will examine how to maintain scene and individual safety, and follow accepted personnel safety protocols. Participants will actively participate as both officers **and** subjects/offenders in some of the scenarios. This class is appropriate for CIT trained Officers, Patrol Officers, and Supervisors.

ATTENDEE COURSE GOALS:

- Learn the difference between confrontation and response/conversation.
- Learn how to use disarming and de-escalation phraseology with subjects.
- Learn what inflammatory phraseology is and how to avoid it.
- Understand the difference between deflecting and accusing during encounters.
- Identify how and when perception from a distance can be interpreted.
- Learn to identify physiological cues and tells of subjects escalating to a physical response.
- Understand how body chemistry works (endorphins, adrenalin and dopamine, etc.).
- Review how to reduce negative public perception during encounters.
- Learn how to secure a scene for responder and public safety during encounters.
- Learn how to avoid purposeful escalation and negative public perception.
- Recognize physical tells of cluster behavior in incident escalation.
- Identify situations which may relate to domestic terrorism activities.
